December 3, 2019

General Disclosure

This presentation includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenue or performance, capital expenditures, financing needs, plans or intentions relating to acquisitions, business trends and other information that is not historical information. When used in this presentation, the words “estimates,” “expects,” “anticipates,” “projects,” “plans,” “intends,” “believes,” “forecasts,” or future or conditional verbs, such as “will,” “should,” “could” or “may,” and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, management’s examination of historical operating trends and data, are based upon our current expectations and various assumptions. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management’s expectations, beliefs and projections will be achieved.

The forward-looking statements in this release are subject to uncertainty and changes in circumstances and involve risks and uncertainties that may affect the company's operations, markets, products, services, prices and other factors as discussed in the Huntsman companies' filings with the U.S. Securities and Exchange Commission. Significant risks and uncertainties may relate to, but are not limited to, volatile global economic conditions, cyclical and volatile product markets, disruptions in production at manufacturing facilities, timing of proposed transactions, reorganization or restructuring of Huntsman’s operations, including any delay of, or other negative developments affecting the ability to implement cost reductions and manufacturing optimization improvements in Huntsman businesses and realize anticipated cost savings, and other financial, economic, competitive, environmental, political, legal, regulatory and technological factors. Any forward-looking statement should be considered in light of the risks set forth under the caption “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2018, which may be supplemented by other risks and uncertainties disclosed in any subsequent reports filed or furnished by us from time to time.

All forward-looking statements attributable to us or persons acting on our behalf apply only as of the date made. We undertake no obligation to update or revise forward-looking statements which may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events.

This presentation contains financial measures that are not in accordance with generally accepted accounting principles in the U.S. (“GAAP”), including adjusted EBITDA, adjusted EBITDA from discontinued operations, adjusted net income (loss), adjusted diluted income (loss) per share, free cash flow and net debt. Reconciliations of non-GAAP measures to GAAP are provided in the financial schedules attached to the earnings news release and available on the Company's website at <http://ir.huntsman.com/>.

The Company does not provide reconciliations of forward-looking non-GAAP financial measures to the most comparable GAAP financial measures on a forward-looking basis because the Company is unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and amount of certain items, such as, but not limited to, (a) business acquisition and integration expenses, (b) merger costs, and (c) certain legal and other settlements and related costs. Each of such adjustments has not yet occurred, are out of the Company's control and/or cannot be reasonably predicted. For the same reasons, the Company is unable to address the probable significance of the unavailable information.

Simplification and Transformation to Downstream

- Sold Base Chemicals
- Sold Polymers
- Acquired Textile Effects

- Acquired Rockwood's TiO₂ and Additives assets (2014)
- Announced our intention to IPO the TiO₂ business in 2 years

- Sold EU Surfactants (2016)
- Separated TiO₂ & Additives assets (Venator) through an IPO & Secondaries (2017 & 2018)
- Announced the CI&S sale (2019)

Since 2005, we've bolted on a dozen downstream businesses and completed several projects to position Huntsman Corporation for long term success.

Since 2015, we've improved the consistency of our cash generation and transformed our balance sheet with non-core asset sales.

Divestiture Process Update

- On track to close early 2020
 - Necessary competition law clearances received
 - CFIUS approval pending
 - IT systems separation efforts and integration planning on schedule
- Estimated net cash proceeds of ~\$1.6 billion upon closing, subject to customary closing and post-closing adjustments
- Retained SG&A costs of ~\$30 million reported presently in the Performance Products division continuing operations
 - Income for transitional services expected and will be reported as a special item
- Evaluation of overall corporate-wide costs underway for realignment to transformed downstream portfolio

Huntsman's Transformed Portfolio

Core Platforms for Downstream Strategic Growth

Criteria for Strategic Growth:

- Complementary to key markets across core platforms
- Significant synergies through global scale up, routes to market, complementary new technology and pull through
- Strong financial metrics including strong free cash flow
 - Organic capital hurdle rate of >20% & inorganic IRR of >mid-teens

Huntsman M&A Activity

Recent Success in Bolt-on Acquisitions

Demilec (Spray Polyurethane Foam)

- Huntsman acquired Demilec, a leading North American spray polyurethane foam insulation manufacturer, on April 23, 2018, for ~\$350 million; 11.5x adj. EBITDA
- With synergies already achieved, the purchase price is now approaching 7.5x adj. EBITDA
- Acquisition rationale:
 - Polymeric MDI pull-through downstream
 - New technologies
 - Global scale-up opportunity

Maleic Anhydride Joint Venture

- Huntsman acquired the remaining 50% interest in the Sasol-Huntsman maleic anhydride joint venture from Sasol on September 30, 2019, for ~\$100 million including net cash (~5.0x adj. EBITDA)
- Acquisition rationale:
 - Fully integrate European business into worldwide footprint and thereby better servicing global customer base
- Aligned with core strategy to expand portfolio of businesses with higher, more stable margins and strong free cash flow

Miralon® (Carbon Nanotube-based Technology)

- Huntsman acquired the Miralon® carbon nanotube-based product line with the acquisition of Nanocomp Technologies on February 15, 2018, for an undisclosed amount
- Acquisition rationale:
 - Expand the suite of current product solutions in the Advanced Materials businesses to incorporate innovative material properties such as conductivity and EMI shielding

Bolt-on Acquisition Strategy

Huntsman focuses on bolt-on acquisition opportunities meeting the following strategic criteria:

Huntsman's Strategic Priorities

Complete the sale of Chemical Intermediates and Surfactants businesses in early 2020

Keep a strong investment grade balance sheet

Consistently generate strong free cash flow to fund growth and provide a strong return to shareholders, including a competitive dividend

Grow the downstream businesses across the core strategic platforms by making financially compelling organic and inorganic investments

Downstream Growth Initiatives

- Systems houses under construction in North China and Taiwan, and a TPU line in Jinshan, China
 - Recently opened systems house in Dubai
- Construction of a new MDI splitter in Geismar, LA to increase the Americas differentiated split ratio by >50%
 - Expected to be fully functional in 2021
 - Cost estimate of \$175 million and IRR significantly above a 20% hurdle rate
- Committed to ongoing bolt-on acquisition strategy to pull more component MDI into our downstream businesses
- 2018 spray polyurethane foam acquisition of Demilec is meeting expectations
 - YTD low double-digit volume growth
 - Synergies on track and as expected
 - Demilec's adj. EBITDA already benefiting from global scale-up

Focus on Growing Differentiated Volumes

Sale of Chemical Intermediates and Surfactants

Transaction Summary

- On August 7, 2019, Huntsman announced an agreement to sell its chemical intermediates and surfactants businesses to Indorama Ventures for ~\$2.1 billion (including transferred pension and other post-employment benefit liabilities)
 - Implied transaction multiple of ~8.0x LTM Q2 2019 adjusted EBITDA (incl. ~\$30 million of retained SG&A costs)
- A transformative milestone:** the divestiture reduces Huntsman's capital-intensive upstream footprint and enables greater focus on its more stable, differentiated downstream strategy and complementary businesses
