

WiSA Announces Certification of Klipsch's Award-Winning Reference Wireless Speakers; Set for Retail Launch in June 2019

Delivers Immersive Sound to WiSA Ready LG TVs, Xbox and Windows 10 Gaming PCs with the Axiim Link

SAN JOSE, Calif.--(BUSINESS WIRE)-- [WiSA® LLC](#), the Wireless Speaker and Audio Association comprised of leading consumer electronics brands founded by Summit Wireless Technologies (NASDAQ: WISA), announces the certification of [Klipsch®](#) Reference Wireless speakers from Klipsch Group, a wholly owned subsidiary of VOXX International Corporation (NASDAQ: VOXX).

Available in June 2019, this exciting new line of Klipsch loudspeakers was awarded “Best of CES” from Digital Trends, *AVS Forum*, and *Hi-Def Digest* at Consumer Electronics Show (CES) 2019. Klipsch's new Reference Wireless speakers work flawlessly with any WiSA Certified and WiSA Ready* products, including the new 2019 WiSA Ready LG OLED and Nano Cell (Super UHD) TVs.

The Klipsch Reference Wireless line includes the RW-34C center channel speaker (\$499 U.S. MSRP), the RW-51M front and rear monitors (\$699/pair U.S. MSRP), and the RW-100SW wireless subwoofer (\$499 U.S. MSRP). These speakers can be mixed and matched to create powerful audio systems in any configuration from stereo (2.0) to a big and bold 7.1 theater experience. The Reference Wireless speakers also work with any WiSA Certified or WiSA Ready source connected to a WiSA Certified USB Transmitter, such as the Axiim Link.

“After a positive reception at this year's CES, the Klipsch team is very excited to launch our new Reference Wireless line in 2019,” said Vlad Grodzinskiy, product manager for Klipsch. “Our Reference Wireless speakers are designed for people that want the simplicity of a sound bar *and* high-performance multi-channel capable audio. They will be an ideal complement to the growing number of WiSA Ready platforms, which includes LG TVs, Xboxes, and computers.”

All WiSA Certified and WiSA Ready components work together seamlessly to deliver wireless, multi-channel audio and authentic movie theater sound that immerses the listener into the middle of movies and video, music, sports, gaming/esports and more. As a result, consumers can expect an audiophile experience, but unlike traditional audio systems, set up is simple and takes just minutes even for larger 5.1 and 7.1 setups. LG OLED and Nano Cell televisions simplify the setup process. After plugging Klipsch Reference Wireless speakers into power outlets, the TV will detect and setup the home theater directly from the WiSA Ready big screen and connected WiSA USB Transmitter.

“We’re thrilled for Klipsch’s powerhouse, wireless speaker system to hit the market this year,” said Tony Ostrom, president of WiSA. “The WiSA Association is seeing tremendous excitement around WiSA Ready platforms hitting the market in 2019. The Reference Wireless WiSA Certified speakers from Klipsch are an incredible sounding solution at a compelling price point that exemplifies how WiSA is changing and simplifying the way passionate listeners experience home entertainment.”

The WiSA Association and its members are committed to revolutionizing the home entertainment experience by delivering immersive, uncompressed, high-definition, multichannel sound through the universal standards established and certified by the WiSA Association.

About Klipsch Audio

In 1946 Paul W. Klipsch, inventor, acoustics pioneer and maverick, founded Klipsch Audio with the sole purpose of bringing the power, detail and emotion of the live music experience into his living room. Through the use of highly efficient speaker designs, handcrafted cabinetry and a thirst for real engineering breakthroughs – Klipsch, the great American loudspeaker company, was born in Hope, AR. Today, our diverse range of quality audio products includes speakers and headphones for almost any consumer and professional application – including cinema, whole-house, wireless, home theater and portable offerings. Honoring our founder’s legacy, Klipsch continues to be the legendary high-performance brand of choice for audiophiles and aficionados around the world. We are the Keepers of the Sound®. Klipsch Group, Inc. is a VOXX International Company (NASDAQ: VOXX). For more information, please visit www.klipsch.com.

About WiSA, LLC

WiSA, the (Wireless Speaker and Audio) Association is a consumer electronics consortium dedicated to creating interoperability standards utilized by leading brands and manufacturers to deliver immersive sound via intelligent devices. WiSA Certified components from any member brand can be combined to dramatically increase the enjoyment of movies and video, music, sports, gaming/esports, and more. WiSA also ensures robust, high definition, multi-channel, low latency audio while eliminating the complicated set-up of traditional audio systems.
