The award was announced at Gongjin Stock's 2017 Supplier Conference. At the event, which took place in Taicang, China, 38 of T&W's partners were awarded with honors including: Excellent Supplier, Best Service, Best Progress, the T&W Love Charity Award, and the aforementioned Best Quality Award.

standard of excellence both with their products and in their relationship with T&W," Wei Yimming, T&W Vice General Manager, said. "We are happy to recognize their hard work and dedication to product quality that we have become accustomed to over the years and look forward to future business with them."

"Airgain has always maintained a

Over the past nine years, Airgain has served as a major supplier of antennas to T&W. Airgain is one of three distinct vendors to receive the Best Quality Award in 2017, the inaugural year of its presentation.

**About Airgain, Inc.**

Airgain is a leading provider of embedded antenna technologies used to enable high performance wireless networking across a broad range of home, enterprise, and industrial devices. Our innovative antenna systems open up exciting new possibilities in wireless services requiring high speed throughput, broad coverage footprint, and carrier grade quality. Our antennas are found in devices deployed in carrier, enterprise, and residential wireless networks and systems, including set-top boxes, access points, routers, gateways, media adapters, digital televisions, and Internet of Things (IoT) devices. Airgain partners with and supplies the largest blue chip brands in the world, including original equipment and design manufacturers, chipset makers, and global operators. Airgain is headquartered in San Diego, California, and maintains design and test centers in San Diego, Cambridge, United Kingdom, and Suzhou and Shenzhen, China.
