# Cemtrex Releases New Higher Spec Version of SmartDesk for High Performance Markets

FARMINGDALE, N.Y.--(BUSINESS WIRE)-- Cemtrex Inc. (Nasdaq: CETX, CETXP, CETXW), a world leading technology and manufacturing company, today announced the release of a second SmartDesk model with higher specs due to increasing demand for higher performance PCs. The new model will have more hard drive storage, 32GB RAM and a GTX 1060 graphics card.

Along with the new model, the company has released a new table surface option: Stealth Black. The Stealth Black version is a sleek, stylish satin black finish that embodies modern workspace design.

“We’ve been thrilled with the massive response to the SmartDesk since we launched in May,” said Cemtrex’s CEO Saagar Govil. “We’ve also received great feedback from a wide range of companies and individuals, culminating in the development of this new model. The first SmartDesk model still offers a powerful PC that’s suitable for most business applications, but this second model should satisfy the strong demand the Company has received from engineers, designers, video production, developers, and more who require powerful computing in their everyday work environment.”

Anyone who placed a reservation for a SmartDesk will have the option to upgrade before their SmartDesk ships and choose their desired color: Piano Black or Stealth Black.

Cemtrex’s SmartDesk is first product of its kind, designed to bring millions of Americans’ workplaces into the 21st Century. The SmartDesk has already garnered orders and interest from major airlines, world renowned universities, global engineering firms, banks, medical centers and other FORTUNE 500 corporations globally. The SmartDesk has recently received positive reviews and coverage from various tech and consumer outlets, including:
