New York, August 9, 2011 – Apollo Global Management, LLC (NYSE: APO) and its consolidated subsidiaries (collectively, “Apollo”) today reported results for the second quarter ended June 30, 2011.

Total Economic Net Income (“ENI”) was \$139.6 million for the second quarter of 2011, an increase of \$116.7 million or 510% compared to ENI for the second quarter of 2010. The increase was primarily driven by Apollo’s Incentive Business, which reported \$94.8 million of ENI for the second quarter of 2011, an increase of \$133.4 million compared to the second quarter of 2010, which was largely the result of higher carried interest income in Apollo’s private equity segment. Apollo’s Management Business reported \$44.8 million of ENI for the second quarter of 2011 compared to Management Business ENI of \$34.0 million for the second quarter of 2010, after excluding a \$27.5 million gain from insurance proceeds received during the second quarter of 2010.

Apollo’s total revenue grew significantly during the second quarter of 2011 compared to the second quarter of 2010. Total revenue was \$308.9 million during the second quarter of 2011, an increase of \$229.6 million or 290% versus the second quarter of 2010. Total revenue was primarily driven by \$152.9 million of carried interest income in the incentive business during the second quarter of 2011, which improved by \$216.8 million compared to the second quarter of 2010. Management fee revenue of \$121.2 million in the second quarter of 2011 increased \$15.0 million or 14% versus the second quarter of 2010, and net transaction and advisory fee revenue of \$23.6 million for the second quarter of 2011 decreased slightly from \$26.8 million during the second quarter of 2010.

Total AUM was \$71.7 billion as of June 30, 2011, compared to \$54.5 billion as of June 30, 2010, an increase of \$17.2 billion, or 32%. The growth in total AUM was driven by appreciation in the underlying value of the fund investments managed by Apollo. Fee-generating AUM was \$48.9

billion as of June 30, 2011, compared to \$43.2 billion as of June 30, 2010, an increase of \$5.7 billion, or 13%.

GAAP results for the second quarter ended June 30, 2011 included a net loss attributable to Apollo Global Management, LLC of \$51.0 million, compared to a net loss attributable to Apollo Global Management, LLC of \$75.1 million during the second quarter ended June 30, 2010. GAAP results for the six months ended June 30, 2011 included a net loss attributable to Apollo Global Management, LLC of \$12.8 million, compared to a net loss attributable to Apollo Global Management, LLC of \$135.8 million during the six months ended June 30, 2010.

Private Equity Segment

ENI from Apollo's private equity segment was \$117.5 million for the second quarter of 2011, compared to \$42.2 million for the second quarter of 2010. The significant improvement in ENI was primarily driven by a \$178.6 million increase in carried interest income, partially offset by a corresponding \$79.1 million increase in profit sharing expense, as well as a \$24.4 million decrease in other income that was primarily the result of a gain from insurance proceeds received during the second quarter of 2010.

Carried interest income from Apollo's private equity segment was \$139.0 million for the second quarter of 2011, which includes realized gains of \$171.4 million that was primarily driven by the sale of Hughes Communication's Inc., a portfolio company investment in Fund IV, as well as interest income received from Fund VI and Fund VII debt investments.

As of June 30, 2011, Fund VII generated an annual gross and net IRR of 41% and 29%, respectively, since its inception in 2008, while Fund VI, which began investing in 2006 during the peak of the credit and housing market boom, generated an annual gross and net IRR of 14% and 11%, respectively, since its inception in 2006. Uncalled private equity commitments, or "dry powder", was \$9.9 billion as of June 30, 2011.

Capital Markets Segment

ENI from Apollo's capital markets segment was \$17.8 million for the second quarter of 2011, compared to a \$13.2 million economic net loss for the second quarter of 2010. The growth in ENI was primarily driven by a \$38.2 million increase in carried interest income from the Incentive Business of the capital markets segment, partially offset by a corresponding \$24.3 million increase in profit sharing expense.

Carried interest income from the capital markets segment was \$25.1 million for the second quarter of 2011, which included \$18.5 million of realized gains that were driven by the sale of investments in the senior credit funds along with interest and dividend income generated by AINV, and unrealized gains of \$6.6 million that were primarily driven by the appreciation of investments in Apollo's senior credit funds.

Apollo has continued to build scale in its capital markets businesses through new products and acquisitions, particularly in senior loans. In the second quarter of 2011, Apollo successfully raised \$461 million for its third new collateralized loan obligation (CLO) since last year. In addition, subsequent to the end of the second quarter, Apollo agreed, subject to certain terms and conditions, to acquire Gulf Stream Asset Management ("Gulf Stream"), which currently manages 10 Collateralized Loan Obligations ("CLOs") with more than \$3 billion in AUM. The transaction is expected to close during the third quarter of 2011.

Real Estate Segment

Apollo's real estate segment had economic net income of \$4.3 million for the second quarter of 2011, compared to a \$6.1 million loss for the second quarter of 2010. Total revenues for the real estate segment during the second quarter of 2011 were \$9.7 million, as compared to \$1.6 million in the second quarter of 2010. The \$8.1 million increase in revenues was primarily driven by increased management fees following Apollo's acquisition of Citi Property Investors ("CPI") in November 2010. Other income for the second quarter of 2011 includes an \$8.0 million gain for the reimbursement of previously incurred offering costs related to the launch of Apollo Commercial Real Estate Finance, Inc ("ARI").

During the second quarter of 2011, Apollo's AGRE U.S. Real Estate Fund, L.P. ("AGRE U.S.") held a second closing, and subsequent to the end of the quarter, AGRE U.S. announced a joint venture with Driftwood Hospitality Management to acquire, renovate and reflag full-service hotels across the United States.

Apollo's real estate AUM has increased compared to the prior year. As of June 30, 2011, AUM was \$7.6 billion, compared to \$2.1 billion at June 30, 2010.

Capital and Liquidity

As of June 30, 2011, Apollo had \$837.0 million of cash and cash equivalents and \$738.8 million of debt. These amounts exclude cash and debt associated with Apollo's consolidated funds and consolidated variable interest entities. As of June 30, 2011, Apollo also had a \$2,201.0 million carried interest receivable and corresponding profit sharing payable of \$836.5 million, resulting in a net carried interest receivable of \$1,364.5 million. At June 30, 2011, Apollo also had equity method investments of \$298.4 million.

Apollo Global Management, LLC has declared a second quarter 2011 cash distribution of \$0.24 per Class A share, which comprises a regular distribution of \$0.07 per Class A share and a quarterly distribution of \$0.17 per Class A share paid largely as a result of continued incentive realizations and interest income received during the quarter. Non-GAAP Financial Information

Economic Net Income, or ENI, is a key performance measure used by management in evaluating the performance of Apollo's private equity, capital markets and real estate segments, as management believes the amount of management fees, advisory and transaction fees and carried interest income are indicative of the Company's performance. Management also uses ENI in making key operating decisions such as the following:

- Decisions related to the allocation of resources such as staffing decisions including hiring and locations for deployment of the new hires;
- Decisions related to capital deployment such as providing capital to facilitate growth for the business and/or to facilitate expansion into new businesses; and
- Decisions related to compensation expense, such as determining annual discretionary bonuses to its employees. As it relates to compensation, management seeks to align the interests of certain professionals and selected other individuals who have a profit sharing interest in the carried interest income earned in relation to the funds, with those of the investors in such funds and those of the Company's shareholders. To achieve that objective, a certain amount of compensation is based on the Company's performance and growth for the year.

ENI is a measure of profitability and has certain limitations in that it does not take into account certain items included under U.S. GAAP. ENI represents segment income (loss) attributable to Apollo Global Management, LLC, which excludes the impact of non-cash charges related to equity-based compensation, income taxes and Non-Controlling Interests. In addition, segment data excludes the assets, liabilities and operating results of the funds and VIEs that are included in the consolidated financial statements.

Real Estate

The following table summarizes the investment record for our real estate funds. Each fund included in the table below did not begin investing the majority of its capital, or was not the manager for, at least 24 months prior to the valuation date of June 30, 2011. Due to the limited investment period for these funds, return information is not provided since we do not believe such information is meaningful. All amounts are as of June 30, 2011, unless otherwise noted:

- (3) U.S. dollar denominated.
- (4) Funds denominated in Euros and translated into U.S. dollars at an exchange rate of €1.00 to \$1.45 as of June 30, 2011.
- (5) CPI Other consists of funds or individual investments of which we are not the general partner or manager and only receive fees pursuant to either a sub-advisory agreement or an asset management and administrative agreement.
- (6) Reflects initial gross raised capital and does not include distributions subsequent to capital raise.
- (7) Represents U.S. GAAP equity.
- (8) Returns are not presented because dates are prior to 24 months from inception of the fund.
- (9) As part of the CPI acquisition, the company acquired general partner interests in fully invested funds. The net IRRs from the inception of the respective fund to June 30, 2011 were (11.9%), (0.2%) and (18.7%) for CPI Capital Partners North America, Asia Pacific and Europe, respectively. These net IRRs were primarily achieved during a period in which Apollo did not make the initial investment decisions and Apollo has only become the general partner or manager of these funds since completing the acquisition on November 12, 2010.
- (10) CPI Other fund performance is a result of invested capital prior to Apollo's management of these funds. Gross assets and return data is therefore not considered meaningful as we perform primarily an administrative role.
