center phase 2 and
phase 3 studies,
many of which were

related to lung cancer,” said Chief Executive Officer Vlad Vitoc, M.D. “He is a prominent voice on medical oncology and cancer epidemiology, with a special interest in quality of life for cancer patients. We are delighted to welcome him as Scientific Advisor as we begin to clear major clinical inflection points this year and progress with our groundbreaking cancer research.”

Prior to his current appointment, Dr. Kilickap was a professor at the Preventive Oncology Department of Hacettepe University Cancer Institute of Turkey. Earlier he worked in the Department of Hematology-Oncology at Regensburg University in Germany and was a faculty member at the Sivas Cumhuriyet University Faculty of Medicine, Department of Internal Medicine, in Turkey.

Dr. Kilickap graduated with honors from Gazi University Faculty of Medicine and went on to complete his internal medicine residency training at Hacettepe University Faculty of Medicine, both located in Ankara, Turkey. He completed his fellowship training at Hacettepe and became a medical oncology specialist in 2009. In the same year, he graduated from the Cancer Epidemiology Master's Program at the Hacettepe University Oncology Institute, Department of Preventive Oncology.

Dr. Kilickap has authored more than 240 scientific articles published in international peer-reviewed journals, and delivered more than 50 poster presentations at international congresses.

About MAIA Biotechnology, Inc.

MAIA is a targeted therapy, immuno-oncology company focused on the development and commercialization of potential first-in-class drugs with novel mechanisms of action that are intended to meaningfully improve and extend the lives of people with cancer. Our lead program is THIO, a potential first-in-class cancer telomere targeting agent in clinical development for the treatment of NSCLC patients with telomerase-positive cancer cells. Forward Looking Statements

MAIA cautions that all statements, other than statements of historical facts contained in this press release, are forward-looking statements. Forward-looking statements are subject to known and unknown risks, uncertainties, and other factors that may cause our or our industry's actual results, levels or activity, performance or achievements to be materially different from those anticipated by such statements. The use of words such as “may,” “might,” “will,” “should,” “could,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “project,” “intend,” “future,” “potential,” or “continue,” and other similar expressions are intended to identify forward looking statements. However, the absence of these words does not mean that statements are not forward-looking. For example, all statements we make regarding (i) the initiation, timing, cost, progress and results of our preclinical and clinical studies and our research and development programs, (ii) our ability to advance product candidates into, and successfully complete, clinical studies, (iii) the timing or likelihood of regulatory filings and approvals, (iv) our ability to develop, manufacture and commercialize our product candidates

and to improve the manufacturing process, (v) the rate and degree of market acceptance of our product candidates, (vi) the size and growth potential of the markets for our product candidates and our ability to serve those markets, and (vii) our expectations regarding our ability to obtain and maintain intellectual property protection for our product candidates, are forward looking. All forward-looking statements are based on current estimates, assumptions and expectations by our management that, although we believe to be reasonable, are inherently uncertain. Any forward-looking statement expressing an expectation or belief as to future events is expressed in good faith and believed to be reasonable at the time such forward-looking statement is made. However, these statements are not guarantees of future events and are subject to risks and uncertainties and other factors beyond our control that may cause actual results to differ materially from those expressed in any forward-looking statement. Any forward-looking statement speaks only as of the date on which it was made. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as required by law. In this release, unless the context requires otherwise, "MAIA," "Company," "we," "our," and "us" refers to MAIA Biotechnology, Inc. and its subsidiaries.
