About Apollo Medical Holdings, Inc.

Apollo is a leading provider of management services to medical groups that provide comprehensive hospital-based medical services. The company intends to capitalize on the growing market for hospital-based physicians, such as hospitalists, or physicians with expertise in hospital medicine. There are 4900 acute care hospitals in the U.S., with over 35 million annual admissions. Total U.S. spending on hospital care is over \$650 billion, and is expected to increase to \$1.3 trillion by 2016. There are tremendous inefficiencies in the delivery of inpatient care and a high rate of hospital errors. Both of these are drivers for the growth of hospital-based medicine. Apollo and its affiliated medical groups have proven expertise in providing excellent and efficient care to hospitalized patients.
