About Airgain, Inc.

Airgain is a leading provider of embedded antenna technologies used to enable high performance wireless networking across a broad range of home, enterprise, and industrial devices. Our innovative antenna systems open up exciting new possibilities in wireless services requiring high speed throughput, broad coverage footprint, and carrier grade quality. Our antennas are found in devices deployed in carrier, enterprise, and residential

wireless networks and systems, including set top boxes, access points, routers, gateways, media adapters, digital televisions and Internet of things (IOT) devices. Airgain partners with and supplies the largest blue chip brands in the world, including original equipment and design manufacturers, chipset makers and global operators. Airgain is headquartered in San Diego, California, and maintains design and test centers in San Diego, Cambridge, UK, Taipei, Taiwan, and Suzhou, China. For more information, visit www.airgain.com.
