Airgain Launches AirgainConnect® Go-Kit Pro: The Most Compact Mobile Rapid Response 5G Connectivity Kit for First Responders and Remote Operations

SAN DIEGO--(BUSINESS WIRE)-- Airgain, Inc. (NASDAQ: AIRG), a leading provider of advanced wireless connectivity solutions, today announced the availability of AirgainConnect® Go-Kit Pro, the most compact Mobile Rapid Response 5G Connectivity Kit available today. Built for mission-critical field operations, Go-Kit Pro is rugged, fully integrated, and delivers instant, high-performance broadband over major networks, including AT&T, FirstNet®, T-Mobile, and Verizon, enabling teams to establish secure connectivity anywhere in seconds.

Go-Kit Pro combines a 5G modem, Wi-Fi 6 router, Gigabit Ethernet, GPS, and embedded high-performance antennas inside a TSA carry-on-compliant, ultra-rugged case. Engineered for teams that need connectivity beyond the vehicle—such as first responders, disaster recovery crews, mobile command units, and remote operators—it offers plug-and-play simplicity, multi-carrier eSIM support, and up to 15 hours of continuous battery life in a compact, deploy-anywhere form factor.

“Go-Kit Pro sets a new standard for portable broadband,” said Brian Makarowski, Vice President of Product Management and Marketing at Airgain. “It’s incredibly compact, rugged, and purpose-built to deliver reliable connectivity in the field—whether you’re responding to an emergency, operating in a remote location, or extending coverage beyond the vehicle.”

The Go-Kit Pro has already proven valuable for public safety teams in real-world deployments.

“We used the Go-Kit Pro during a large public event where coverage can be unpredictable, and it performed reliably the entire time. It’s compact enough to deploy discreetly for unmarked surveillance work, and the ability to switch between dedicated public safety and commercial networks gave us the flexibility we needed in the field,” said Chris Hinson, Chatham-Savannah County (Georgia) - Counter Narcotics Team.

Unlike consumer hotspot devices, and more cumbersome router-and-antenna kits, Go-Kit Pro delivers enterprise-grade multi-network performance in a portable form factor. It’s ideal for fast-moving teams who need broadband connectivity without the complexity of vehicle

The AirgainConnect® Go-Kit Pro shown here is a rugged, TSA-compliant case housing a compact, all-in-one 5G connectivity solution with a built-in battery that delivers up to 15 hours of runtime. It integrates a 5G modem, high-performance antennas, a Wi-Fi 6 router, GPS, and multi-carrier eSIM support—engineered for rapid deployment in mission-critical field operations.

wide deployment with AC-Fleet.

Availability

AirgainConnect® Go-Kit Pro is certified on all major carriers including AT&T, FirstNet, T-Mobile, and Verizon, and it is available today through Airgain sales channels and authorized resellers.
