LONDON, Dec. 4, 2025 /PRNewswire/ -- Virax Biolabs Group Limited ("Virax" or the "Company") (Nasdaq: VRAX), an innovative biotechnology company dedicated to the advancement of immunology research and diagnostics, announced today the closing of its previously announced private placement of its securities for total gross proceeds of \$5 million, before deducting placement agent fees and other offering expenses.

Virax sold and issued 12,500,000 of its ordinary shares (or ordinary share equivalents) and preferred investment options to purchase up to 12,500,000 ordinary shares for a combined purchase price of \$0.3999 per pre-funded warrant and accompanying preferred investment option. Virax intends to use the net proceeds from the offering for general working capital needs, expecting to extend the Company's cash runway into the first half of 2028, which is beyond planned completion of the US based post-acute sequelae of COVID-19 ("PASC", or long COVID) study for submission to the FDA, as well as completion of the UK studies in post-acute infection syndrome (PAIS) for submission to the MHRA.
