Management Commentary

"At CarParts.com, we put the customer at the center of everything we do. Focusing on strategic priorities that we believe are making our company significantly more valuable and will benefit our stakeholders for years to come," said David Meniane, CEO of CarParts.com.

"Today we reported our 15th consecutive quarter of year-over-year growth with \$167 million in revenue, up 17% on a two-year stack. We generated strong unit growth and I'm proud of the results despite a softening consumer environment. We believe that as consumer confidence rebounds, we will be well positioned to support them with the parts and resources they need."

"We also completed the successful launch of our mobile app. To date, we generated over 70,000 downloads and \$2 million of revenue. We believe that by building a direct relationship with our customers while creating the go-to destination for their vehicle maintenance and repair needs, we can remove the stress from a historically burdensome process and continue Empowering Drivers Along Their Journey."

Third Quarter 2023 Financial Results

Net sales in the third quarter of 2023 were \$166.9 million, up 1% from the year-ago quarter.

Gross profit in the third quarter decreased 2% to \$54.8 million compared to \$56.1 million in the year-ago quarter, with gross margin decreasing 120 basis points to 32.9%, primarily driven by higher outbound transportation costs and a shift in product mix.

Total operating expenses in the third quarter were \$57.7 million compared to \$56.7 million in the year-ago quarter. The increase was primarily driven by investments in our business, combined with higher advertising expense, partially offset by a decrease in fulfillment expense primarily due to an improvement in distribution center fulfillment costs.

Net loss in the third quarter was (\$2.5) million compared to a net loss of (\$0.9) million in the year-ago quarter.

Adjusted EBITDA in the third quarter was \$3.0 million compared to \$6.3 million in the year-ago quarter.

On September 30, 2023, the Company had a cash balance of \$66.7 million and no revolver debt, compared to no revolver debt and a \$18.8 million cash balance at prior fiscal year-end December 31, 2022.

Non-GAAP Financial Measures

Regulation G, and other provisions of the Securities Exchange Act of 1934, as amended, define and prescribe the conditions for use of certain non-GAAP financial information. We provide "Adjusted EBITDA" in this earnings release and on today's scheduled conference call, which are non-GAAP financial measures. Adjusted EBITDA consist of net (loss) income before (a) interest (income) expense, net; (b) income tax provision; (c) depreciation and amortization expense; (d) amortization of intangible assets; and (e) share-based compensation expense. A reconciliation of Adjusted EBITDA to net (loss) income is provided below.

The Company believes that these non-GAAP financial measures provide important supplemental information to management and investors. These non-GAAP financial measures reflect an additional way of viewing aspects of the Company's operations that, when viewed with the GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, provides a more complete understanding of factors and trends affecting the Company's business and results of operations.

Management uses Adjusted EBITDA as measures of the Company's operating performance because it assists in comparing the Company's operating performance on a consistent basis by removing the impact of stock compensation expense as well as other items that we do not believe are representative of our ongoing operating performance. Internally, these non-GAAP measures are also used by management for planning purposes, including the preparation of internal budgets; for allocating resources to enhance financial performance; and for evaluating the effectiveness of operational strategies. The Company also believes that analysts and investors use these non-GAAP measures as supplemental measures to evaluate the ongoing operations of companies in our industry.

These non-GAAP financial measures are used in addition to and in conjunction with results presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP financial measures. Management strongly encourages investors to review the Company's consolidated financial statements in their entirety and to not rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. In addition, the Company expects to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items from the Company's non-GAAP measures should not be construed as an inference that these costs are all unusual, infrequent or non-recurring.
