This comprehensive initiative will convert over 30,000

streetlights across Henderson to energy-efficient LED technology. With an investment of \$21 million, including the replacement of several hundred poles, this project underscores the city's commitment to sustainable urban development and infrastructure solutions.

"The transition to LED lighting not only promises brighter streets and surrounding areas but also significant energy savings," said Lance Olson, Director of Public Works at the City of Henderson. "By evaluating smart technology opportunities, we aim to improve outage monitoring and response times, and also to ensure appropriate light levels throughout the City, further enhancing public safety and service reliability."

Safety remains a paramount concern for both the city and its residents. The standardized solution provided by Ameresco provides a seamless transition, minimizing disruptions and maximizing efficiency. With improved visibility and enhanced lighting quality, Henderson's streets will become safer and more inviting for pedestrians, cyclists, and motorists alike.

"We're honored to continue our decade-long partnership with the City of Henderson and contribute to the community's advancement," said Lou Maltezos, Executive Vice President, at Ameresco. "Sustainable urban development should not only prioritize progress but also enrich the quality of life for residents and our team is thrilled to be helping them achieve both."
