Energous Corporation Reports First Quarter 2019 Financial Results

SAN JOSE, CA / ACCESSWIRE / April 30, 2019/ Energous Corporation (NASDAQ: WATT), the developer of WattUp®, a revolutionary wireless charging 2.0 technology, today announced financial results for the first quarter ended March 31, 2019 and provided an update on its operational progress.

Recent Highlights

- First WattUp enabled product launched; the Delight Oasis-RC personal sound amplification product
- Completed \$25 million public offering of common stock
- Added Dan Fairfax to company's board of directors
- Appointed Cesar Johnston to Chief Operating Officer and Executive Vice President of Engineering
- Increased patent count to 215 (188 patents/27 allowed applications as of April 30, 2019)

"We continued to work with customers to bring WattUp enabled products to market, while pursuing international regulatory certifications. We believe we are making the necessary strategic steps to capture the immense opportunity of wireless charging 2.0, and while the pace of reportable progress can be unpredictable, we expect to see increasing chip sales in 2019," said Stephen R. Rizzone, president and CEO of Energous Corporation. "Our goal is to drive revenue and become cash flow positive as quickly as possible as we focus on the vertical markets we believe will have fastest adoption."

About Energous Corporation

Energous Corporation (NASDAQ: WATT) is leading the next generation of wireless charging - Wireless Charging 2.0 - with its award-winning WattUp® technology, which supports fast, efficient contact-based charging, as well as charging over-the-air. WattUp is a scalable, RF-based wireless charging technology that offers substantial improvements in contact-based charging efficiency, foreign object detection, orientation freedom and thermal performance compared to older, coil-based charging technologies. The technology can be designed into many different sized electronic devices for the home and office, as well as the medical, industrial, retail and automotive industries, and it ensures interoperability across products. As a systems solutions company, Energous develops silicon-based wireless power transfer (WPT) technologies and customizable reference designs. These include innovative silicon chips, antennas and software for a wide variety of applications, such as smartphones, fitness trackers, hearables, medical sensors and more. Energous received the world's first FCC Part 18 certification for at-a-distance wireless charging, and it has more than 200 awarded patents/allowed applications for its WattUp wireless charging technology to-date. Safe Harbor Statement

This press release contains forward-looking statements that describe our future plans and expectations. These statements generally use terms such as "believe," "expect," "may," "will," "should," "could," "seek," "intend," "plan," "estimate," "anticipate" or similar terms. Examples of our forward-looking statements in this release include our statements about FCC certification of our technology, regulatory approvals internationally, and customer releases of products utilizing our technology. Our forward-looking statements speak only as of this date; they are based on current expectations and we undertake no duty to update them. Factors that could cause actual results to differ from what we expect include: uncertain timing of necessary regulatory approvals; timing of customer product development and market success of customer products; our dependence on distribution partners; and intense industry competition. We urge you to consider those factors, and the other risks and uncertainties described in our most recent annual report on Form 10-K and subsequent quarterly reports on Form 10-Q, in evaluating our forward-looking statements.
