Rent Coverage Ratio

For purposes of calculating our portfolio weighted-average EBITDARM coverage ratio (“Rent Coverage Ratio”), we excluded credit-rated tenants or their subsidiaries for which financial statements were either not available or not sufficiently detailed. These ratios are based on latest available information only. Most tenant financial statements are unaudited and we have not independently verified any tenant financial information (audited or unaudited) and, therefore, we cannot assure you that such information is accurate or complete. Certain other tenants (approximately 7% of our portfolio) are excluded from the calculation due to (i) lack of available financial information or (ii) receipt of significant COVID-19 relief funds that may cause reported coverage to differ materially from underlying performance. Additionally, our Rent Coverage Ratio adds back physician distributions and compensation. Management believes all adjustments are reasonable and necessary.
