FINANCIAL POSITION

As of June 30, 2017, FIBRA Prologis' liquidity was Ps. 2.8 billion (US\$155.5 million), which included Ps. 2.6 billion (US\$145.0 million) of available capacity on its unsecured credit facility and Ps. 188.8 million (US\$10.5 million) of unrestricted cash.

During the quarter, FIBRA Prologis fully repaid two secured debt facilities totaling US\$176.6 million, both scheduled to mature this year. US\$64.1 million with a debt cost of 7.9 percent and US\$112.5 million with a debt cost of 6.9 percent were repaid with borrowings under the

unsecured credit facility at par, decreasing the overall cost of debt by approximately 90 basis points from 4.9 to 4.0 percent quarter-over-quarter.

Subsequent to quarter end, FIBRA Prologis completed two transactions with a syndicate of domestic and international banks for a US\$150.0 million unsecured term loan and a new US\$325.0 million unsecured credit facility with a US\$150.0 million accordion feature, that can be drawn from either product. Both financings have options which extend maturity to 2022. The debt cost of the term loan and new credit facility are approximately 3.3 percent and 3.4 percent, respectively. Proceeds were used to repay the former unsecured credit facility, which was scheduled to mature in 2019.

"With the recent signing of the new unsecured term loan and credit facility, our 2017 refinancing strategy is nearly complete," said Jorge Girault, senior vice president, Finance, Prologis Mexico. "We have refinanced US\$176.6 million to date, reducing our debt costs while keeping leverage levels steady and pushing out term. The result is a more flexible balance sheet that puts us in an excellent position to seize future opportunities."

"Our strong performance and healthy market conditions, along with an improving macroeconomic environment for Mexico, are reflected in our updated guidance" added Girault.
