# Huntsman Releases 2009 Third Quarter Results

## STRONG ADJUSTED EBITDA RESULTS PRIMARILY FROM IMPROVED CONTRIBUTION MARGINS AND REDUCED CASH FIXED COSTS

THE WOODLANDS, Texas, Nov. 4/PRNewswire-FirstCall/ -- (NYSE: HUN)

### *Third Quarter 2009 Highlights*

- Revenues for the third quarter of 2009 were \$2,108 million, an increase of 13% compared to \$1,866 million for the second quarter of 2009 and a decrease of 23% compared to \$2,731 million for the third quarter of 2008.
- Adjusted EBITDA for the third quarter of 2009 was \$200 million compared to \$96 million for the second quarter of 2009 and \$194 million for the third quarter of 2008.
- Net loss attributable to Huntsman Corporation for the third quarter of 2009 was \$68 million or \$0.29 loss per diluted share compared to net income attributable to Huntsman Corporation of \$406 million or \$1.51 per diluted share for the second quarter of 2009 and net loss attributable to Huntsman Corporation of \$20 million or \$0.09 loss per diluted share for the third quarter of 2008. Adjusted net loss for the third quarter of 2009 was \$55 million or \$0.24 loss per diluted share, impacted by an unusually high adjusted effective tax rate (more than 300%, due to tax valuation allowances) which more than offset adjusted positive pretax earnings of \$27 million(1)--we believe our long term effective tax rate is 35%. This compares to adjusted net loss of \$64 million or \$0.27 loss per diluted share for the second quarter of 2009 and adjusted net loss of \$2 million or \$0.01 loss per diluted share for the third quarter of 2008.
- On October 16, 2009, we terminated our existing short term (364 day) accounts receivable securitization program that was scheduled to mature November, 2009. We replaced it with two new multi-year securitization programs (a U.S. program and a European program).
- On September 27, 2009, we announced that our styrenics operations in West Footscray, Australia would be closed. This site closure completes our process of exiting all commodity polymer businesses. This operation represents less than 2% of our 2008 global sales, and posted an adjusted EBITDA loss of almost \$24 million for 2008, based on an operating loss of approximately \$29 million less impairment charges of \$5 million.
- On August 31, 2009, we announced we had entered into a "stalking horse" asset and equity purchase agreement with Tronox Incorporated. The agreement provides for the purchase out of bankruptcy of certain titanium dioxide and electrolytics production facilities, as well as a joint venture interest, for \$415 million including working capital. We expect a decision by the U.S. Bankruptcy Court in early December 2009.
- On July 23, 2009, we redeemed all \$296 million principal amount of our outstanding 11.625% senior secured notes due 2010 and on August 3, 2009, we redeemed all \$198 million principal amount of our outstanding 11.5%

senior notes due 2012. This debt reduction eliminated all meaningful debt maturities until 2013 other than our accounts receivable securitization programs.

Summarized earnings are as follows:

Peter R. Huntsman, our President and CEO, stated:

*"I am very pleased with our third quarter result. Our Adjusted EBITDA more than doubled to \$200 million during the third quarter from \$96 million in the prior quarter. We saw improved demand across our businesses and remain encouraged by our monthly year-over-year order pattern. We continue to see the positive results of our decisions during the past three years to expand our Asian operations and to focus on more differentiated chemistry while divesting of our commodity chemicals and plastics businesses. This geographic expansion and optimized product portfolio has allowed us to take advantage of markets less affected by the ongoing global recession. Additionally, our focus on costs, pricing and working capital has further contributed to our steady improvement in operating results throughout the year."*

He added, *"Looking forward, I am optimistic that the economic recovery will continue. While we anticipate our fourth quarter earnings to be better than last year's results for the comparable quarter, we expect fourth quarter's earnings to be seasonally lower than those announced today."*

### *Three Months Ended September 30, 2009 Compared to Three Months Ended September 30, 2008*

Revenues for the three months ended September 30, 2009 decreased to \$2,108 million from \$2,731 million for the same period in 2008. Revenues decreased primarily due to lower average selling prices in all our segments and lower sales volumes in our Advanced Materials, Textile Effects and Performance Products segments partially offset by sales volume increases in our Polyurethanes and Pigment segments.

For the three months ended September 30, 2009, EBITDA was \$107 million compared to \$165 million in the same period in 2008. Adjusted EBITDA for the three months ended September 30, 2009 was \$200 million compared to \$194 million for the same period in 2008 (which was impacted by \$49 million of costs and lost profit margin from the 2008 U.S. Gulf Coast storms).

#### *Polyurethanes*

The decrease in revenues in our Polyurethanes segment for the three months ended September 30, 2009 compared to the same period in 2008 was primarily due to overall lower average selling prices and lower MDI sales volumes. Average MDI selling prices decreased due to competitive pressures, lower raw material costs and strength of the U.S. dollar against the Euro. Global MDI sales volumes decreased as the effects of the worldwide economic slowdown continue to affect demand. PO and MTBE sales volumes increased compared to the 2008 period, which was impacted by the 2008 U.S. Gulf Coast storms, and average selling prices decreased in response to lower raw material costs. The increase in EBITDA in our Polyurethanes segment was primarily the result of higher MTBE margins and sales volumes and the negative effects in the 2008 period caused by the 2008 U.S. Gulf Coast storms, offset in part by lower MDI sales volumes.

#### *Advanced Materials*

The decrease in revenues in our Advanced Materials segment for the three months ended September 30, 2009 compared to the same period in 2008 was due to lower sales volumes and lower average selling prices. Sales volumes decreased across all regions as a result of the worldwide economic slowdown. Average selling prices in our base resins market decreased in response to lower raw material costs while average selling prices in our

formulations and specialty components markets decreased primarily as a result of the strength of the U.S. dollar against major European currencies. The decrease in EBITDA was primarily due to lower sales volumes, partially offset by lower raw material and operating costs. During the three months ended September 30, 2009 and 2008, our Advanced Materials segment recorded a restructuring and plant closing credit of \$2 million and nil, respectively.

#### *Textile Effects*

The decrease in revenues in our Textile Effects segment for the three months ended September 30, 2009 compared to the same period in 2008 was due to lower average selling prices and lower sales volumes. Average selling prices decreased primarily as a result of the strength of the U.S. dollar against major European currencies, the Indian rupee, the Brazilian real and the Mexican peso. Sales volumes decreased primarily due to lower demand for apparel, home and specialty textile products in the Americas and Europe as well as mill closures in these regions as a result of the worldwide economic slowdown. The decrease in EBITDA was primarily due to the lower volumes partially offset by continued fixed cost reductions. During the three months ended September 30, 2009 and 2008, our Textile Effects segment recorded restructuring and plant closing charges of \$3 million and \$2 million, respectively.

#### *Performance Products*

The decrease in revenues in our Performance Products segment for the three months ended September 30, 2009 compared to the same period in 2008 was due to lower average selling prices and lower sales volumes. The decrease in average selling prices was primarily due to lower raw material costs and the strengthening of the US dollar against major European currencies and the Australian dollar. Sales volumes decreased primarily due to lower demand for surfactants, partially offset by improved sales volumes across other product areas, which were impacted in the 2008 period by the 2008 U.S. Gulf Coast storms. EBITDA increased due to the effect of higher margins as raw materials costs decreased faster than selling prices and the negative effects in the 2008 period caused by the 2008 U.S. Gulf Coast storms, partially offset by lower sales volumes and commissioning expenses for our new maleic anhydride facility.

#### *Pigments*

The decrease in revenues in our Pigments segment for the three months ended September 30, 2009 compared to the same period in 2008 was due to lower average selling prices, partially offset by higher sales volumes. Average selling prices decreased primarily as a result of lower selling prices in Europe and Asia and due to the strength of the U.S. dollar against major European currencies. Sales volumes increased primarily due to higher demand in Europe. The decrease in EBITDA in our Pigments segment was primarily due to lower selling prices, higher restructuring, impairment and plant closing costs and to acquisition costs incurred in the 2009 period in connection with the proposed Tronox Transaction, offset in part by lower raw material and energy costs. During the three months ended September 30, 2009 and 2008, our Pigments segment recorded restructuring, impairment and plant closing charges of \$4 million and nil, respectively.

#### *Corporate and Other*

Corporate and Other includes the results of our Australia styrenics business, unallocated foreign exchange gains and losses, unallocated corporate overhead, loss on accounts receivable securitization program, income (expenses) associated with the terminated merger with Hexion and related litigation, loss on early extinguishment of debt, income (loss) attributable to noncontrolling interests, unallocated restructuring costs, extraordinary gain on the acquisition of a business and non-operating income and expense. The decrease in EBITDA from Corporate and Other resulted partially from a \$56 million increase in restructuring charges (\$57 million in the 2009 period compared to \$1 million in the 2008 period) primarily related to the announced closure of our styrenics operations at West Footscray, Australia. Also contributing to lower EBITDA was a \$21 million charge in 2009 due to early extinguishment of debt. These decreases to EBITDA were partially offset by a \$24 million decrease in expenses associated with the terminated merger and related litigation (\$2 million in the 2009 period compared to \$26 million in the 2008 period). Additionally, the decrease in EBITDA was offset by a \$2 million increase in unallocated foreign exchange gains (\$6 million in gains in the 2009 period versus \$4 million in gains in the 2008 period) and a \$4 million reduction in costs associated with our accounts receivable securitization program.

### *Income Taxes*

During the three months ended September 30, 2009, we recorded no income tax expense compared to \$17 million of income tax expense in the same period of 2008. Despite pre-tax losses, we have not recorded tax benefits due to pre-tax losses in jurisdictions where we do not record a tax benefit due to valuation allowances. Our tax obligations are affected by the mix of income and losses in the tax jurisdictions in which we operate. In 2009, we expect to pay cash taxes of approximately \$21 million primarily related to foreign taxable income and approximately \$129 million primarily related to U.S. taxable income. We paid approximately \$127 million in U.S. cash taxes during the third quarter associated with the settlement of our litigation in Texas with Credit Suisse and Deutsche Bank which was reduced from our earlier estimate of \$185 million as a result of favorable tax offsets related to the closure of our Australia styrenics operations.

### *Liquidity, Capital Resources and Outstanding Debt*

As of September 30, 2009, we had \$2,412 million of combined cash and unused borrowing capacity compared to \$1,291 million at December 31, 2008. Excluding the impact of the Texas bank litigation settlement, related taxes and the resulting redemptions of our notes in 2009, compared to prior year end our liquidity as of September 30, 2009 has remained relatively flat despite the impact of the worldwide recession on earnings. This was largely due to effective working capital management, reduced capital expenditures and minimal amount of scheduled debt maturities.

During the third quarter of 2009, our primary working capital (accounts receivable including our off balance sheet accounts receivable securitization program, inventory and accounts payable) decreased providing a cash benefit to us of \$92 million. Total capital expenditures were \$40 million during the third quarter of 2009 compared to \$101 million for the same period in 2008. We expect to spend approximately \$200 million on capital expenditures in 2009 compared to \$418 million in 2008.

During the quarter we redeemed all (\$296 million principal amount) of our outstanding

11.625% senior secured notes due 2010 and all (\$198 million principal amount) of our outstanding 11.5% senior notes due 2012. The total redemption payments, excluding accrued interest, were a combined total of \$509 million, including principal of \$494 million and call premiums of approximately \$15 million.

On October 16, 2009, we terminated our existing short term (364 day) accounts receivable securitization program that was scheduled to mature November 2009. We replaced it with two new multi year securitization programs (a U.S. program and a European program). The U.S. program contains a committed amount of \$250 million of which \$125 million is for three years at LIBOR + 3.75% annually and \$125 million for two years at the commercial paper rate + 3.5% annually. The European program contains a committed amount of euro 225 million for two years at LIBOR/EURIBOR +3.75% annually. These new programs enable continued low cost borrowing for an extended period of time. We have no meaningful debt maturities until 2013 other than our accounts receivable securitization programs. We currently intend to substantially reduce the committed amount of our \$650 million revolving credit facility that matures August, 2010.

In connection with our ongoing insurance claim related to the April 29, 2006 Port Arthur, Texas fire, we have received partial insurance proceeds to date of \$365 million. We have claimed an additional \$242 million plus interest as presently due and unpaid under our insurance policy as of September 30, 2009. Binding arbitration to settle these claims began on November 2, 2009. Any additional anticipated recoveries are expected to be used to repay secured debt.

1. (1) The following table provides a reconciliation of adjusted pre-tax income:

In millions -----	Three months ended September 30, 2009 ----
Net loss attributable to Huntsman Corporation	\$ (68)
Income tax expense from continuing operations	-
Income tax benefit from discontinued operations (2,4)	(2)
Adjustments before tax:	
Unallocated foreign currency gain	(6)
Loss on early extinguishment of debt	21
Other restructuring, impairment and plant closing costs	62
Expenses associated with the Terminated Merger and related litigation	2
Discount amortization on settlement financing associated with the Terminated Merger	7
Acquisition related expenses	8
Gain on disposition of businesses/assets	(1)
Loss from discontinued operations (2)	4
	---
Adjusted pre-tax income	\$27 ===

(2) On November 5, 2007, we completed the sale of our U.S. base chemicals business to Flint Hills Resources. On August 1, 2007, we completed the sale of our U.S. polymers business to Flint Hills Resources. Results from these businesses are treated as discontinued operations. Segment EBITDA discontinued operations only includes the results of our U.S. base chemicals and U.S. polymers businesses.

(3) On June 30, 2006, we acquired the global textile effects business of Ciba Specialty Chemicals Inc. for approximately \$172 million. Because the fair value of acquired current assets less liabilities assumed exceeded the acquisition price and planned restructuring costs, the excess was recorded as an extraordinary gain on the acquisition of a business. The extraordinary gain recorded during the three months ended September 30, 2009 and 2008 was nil and \$1 million respectively of which taxes were not applicable.

(4) We use EBITDA, Adjusted EBITDA, Adjusted EBITDA from discontinued operations, Adjusted net income and Adjusted net income from discontinued operations. We believe that net income (loss) attributable to Huntsman Corporation is the performance measure calculated and presented in accordance with generally accepted accounting principles in the U.S. ("GAAP") that is most directly comparable to EBITDA, Adjusted EBITDA and Adjusted

net income. We believe that income (loss) from discontinued operations is the performance measure calculated and presented in accordance with GAAP that is most directly comparable to Adjusted EBITDA from discontinued operations and Adjusted net income from discontinued operations. Additional information with respect to our use of each of these financial measures follows:

EBITDA is defined as net income (loss) attributable to Huntsman Corporation before interest, income taxes, and depreciation and amortization. EBITDA as used herein is not necessarily comparable to other similarly titled measures of other companies. The reconciliation of EBITDA to net income (loss) available to common stockholders is set forth in the operating results table above.

Adjusted EBITDA is computed by eliminating the following from EBITDA: gains and losses from discontinued operations; restructuring, impairment and plant closing (credits) costs; income and expense associated with the Terminated Merger and related litigation; acquisition related expenses; losses on the sale of accounts receivable to our securitization program; unallocated foreign currency (gain) loss; certain legal and contract settlements; losses from early extinguishment of debt; extraordinary loss (gain) on the acquisition of a business; and loss (gain) on disposition of business/assets. The reconciliation of Adjusted EBITDA to EBITDA is set forth in the Reconciliation of Adjustments table above.

Adjusted EBITDA from discontinued operations is computed by eliminating the following from income (loss) from discontinued operations: income taxes; depreciation and amortization; restructuring, impairment and plant closing (credits) costs; losses on the sale of accounts receivable to our securitization program; unallocated foreign currency (gain) loss; gain on partial fire insurance settlement; and (gain) loss on disposition of business/assets. The following table provides a reconciliation of Adjusted EBITDA from discontinued operations to income (loss) from discontinued operations:

In millions -----	Three months ended September 30, 2009    2008		Nine months ended September 30, 2009    2008	
	-----	-----	-----	-----
Net (loss) income from discontinued operations, net of tax	\$ (2)	\$1	\$ (2)	\$5
Income tax (benefit) expense	(2)	1	(2)	3
	---	---	---	---
EBITDA from discontinued operations	(4)	2	(4)	8
Loss (gain) on disposition of assets	4	(2)	4	(8)
	---	---	---	---
Adjusted EBITDA from discontinued operations	\$-	\$-	\$-	\$-
	===	===	===	===

Adjusted net income (loss) is computed by eliminating the after tax impact of the following items from net income (loss) attributable to Huntsman Corporation: loss (income) from discontinued operations; restructuring, impairment and plant closing (credits) costs; income and expense associated with the Terminated Merger and related litigation; discount

amortization on settlement financing associated with the Terminated Merger; acquisition related expenses; unallocated foreign currency (gain) loss; certain legal and contract settlements; losses on the early extinguishment of debt; extraordinary loss (gain) on the acquisition of a business; and loss (gain) on disposition of business/assets. The reconciliation of adjusted net income (loss) to net income (loss) attributable to Huntsman Corporation common stockholders is set forth in the Reconciliation of Adjustments table above.

Adjusted net income (loss) from discontinued operations is computed by eliminating the after tax impact of the following items from income (loss) from discontinued operations: restructuring, impairment and plant closing (credits) costs; gain on partial fire insurance settlement; and (gain) loss on the disposition of business/assets. The reconciliation of Adjusted net income (loss) from discontinued operations to net income (loss) available to common stockholders is set forth in the Reconciliation of Adjustments table above.

(5) Diluted income (loss) per share for GAAP net income (loss) attributable to Huntsman Corporation and for adjusted net income (loss) attributable to Huntsman Corporation is calculated using the following information:
