

WiSA™ Continues Strategic Growth With Additions of Sound United & Eastech

SAN FRANCISCO--([BUSINESS WIRE](#))--[The Wireless Speaker and Audio \(WiSA™\) Association](#), an industry group supported by Summit Semiconductor (Nasdaq: WISA) and dedicated to bringing truly immersive sound experiences into the home through high resolution, wireless, multi-channel audio products, today announces the addition of two members. [Sound United](#) is returning to the Association's roster with [Eastech](#) also joining as a member. Both companies join WiSA as it continues to experience significant membership growth with major suppliers, manufacturers and speaker brands in the audio industry.

Sound United is comprised of Denon®, Marantz®, Polk Audio, Classé, Definitive Technology, Polk BOOM, HEOS®, and Boston Acoustics®, with each brand offering a unique approach to bringing home theater and music to life. As a WiSA member, Sound United's brands will have access to WiSA's specification, technical support, testing protocols and manufacturing partners to bring interoperable, wireless home theater products to market. The membership will allow its brands to take advantage of the growing wireless home theater market on a global basis and launch wireless home theater products from a variety of brands.

As a total solution acoustic provider, Eastech continues to be the leading developer and manufacturer for top-tier brand names in the consumer electronics industry. The addition of Eastech further expands WiSA's footprint in the Asia-based manufacturing industry with Hansong and GGEC also serving as members. Now, WiSA members will have access to a larger base of manufacturers who are familiar with the integration of WiSA's innovative technology into the product development process.

"We are thrilled to welcome back Sound United, who served as one of the founding members of WiSA, and to add Eastech to our diverse member roster," said Tony Ostrom, president of WiSA. "It is an exciting time as we continue to experience unprecedented member growth. These new relationships with Sound United and Eastech are important steps in furthering the adoption and availability of the perfect wireless home theater experience for consumers around the globe."

WiSA's innovative technology allows audio brands to deliver an immersive audio experience with interoperable products that are extremely simple to set-up. It enables wireless and multi-channel communication of low-latency, tightly synchronized, high-definition audio between any WiSA-certified components, making it ideal for home theater systems while eliminating the complexities of traditional wired solutions.

In the last year, WiSA has welcomed HARMAN International, Xbox, VOXX International, GoldenEar, Electrocompaniet, Almando, Primare and Infineon technologies as Association members. The WiSA Association consists of more than 30 member brands, including the

world's top manufacturers and resellers of audio products, who remain devoted to developing and promoting the adoption of WiSA-certified products worldwide. Together, WiSA and its members deliver unmatched performance and ease of use in the home theater industry.

About Wireless Speaker and Audio (WiSA™) Association

WiSA™ is dedicated to bringing wireless immersive sound - high resolution, wireless, multi-channel audio products - to the home theater market by building an interoperability standard with consumer electronics brands and ODMs for the consumer. WiSA eliminates the complicated set-up and wiring of traditional audio systems by utilizing cutting-edge wireless technology to create powerful and reliable audio systems that boast uninterrupted listening. WiSA's interoperability testing means that users can feel confident that all WiSA certified components from all brands will work perfectly together. WiSA also ensures multi-channel transmission of low-latency, high-definition audio, dramatically increasing the enjoyment of gaming, movies, TV and music. WiSA operates within and utilizes the technology produced by Summit Semiconductor (NASDAQ: WISA). For more information about the WiSA Association, please visit www.wisaassociation.org.
