

Bionik Laboratories Corp. Announces Capital Raise through Issuance of Convertible Notes

TORONTO and BOSTON, Sept. 21, 2017 /PRNewswire/ -- [Bionik Laboratories Corp.](#) (OTCQB: BNKL) ("Bionik" or the "Company"), a robotics company focused on providing rehabilitation and assistive technology solutions to individuals with neurological and mobility challenges from hospital to home, today announced it has entered into a series of agreements to issue convertible notes of the Company (the "Loan") for a total of up to US\$2.0 million from current investors in the Company based in Europe. To date, Bionik has received funds of approximately US\$800,000 in connection with the Loan.

"We are pleased to have completed this financing, which displays the ongoing belief of our investors in both our product platform as well as our ability to execute our strategic plan," said Dr. Eric Dusseux, Chief Executive Officer of Bionik Laboratories. "Our continued ability to access capital from existing and new investors and strategic partners has allowed us to further develop our commercial product line and seek entry into the residential medical device market."

The Company has used and intends to use the proceeds from the Loan for working capital purposes and to continue its efforts to commercialize and further develop its product platform, including the launch of its latest InMotion robotic interactive therapy systems later this year.

About Bionik Laboratories

Bionik Laboratories (OTCQB:BNKL) is a robotics company focused on providing rehabilitation and mobility solutions to individuals with neurological and mobility challenges from hospital to home. The Company has a portfolio of products focused on upper and lower extremity rehabilitation for stroke and other mobility-impaired patients, including three products on the market and four products in varying stages of development.

Forward-Looking Statements

Any statements contained in this press release that do not describe historical facts may constitute forward-looking statements. Forward-looking statements, which involve assumptions and describe our future plans, strategies, and expectations, are generally identifiable by use of the words "may," "should," "would," "will," "could," "scheduled," "expect," "anticipate," "estimate," "believe," "intend," "seek," or "project" or the negative of these words or other variations on these words or comparable terminology. Forward-looking statements may include, without limitation, statements regarding (i) the plans and objectives

of management for future operations, including plans or objectives relating to the design, development and commercialization of human exoskeletons and other robotic rehabilitation products, (ii) a projection of income (including income/loss), earnings (including earnings/loss) per share, capital expenditures, dividends, capital structure or other financial items, (iii) the Company's future financial performance and success in raising capital, (iv) the market and projected market for our existing and planned products and (v) the assumptions underlying or relating to any statement described in points (i), (ii), (iii) or (iv) above. Such forward-looking statements are not meant to predict or guarantee actual results, performance, events or circumstances, and may not be realized because they are based upon the Company's current projections, plans, objectives, beliefs, expectations, estimates and assumptions, and are subject to a number of risks and uncertainties and other influences, many of which the Company has no control. Actual results and the timing of certain events and circumstances may differ materially from those described by the forward-looking statements as a result of these risks and uncertainties. Factors that may influence or contribute to the inaccuracy of the forward-looking statements or cause actual results to differ materially from expected or desired results may include, without limitation, the Company's inability to obtain additional financing, the significant length of time and resources associated with the development of our products and related insufficient cash flows and resulting illiquidity, the Company's inability to expand the Company's business, significant government regulation of medical devices and the healthcare industry, lack of product diversification, volatility in the price of the Company's raw materials, and the Company's failure to implement the Company's business plans or strategies. These and other factors are identified and described in more detail in the Company's filings with the SEC. The Company does not undertake to update these forward-looking statements.
