TALX to Showcase New Hiring, Compliance and Workforce Analytics Services at HR Technology Conference & Exposition

ST. LOUIS, Sept. 27, 2012 /PRNewswire/ --

(Logo: <https://photos.prnewswire.com/prnh/20060224/CLF037LOGO>)

WHO: [TALX](#), provider of Equifax Workforce Solutions.

WHAT: Will exhibit new and innovative solutions that streamline HR, functions across organizations of all sizes and industries at Human Resource Executive's HR Technology Conference & Exposition.

WHEN: The event will be held from Monday, October 8 through Wednesday, October 10, 2012.

WHERE: [HR Technology Conference](#)
McCormick Place, West Wing
2301 S. Lake Shore Drive
Chicago, Ill.

Booth No. 225

DETAILS:

More than ever, today's organizations are expected to do more with less, and that is especially true for HR professionals. HR must ensure compliance with a number of federal and state legislation and regulation many of which change constantly. And with state government agencies contending with solvency issues with unemployment insurance programs and federal agencies stepping up I-9 auditing practices and delivering more fines than in previous years, it is critical that the organization's decision makers have the data and solutions in place to streamline processes, identify areas of risk and effectively meet compliance with all regulations.

During the HR Technology Conference & Exposition, TALX will help attendees understand how they can enhance and automate HR processes, improve productivity, reduce costs and help deliver human capital intelligence needed for critical daily business decisions. During open expo hours, TALX will showcase several of its new solutions, including:

- [Remote I-9 Management](#) – Enables new employees to fill out their Form I-9 remotely and electronically when hired in locations where the employer does not have a physical presence, ensuring organizations comply with I-9 regulations.
- [Enhanced Unemployment Cost Management Services](#) – The CaseBuilder platform helps employers better manage unemployment claims activity by automatically collecting and organizing relevant claims information and notifying the user when an urgent response is needed. Expanded access to the SIDES (State Information Data Exchange System) web-based system that enables the electronic submission of

Unemployment Insurance (UI) information requests between state agencies, employers and third-party administrators, helps employers address UI overpayments due to inaccuracies and delays with separation information.

- [**Katrina Work Opportunity Tax Credit Enhancements**](#) – Helps employers claim an income tax credit of up to \$2,400 for each employee hired between August 2005 and August 2009 who was adversely impacted by Hurricane Katrina in 2005.
- [**Workforce Analytics**](#) – Intelligence that leverages employer transactional data and enables organizations to make strategic decisions that impact their bottom line.

Attendees of the 2012 HR Technology Conference & Exposition who wish to learn more about how the latest offerings from TALX can help their organizations are encouraged to visit Booth No. 225.

More information about the conference, including registration details and full conference program can be accessed at: <http://www.hrtechnologyconference.com/>.
