TTM Technologies, Inc. Reports Fiscal Second Quarter 2018 Results

COSTA MESA, Calif., Aug. 01, 2018 (GLOBE NEWSWIRE) -- TTM Technologies, Inc. (NASDAQ:TTMI), a leading global printed circuit board ("PCB") manufacturer, today reported results for the second quarter of fiscal 2018, which ended July 2nd, 2018. The financial results provided below for the second quarter include a partial quarter contribution from the acquisition of Anaren, Inc. ("Anaren"), which was completed on April 18th, 2018.

Second Quarter 2018 Highlights

- Net sales were \$716.9 million
- GAAP net income was \$84.0 million, or \$0.65 per diluted share
- Non-GAAP net income was \$52.3 million, or \$0.48 per diluted share
- Completed the acquisition of Anaren, Inc.
- Cash flow from operations of \$55.6 million

Second Quarter 2018 Financial Results

Net sales for the second quarter of 2018 were \$716.9 million, compared to \$627.2 million in the second quarter of 2017 and \$663.6 million in the first quarter of 2018.

GAAP operating income for the second quarter of 2018 was \$31.7 million, compared to \$45.1 million in the second quarter of 2017 and \$30.0 million in the first quarter of 2018.

GAAP net income for the second quarter of 2018 was \$84.0 million, or \$0.65 per diluted share. This compares to \$20.6 million, or \$0.18 per diluted share, in the second quarter of 2017 and \$10.1 million, or \$0.09 per diluted share, in the first quarter of 2018. The current quarter results reflect the release of a tax valuation allowance of \$74.6 million.

On a non-GAAP basis, net income for the second quarter of 2018 was \$52.3 million, or \$0.48 per diluted share. This compares to non-GAAP net income of \$33.3 million, or \$0.31 per diluted share, for the second quarter of 2017 and \$28.0 million, or \$0.26 per diluted share, in the first quarter of 2018.

Adjusted EBITDA for the second quarter of 2018 was \$115.9 million, or 16.2 percent of net sales, compared to adjusted EBITDA of \$85.5 million, or 13.6 percent of net sales, for the second quarter of 2017 and \$83.2 million, or 12.5 percent of net sales, for the first quarter of 2018.

"In the second quarter, TTM delivered strong results," said Tom Edman, CEO of TTM. "We were pleased to see solid year over year growth from the aerospace and defense, automotive, computing and medical/industrial/instrumentation end markets that more than offset weakness in our cellular end market. Further, Anaren's contribution in the quarter was better than forecasted. Longer term, Anaren's deep RF expertise will strengthen TTM's ability to engage with customers at the design stage in order to provide more value added

solutions.”

Business Outlook

For the third quarter of 2018 TTM estimates that revenue will be in the range of \$730 million to \$770 million, and non-GAAP net income will be in the range of \$0.41 to \$0.47 per diluted share.

Forward-Looking Statements

This release contains forward-looking statements that relate to future events or performance. TTM cautions you that such statements are simply predictions and actual events or results may differ materially. These statements reflect TTM's current expectations, and TTM does not undertake to update or revise these forward looking statements, even if experience or future changes make it clear that any projected results expressed or implied in this or other TTM statements will not be realized. Further, these statements involve risks and uncertainties, many of which are beyond TTM's control, which could cause actual results to differ materially from the forward-looking statements. These risks and uncertainties include, but are not limited to, general market and economic conditions, including interest rates, currency exchange rates and consumer spending, demand for TTM's products, market pressures on prices of TTM's products, warranty claims, changes in product mix, contemplated significant capital expenditures and related financing requirements, TTM's dependence upon a small number of customers and other factors set forth in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of the Company's public reports filed with the SEC.

About Our Non-GAAP Financial Measures

This release includes information about TTM’s adjusted EBITDA, non-GAAP net income and non-GAAP earnings per share, all of which are non-GAAP financial measures. TTM presents non-GAAP financial information to enable investors to see TTM through the eyes of

management and to provide better insight into TTM's ongoing financial performance.

A material limitation associated with the use of the above non-GAAP financial measures is that they have no standardized measurement prescribed by GAAP and may not be comparable to similar non-GAAP financial measures used by other companies. TTM compensates for these limitations by providing full disclosure of each non-GAAP financial measure and reconciliation to the most directly comparable GAAP financial measure.

However, the non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP.

With respect to the Company's outlook for non-GAAP net income per diluted share, we are unable to predict with reasonable certainty or without unreasonable effort certain items that may affect such measure calculated and presented in accordance with GAAP. Our expected non-GAAP net income per diluted share excludes primarily the future impact of restructuring actions, impairment charges, unusual gains and losses, and tax adjustments. These reconciling items are highly variable and difficult to predict due to various factors outside of management's control and could have a material impact on our future period net income per diluted share calculated and presented in accordance with GAAP. Accordingly, a reconciliation of non-GAAP net income per diluted share to such measure calculated and presented in accordance with GAAP is not available without unreasonable effort and has not been provided.

¹ This information provides a reconciliation of non-GAAP gross profit, non-GAAP operating income attributable to stockholders, non-GAAP EPS attributable to stockholders, and adjusted EBITDA to 1 in our consolidated condensed statements of operations.

² Non-GAAP gross profit and gross margin measures exclude stock-based compensation expense

³ Non-GAAP operating income and operating margin measures exclude amortization of intangibles compensation expense, gain on sale of assets, inventory markup, acquisition-related costs, asset restructuring and other charges.

⁴ This information provides non-GAAP net income attributable to stockholders and non-GAAP EPS stockholders, which are non-GAAP financial measures. Management believes that both measures amortization of intangibles, stock-based compensation expense, non-cash interest expense on debt of capitalized interest), gain on sale of assets, inventory markup, acquisition-related costs, asset restructuring and other charges as well as the associated tax impact of these charges and discrete tax items -- provide information to investors regarding the Company's ongoing financial condition and results of operations.

⁵ Income tax adjustments reflect the difference between income taxes based on a non-GAAP tax rate and annual GAAP tax rate.

⁶ Non-GAAP diluted number of shares used in computing non-GAAP earnings per share attributable to common stockholders excludes the dilutive effect of convertible debt.

⁷ Adjusted EBITDA is defined as earnings before interest expense, income taxes, depreciation, amortization, stock-based compensation expense, gain on sale of assets, inventory markup, acquisition-related costs, impairments, restructuring and other charges. We present adjusted EBITDA to enhance the understanding of our operating results, and it is a key measure we use to evaluate our operations. In addition, we provide this information because we believe that investors and securities analysts will find adjusted EBITDA to be a useful measure of our operating performance and comparing our operating performance with that of similar companies. Adjusted EBITDA is not a measure of our capital structures and for evaluating our ability to meet our future debt service, capital expenditures requirements. However, adjusted EBITDA should not be considered as an alternative to cash flow activities as a measure of liquidity or as an alternative to net income as a measure of operating results. Accounting principles generally accepted in the United States of America.
