(1) Average balance for assets is calculated as a simple average of the daily amortized cost and excludes securities pending settlement if applicable.

(2) Average balance for liabilities is calculated as a simple average of the daily borrowings outstanding during the period.

(3) Effective yield is calculated by dividing annualized interest income by the average balance of asset type outstanding during the reporting period. Unscheduled adjustments to premium/discount amortization/accretion, such as for prepayment compensation, are not annualized in this calculation.

(4) Financing cost is calculated by dividing annualized interest expense by the total average balance of borrowings outstanding during the period with an assumption of 360 days in a year.

(5) CMBS IO ("Interest only") includes Agency and non-Agency issued securities.

(6) Represents a non-GAAP measure.

Non-GAAP Financial Measures

In evaluating the Company's financial and operating performance, management considers book value per common share, total economic return to common shareholders, and other operating results presented in accordance with GAAP as well as certain non-GAAP financial measures, which include earnings available for distribution ("EAD") to common shareholders (including per common share) and economic net interest income (and the related metric economic net interest spread). Management believes these non-GAAP financial measures may be useful to investors because they are viewed by management as a measure of the investment portfolio's return based on the effective yield of its investments, net of financing costs and, with respect to EAD, net of other normal recurring operating income/expenses.

Drop income/loss generated by TBA dollar roll positions, which is included in "gain (loss) on derivatives instruments, net" on the Company's consolidated statements of comprehensive income, is included in EAD because management views drop income/loss as the economic equivalent of net interest income on the underlying Agency security from trade date to

settlement date. However, drop income/loss does not represent the total realized gain/loss from the Company's TBA securities.

Management also includes net periodic interest from its interest rate swaps, which is included in "gain (loss) on derivatives instruments, net", in each of these non-GAAP measures because interest rate swaps are used by the Company to economically hedge the impact of changing interest rates on its borrowing costs from repurchase agreements, and including net periodic interest from interest rate swaps is a helpful indicator of the Company's total financing cost in addition to GAAP interest expense.

Non-GAAP financial measures are not a substitute for GAAP earnings and may not be comparable to similarly titled measures of other REITs because they may not be calculated in the same manner. Furthermore, though EAD is one of several factors our management considers in determining the appropriate level of distributions to common shareholders, it should not be utilized in isolation, and it is not an accurate indication of the Company's REIT taxable income or its distribution requirements in accordance with the Tax Code.

Reconciliations of each non-GAAP measure to certain GAAP financial measures are provided below.

(1) Amount includes realized and unrealized gains and losses from the Company's MBS.

(2) Amount includes unrealized gains and losses from changes in fair value of derivatives (including TBAs accounted for as derivative instruments) and realized gains and losses on

terminated derivatives and excludes TBA drop income and net periodic interest from interest rate swaps.

(3) TBA drop income/loss is calculated by multiplying the notional amount of the TBA dollar roll positions by the difference in price between two TBA securities with the same terms but different settlement dates.

Forward Looking Statements

This release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The words "believe," "expect," "forecast," "anticipate," "estimate," "project," "plan," "may," "could," "will," "continue" and similar expressions identify forward-looking statements that are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. Forward-looking statements in this release, including statements made in Mr. Boston's and Ms. Popenoe's quotes, may include, without limitation, statements regarding the Company's financial performance in future periods, future interest rates, future market credit spreads, management's views on expected characteristics of future investment and macroeconomic environments, central bank strategies, prepayment rates and investment risks, future investment strategies, future leverage levels and financing strategies, the use of specific financing and hedging instruments and the future impacts of these strategies, future actions by the Federal Reserve, and the expected performance of the Company's investments. The Company's actual results and timing of certain events could differ materially from those projected in or contemplated by the forward-looking statements as a result of unforeseen external factors. These factors may include, but are not limited to, ability to find suitable investment opportunities; changes in domestic economic conditions; geopolitical events, such as terrorism, war or other military conflict, including the wars between Russia and Ukraine and between Israel and Hamas and the related impacts on macroeconomic conditions as a result of such conflicts; changes in interest rates and credit spreads, including the repricing of interest-earning assets and interest-bearing liabilities; the Company's investment portfolio performance, particularly as it relates to cash flow, prepayment rates and credit performance; the impact on markets and asset prices from changes in the Federal Reserve's policies regarding purchases of Agency RMBS, Agency CMBS, and U.S. Treasuries; actual or anticipated changes in Federal Reserve monetary policy or the monetary policy of other central banks; adverse reactions in U.S. financial markets related to actions of foreign central banks or the economic performance of foreign economies including in particular China, Japan, the European Union, and the United Kingdom; uncertainty concerning the long-term fiscal health and stability of the United States; the cost and availability of financing, including the future availability of financing due to changes to regulation of, and capital requirements imposed upon, financial institutions; the cost and availability of new equity capital; changes in the Company's use of leverage; changes to the Company's investment strategy, operating policies, dividend policy or asset allocations; the quality of performance of third-party servicer providers, including the Company's sole third-party service provider for our critical operations and trade functions; the loss or unavailability of the Company's third-party service provider's service and technology that supports critical functions of the Company's business related to the Company's trading and borrowing activities due to outages, interruptions, or other failures; the level of defaults by borrowers on loans underlying MBS; changes in the Company's industry; increased competition; changes in government regulations affecting the Company's business; changes or volatility in the repurchase agreement financing markets and other credit markets; changes to the market for interest rate swaps and other derivative instruments, including changes to margin requirements on derivative instruments; uncertainty regarding continued government support of the U.S. financial system and U.S. housing and real estate markets, or to reform the U.S. housing finance system including the resolution of the conservatorship of Fannie Mae and Freddie Mac; the composition of the Board of Governors of the Federal Reserve; the political environment in the U.S.; systems

failures or cybersecurity incidents; and exposure to current and future claims and litigation. For additional information on risk factors that could affect the Company's forward-looking statements, see the Company's Annual Report on Form 10-K for the year ended December 31, 2024, and other reports filed with and furnished to the Securities and Exchange Commission.

All forward-looking statements are qualified in their entirety by these and other cautionary statements that the Company makes from time to time in its filings with the Securities and Exchange Commission and other public communications. The Company cannot assure the reader that it will realize the results or developments the Company anticipates or, even if substantially realized, that they will result in the consequences or affect the Company or its operations in the way the Company expects. Forward-looking statements speak only as of the date made. The Company undertakes no obligation to update or revise any forward-looking statements to reflect events or circumstances arising after the date on which they were made, except as otherwise required by law. As a result of these risks and uncertainties, readers are cautioned not to place undue reliance on any forward-looking statements included herein or that may be made elsewhere from time to time by, or on behalf of, the Company.
