# FORWARD LOOKING STATEMENTS

**CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS PURSUANT TO THE U.S. PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995:**

This presentation contains, and our officers and representatives may from time to time make, "forward–looking statements" within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. The "forward looking statements" can be identified by words such as "may," "should," "could," "estimates," "predicts," "potential," "continue," "anticipates," "believes," "plans," "expects," "future" and "intends" and similar references to future periods. Examples of forward-looking statements include, among others, statements we make regarding our future revenues, expenses and profitability, the future development and expected growth of our business, attendance at movies generally or in any of the markets in which we operate, the number or diversity of popular movies released and our ability to successfully license and exhibit popular films, national and international growth in our industry, and competition from other exhibitors and alternative forms of entertainment.

Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations, and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risk, and changes in circumstances that are difficult to predict and many of which are outside our control. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not rely on any of these forward-looking statements. Although it is not possible to predict or identify all uncertainties and risks, we encourage investors to read the risk factors we described in our most recent annual and periodic reports filed with the Securities and Exchange Commission ("Risk Factors").

These Risk Factors include, but are not limited to, the impacts of a variety of uncontrollable events that may disrupt our businesses and reduce our profitability; our dependence on film production and performance; the reduction of exclusive theatrical release windows; the seasonality of our business; competition from our peers and from other forms of entertainment; our substantial long-term lease and debt obligations; our reliance on film distribution companies and the potential for alternate film distribution channels; federal, state and local laws and regulations, including those related to the rights of disabled individuals, employment, the environment, data protection and privacy, and cybersecurity; economic instability and currency exchange risks related to our foreign operations; and the effects of general political, social, health and economic conditions on attendance at our theaters.

All forward-looking statements are expressly qualified in their entirety by these cautionary statements and Risk Factors. We undertake no obligation, other than as required by law, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Except as otherwise specified or indicated by the context, references in this presentation to "we," "us," "our," "Cinemark" or the "Company" are to the combined business of Cinemark Holdings, Inc. and its consolidated subsidiaries.

**NON-GAAP FINANCIAL MEASURES:**

GAAP refers to the U.S. generally accepted accounting principles. We include certain non-GAAP financial measures in this presentation, including Free Cash Flow, Adjusted EBITDA and other financial measures utilizing Adjusted EBITDA. These non-GAAP financial measures may not be comparable to those of other companies and may not be comparable to similar measures used in our various filings. Please see the Appendix for definitions of our non-GAAP financial measures and a reconciliation of each non-GAAP financial measure to the most directly comparable financial measure stated in accordance with GAAP.
