ET

This conference will be live on M-Vest. [Click Here to Reserve your seat](#)

About the Maxim Group Virtual Healthcare Conference

The exponential growth in knowledge and expertise in science and medicine continues to drive opportunities in the healthcare space. These include multiple therapeutic categories and emerging technologies, which our presenting companies at this year's Maxim Healthcare Conference are focused on, and for many, that includes key data-driven events in 2023. Maxim Senior Analysts will host a wide range of biotechnology and medical device companies in a series of presentations and interactive discussions with CEOs and key management. Maxim will also be hosting several topical industry panels that promise to be timely and engaging.

About M-Vest

M-Vest is a division of Maxim Group LLC that serves to allow investors to access investment opportunities online and to provide a digital community built for issuers, investors, and thought leaders to share information. The platform provides insights on current market trends through presentations from innovative emerging growth companies and commentary from industry thought leaders via live events and Q&A.

About Unicycive Therapeutics

Unicycive Therapeutics is a biotechnology company developing novel treatments for kidney diseases. Unicycive's lead drug, lanthanum dioxycarbonate (LDC), is a novel investigational phosphate binding agent being developed for the treatment of hyperphosphatemia in chronic kidney disease patients on dialysis. UNI-494 is a patent-protected new chemical entity in late preclinical development for the treatment of acute kidney injury. For more information, please visit www.unicycive.com.

Forward-looking statements

Certain statements in this press release are forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995. These statements may be identified using words such as "anticipate," "believe," "forecast," "estimated" and "intend" or other similar terms or expressions that concern Unicycive's expectations, strategy, plans or intentions. These forward-looking statements are based on Unicycive's current expectations and actual results could differ materially. There are several factors that could cause actual events to differ materially from those indicated by such forward-looking statements. These factors include, but are not limited to, clinical trials involve a lengthy and expensive process with an uncertain outcome, and results of earlier studies and trials may not be predictive of future trial results; our clinical trials may be suspended or discontinued due to unexpected side effects or other safety risks that could preclude approval of our product candidates; risks related to business interruptions, including the outbreak of COVID-19 coronavirus, which could seriously harm our financial condition and increase our costs and expenses; dependence on key personnel; substantial competition; uncertainties of patent protection and litigation; dependence upon third parties; and risks related to failure to obtain FDA clearances or approvals and noncompliance with FDA regulations. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: the uncertainties related to market conditions and other factors described more fully in the section entitled 'Risk Factors' in Unicycive's Annual Report on Form 10-K for the year ended December 31, 2021, and other periodic reports filed with the Securities and Exchange Commission. Any forward-looking statements contained in this press release speak only as of the date hereof, and Unicycive specifically disclaims any obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise.
