

The Carbon Credit Tokenization Patent, issued Friday June 20th, Pioneers a Scalable, Stablecoin AI-Driven Blockchain Platform for Generating, Trading, and Monetizing Carbon Credits

Datavault AI, Inc. Receives Notice of Allowance for Nine Groundbreaking Patents Including Industry Standard Carbon Credit Tokenization and Acoustics

Revenue from Licensing Web 3.0 Portfolio in Global Acoustics Market and Emerging Data Monetization Exchanges is Expected to Improve Datavault AI's 2025 Outlook

NEW YORK--(BUSINESS WIRE)-- Datavault AI, Inc. (NASDAQ: DVLT), a trailblazer in AI-driven blockchain, data monetization, and Web 3.0 solutions, continues its innovation leadership in the blockchain and data science sectors with the U.S. Patent and Trademark Office (USPTO) granting Notices of Allowance and issuances for **nine groundbreaking patents**, headlined by its industry-defining **Carbon Credit Tokenization Patent** (Appl. No. 17/874,069, Allowance: 6/20/2025). We believe these 2025 milestones cement Datavault AI's first-mover leadership in tokenization, acoustics, and financial automation.

Datavault AI has engaged Fish and Richardson to lead the discussions with global banks infringement and licensing opportunities. Furthermore, the company selected Greenberg Traurig to support the licensing activities within the acoustic industry for its **WiSA HD Wireless Transmission Technology**.

Revolutionizing Carbon Markets with Blockchain Tokenization

The Carbon Credit Tokenization Patent pioneers a scalable stablecoin AI-driven blockchain platform for generating, trading, and monetizing carbon credits, and positions the Company with the \$2.4 trillion global carbon market by 2030 (Bloomberg NEF). When integrated with the NYIAX Nasdaq financial framework, the technology behind this patent will enable transparent, secure, and compliant stablecoin-backed exchanges, which we expect will create a new asset class that redefines environmental and financial ecosystems.

"This patent drives Datavault AI into the epicenter of the green economy," said Nathaniel T. Bradley, CEO. "Our blockchain-powered carbon credit platform, enhanced by NYIAX's Nasdaq-grade compliance, will deliver unmatched trust and scalability, and is expected to drive near-term revenue and long-term market leadership."

Unrivaled IP Portfolio Fuels Web 3.0 Leadership

Datavault AI's Q2 2025 USPTO achievements include nine patents that fortify its IP moat

across tokenization, WiSA-branded audio processing, and financial automation, unlocking massive licensing and commercialization opportunities:

- **Appl. No. 17/874,069 (Allowance: 6/20/2025)** – Carbon Credit Tokenization: Scalable blockchain systems for secure, verifiable carbon credit trading.
- **Appl. No. 17/704,905 (Allowance: 6/5/2025)** – Tokenized Investment Information: Powers decentralized finance (DeFi) platforms for investor engagement.
- **Appl. No. 17/101,807 (Allowance: 3/18/2025)** – Inaudible Tones for Content: Proprietary WiSA audio watermarking for seamless content interaction.
- **Appl. No. 18/196,924 (Allowance: 6/17/2025)** – Audio Device Interoperability: Enhances WiSA protocol compatibility across IoT and consumer electronics.
- **Appl. No. 18/222,337 & 18/196,383 (Allowances: 6/13/2025 & 6/9/2025)** – Audio Timing and Synchronization: Advances WiSA synchronized audio playback for digital platforms.
- **Appl. No. 18/196,319 (Allowance: 5/6/2025)** – Concealing Un-Recoverable Audio Blocks: Ensures WiSA stream continuity in degraded environments.
- **Appl. No. 17/507,459 (Issuance: 1/14/2025)** – Tax Return Preparation Platform: Automates secure, AI-driven tax services.
- **Appl. No. 17/842,088 (Issuance: 6/24/2025)** – Tokenized Event Information: Monetizes event data via blockchain for Web 3.0 applications.

We believe these patents will secure Datavault AI's leadership in Web 3.0, media technology, and enterprise licensing, anticipated to create high-margin, repeatable revenue streams.

About Datavault AI, Inc.

Datavault AI (Nasdaq: DVLТ) is leading the way in AI experience, valuation and monetization of assets in the Web 3.0 environment. The company's cloud-based platform provides comprehensive solutions with a collaborative focus in its Acoustic Science and Data Science Divisions. Datavault AI's Acoustic Science Division features WiSA®, ADIO® and Sumerian® patented technologies and industry-first foundational spatial and multichannel wireless HD sound transmission technologies with IP covering audio timing, synchronization and multichannel interference cancellation. The Data Science Division leverages the power of Web 3.0 and high-performance computing to provide solutions for experiential data perception, valuation and secure monetization. Datavault AI's agentic platform serves multiple industries through patented DataValue®, DataScore® and Data Vault Bank®, including HPC software licensing for sports & entertainment, events & venues, biotech, education, fintech, real estate, healthcare, energy and more. The Information Data Exchange® (IDE) enables Digital Twins, licensing of name, image and likeness (NIL) by securely attaching physical, real-world objects to immutable metadata objects, fostering responsible AI with integrity. Datavault AI's technology suite is completely customizable and offers AI and Machine Learning (ML) automation, third-party integration, detailed analytics and data, marketing automation and advertising monitoring. The company is headquartered in Beaverton, OR. Learn more about Datavault AI at www.dvlt.ai.

Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, and other securities laws. Words such

as "expect," "will," "anticipates," "continues" and variations of such words and similar future or conditional expressions are intended to identify forward-looking statements. Such forward-looking statements, including statements herein regarding our business opportunities and prospects, strategy, future revenue expectations, licensing initiatives, patent initiatives as well as the successful implementation of the patented technologies, are necessarily based upon estimates and assumptions that, while considered reasonable by us and our management, are inherently uncertain. Readers are cautioned not to place undue reliance on these forward-looking statements. Actual results may differ materially from those indicated by these forward-looking statements as a result of various risks and uncertainties including, but not limited to, the following: our ability to successfully utilize all intellectual property that has been issued and granted Notices of Allowance; risks regarding our ability to utilize the assets we acquire to successfully grow our market share; risks regarding our ability to open up new revenue streams as a result of the various patents mentioned in this press release; our current liquidity position and the need to obtain additional financing to support ongoing operations; general market, economic and other conditions; our ability to continue as a going concern; our ability to maintain the listing of our common stock on Nasdaq; our ability to manage costs and execute on our operational and budget plans; our ability to achieve our financial goals; the degree to which our licensees implement our technologies into their products, if at all; the timeline to any such implementation; risks related to technology innovation and intellectual property, and other risks as more fully described in our filings with the U.S. Securities and Exchange Commission. The information in this press release is provided only as of the date of this press release, and we undertake no obligation to update any forward-looking statements contained in this communication based on new information, future events, or otherwise, except as required by law.
