Sigma Labs Expands Business Development in North and South America With Appointment of Justin Joiner as Business Development Manager, Americas

SANTA FE, N.M., March 26, 2019 (GLOBE NEWSWIRE) -- Sigma Labs, Inc. (NASDAQ: SGLB) ("Sigma Labs" or the "Company"), a provider of quality assurance software under the PrintRite3D® brand, has appointed Justin Joiner as the Company's new Business Development Manager, Americas. Mr. Joiner will be responsible for developing key accounts through the Company's Rapid Test and Evaluation Program and for bringing PrintRite3D INSPECT® into deployment across serial production operations in North and South America.

"Sigma Labs is expanding its North and South America customer sales and support team to meet the needs of growing markets in this region, and Justin is ideally placed to manage our frontline efforts," said Ron Fisher, Vice President of Business Development of Sigma Labs. "His extensive experience in the additive manufacturing space will be a great asset to the company as it seeks to expand its footprint in this part of the world."

Mr. Joiner brings a diverse 13-year background in sales and business development in additive manufacturing machines, CAD/CAM software and inspection technology. Most recently, he was South Region Manager at SLM Solutions NA, Inc., a company with a focus on delivering best-in-class metal additive manufacturing equipment. In addition, Justin worked in sales and business development for several industry resellers representing MarkForged, Stratasys and Solidworks products.

Sigma's latest advancements in its in-process quality monitoring software technology, combined with the Rapid Test and Evaluation Program, give users an opportunity to experience PrintRite3D's capabilities firsthand. The onsite Rapid Test and Evaluation Program aims to demonstrate performance comparable to microCT inspection, showing users how they can reduce waste, reduce post-process inspection time and increase productivity.

With increased customer adoption and the release of its new PrintRite3D INSPECT® version 4.1 In Process Quality Assurance and Control Software technology, Sigma Labs is dedicated to supporting the additive manufacturing user base with an expanded global presence.

About Sigma Labs

Sigma Labs, Inc. is a provider of quality assurance software under the PrintRite3D® brand and a developer of advanced, in-process, non-destructive quality assurance software for commercial firms worldwide seeking productive solutions for advanced manufacturing. For
