BlackSky Signs Multiple Early Access Agreements with International Defense Sector Customers for Gen-3 Services

Customers to integrate very high-resolution, 35-centimeter imagery into daily intelligence operations, reducing the speed of analyses and opening a new, expansive set of mission solutions

HERNDON, Va.--(BUSINESS WIRE)-- BlackSky Technology Inc. (NYSE: [BKSJ](#)) has signed Gen-3 early access agreements with multiple international defense sector customers for real-time, space-based monitoring capabilities. The customers will now be able to integrate very high-resolution, 35-centimeter imagery into daily intelligence operations, reducing the speed of analyses and opening a new, expansive set of mission solutions.

"These early access agreements demonstrate confidence in the quality and reliability of our imagery products and will give these customers transformative capabilities that BlackSky uniquely delivers through our proven end-to-end, next-generation AI-enabled commercial architecture," said Brian O'Toole, BlackSky CEO.

The subscription-based contracts provide access to the BlackSky Spectra® tasking and analytics platform, through which customers will be able to order high-cadence, time-diverse dawn-to-dusk Gen-2 and Gen-3 imagery and AI-enabled analytics. These initial contracts are designed to scale in size and volume as the company increases available Gen-3 capacity over time.

"Dawn-to-dusk, high-cadence monitoring has become a foundational element of many of our customers' space-based intelligence operations," said O'Toole. "Our customers rely on BlackSky as a trusted partner, delivering real-time decision-quality data at mission speed."

BlackSky's worldwide customer base tasks and receives thousands of high-resolution images and analytics over priority areas of interest every month, gaining visibility and insight into border crossings, nuclear and port facilities, and other critical national security and economic infrastructure at massive scale.

About BlackSky

BlackSky is a real-time, space-based intelligence company that delivers on-demand, high frequency imagery, analytics, and high-frequency monitoring of the most critical and strategic locations, economic assets, and events in the world. BlackSky owns and operates one of the industry's most advanced, purpose-built commercial, real-time intelligence systems that combines the power of the BlackSky Spectra® tasking and analytics software platform and our proprietary low earth orbit satellite constellation.

With BlackSky, customers can see, understand and anticipate changes for a decisive strategic advantage at the tactical edge, and act not just fast, but first. BlackSky is trusted by some of the most demanding U.S. and international government agencies, commercial businesses, and organizations around the world. BlackSky is headquartered in Herndon, VA, and is publicly traded on the New York Stock Exchange as BKSJ. To learn more, visit www.blacksky.com and follow us on X.

Forward-Looking Statements

Certain statements in this press release may contain forward-looking statements within the meaning of the federal securities laws with respect to BlackSky. These forward-looking statements generally are identified by the words “believe,” “project,” “expect,” “anticipate,” “estimate,” “intend,” “strategy,” “future,” “opportunity,” “plan,” “may,” “should,” “will,” “would,” “will be,” “will continue,” “will likely result,” and similar expressions. Forward-looking statements are predictions, projections, and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. Many factors could cause actual future events to differ materially from the forward-looking statements in this document. If any of these risks materialize or underlying assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. In addition, forward-looking statements reflect our expectations, plans, or forecasts of future events and views as of the date of this communication. We anticipate that subsequent events and developments will cause their assessments to change. Accordingly, forward-looking statements should not be relied upon as representing our views as of any subsequent date, and we do not undertake any obligation to update forward-looking statements to reflect events or circumstances after the date they were made, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws. Additional risks and uncertainties are identified and discussed in BlackSky’s disclosure materials filed from time to time with the SEC which are available at the SEC’s website at <http://www.sec.gov> or on BlackSky’s Investor Relations website at <https://ir.blacksky.com>.
