Forward-Looking Statements

This presentation is for informational purposes only and does not constitute an offer to sell, or a solicitation of offers to purchase, Global Medical REIT Inc.'s (the "Company", or "GMRE") securities. The information contained in this presentation does not purport to be complete and should not be relied upon as a basis for making an investment decision in the Company's securities. This presentation also contains statements that, to the extent they are not recitations of historical fact, constitute "forward-looking statements." Forward-looking statements are typically identified by the use of terms such as "may," "should," "expect," "could," "intend," "plan," "anticipate," "estimate," "believe," "continue," "predict," "potential" or the negative of such terms and other comparable terminology. The forward-looking statements included herein are based upon the Company's current expectations, plans, estimates, assumptions and beliefs that involve numerous risks and uncertainties. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the Company's control. Although the Company believes that the expectations reflected in such forward-looking statements are based on reasonable assumptions, the Company's actual results and performance could differ materially from those set forth in the forward-looking statements due to the impact of many factors including, but not limited to, those discussed under "Risk Factors" in the Company's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q and any prospectus or prospectus supplement filed with the Securities and Exchange Commission ("SEC"). The Company undertakes no obligation to update or revise any such information for any reason after the date of this presentation, unless required by law.

This presentation includes information regarding certain of our tenants, which are not subject to SEC reporting requirements. The information related to our tenants contained in this report was provided to us by such tenants or was derived from publicly available information. We have not independently investigated or verified this information. We have no reason to believe that this information is inaccurate in any material respect, but we cannot provide any assurance of its accuracy. Demographic & Healthcare Tailwinds Support Our Strategic Vision

Shifting demographics and consumer preferences drive healthcare industry growth

An Aging Population Will Drive Healthcare Costs (1)

- The U.S. 65+ age group is growing faster than the country's population
 - ~10,000 Baby Boomers turn 65 every day
 - By 2030, older adults will make up 20% of the American population, up from 13% today
- Approximately 90% of adults over 65 have one or more chronic conditions; this includes diabetes, heart disease, arthritis, depression, and hypertension
- About 25% of Baby Boomers expect to live past age 90, which will require more medical attention and lead to an increase to healthcare spending

⁽¹⁾Years 2018 - 2028 are projections.

⁽²⁾CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960).

⁽³⁾ Projections do not take into account the impacts of COVID-19 because of the timing of the report and the highly uncertain nature of the pandemic.

Increasing Demand for Localized Delivery

Shifting demographics and consumer preferences drive healthcare industry growth

Conveniently Located Healthcare Will Be in Higher Demand (1)

- According to the 2017 CVS Health Institute survey, individuals aged 65+ want to be independent as long as possible.
- > 79% of the survey participants noted that they plan to "age in place," either alone or with a spouse or family member.
- > 96% of seniors rated convenient location as somewhat important or very important to their healthcare decisions.

Targeted Approach To Acquisitions

Focused on constructing a portfolio comprised substantially of off-campus, purpose-built, medical facilities such as MOBs, specialty hospitals, IRFs and ASCs, that are geographically situated to take advantage of the aging U.S. population and the decentralization of healthcare

- ✓ Institutional quality
- ✓ Purpose-built real estate
- ✓ Single tenant focus with selective multi-tenant acquisitions
- ✓ Class A / Recent construction or renovation
- ✓ Amenitized patient areas
- ✓ Convenient access / location
- ✓ Long-term leases with annual rent escalations

- Strong providers with leading market share
- Rent guarantees and other credit protection
- ✓ Specialization in age-related procedures
- ✓ Operators with regional footprints
- ✓ Strong and diversified payor mix

- ✓ Healthcare market with clear and quantifiable competitive dynamics
- ✓ Positioned to benefit from ongoing decentralization trends in healthcare
- ✓ Proximity to related resources
- ✓ Long-term positive demand drivers (population growth and demographics)
- ✓ Barriers to competition

Footnotes

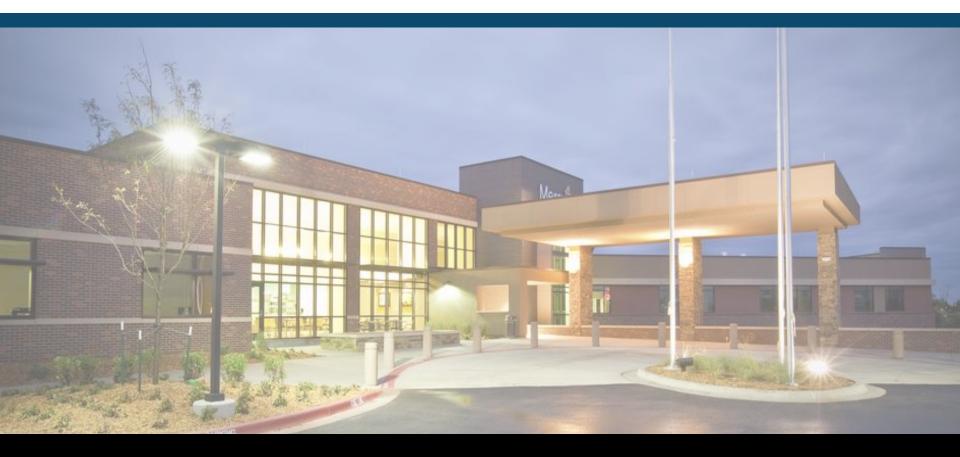

Rent Coverage Ratio

For purposes of calculating our portfolio weighted-average EBITDARM coverage ratio ("Rent Coverage Ratio"), we excluded credit-rated tenants or their subsidiaries for which financial statements were either not available or not sufficiently detailed. These ratios are based on latest available information only. Most tenant financial statements are unaudited and we have not independently verified any tenant financial information (audited or unaudited) and, therefore, we cannot assure you that such information is accurate or complete. Certain other tenants (approximately 3% of our portfolio) are excluded from the calculation due to lack of available financial information. Additionally, our Rent Coverage Ratio adds back physician distributions and compensation. Management believes all adjustments are reasonable and necessary.

Annualized Base Rent

Monthly base rent at September 30, 2020 multiplied by 12 (or actual NOI where more reflective of property performance). Accordingly, this methodology produces an annualized amount as of a point in time but does not take into account future contractual rental rate increases.
