CEO COMMENTS

Taylor Pickett, Omega's Chief Executive Officer, stated, "Our third quarter financial performance exceeded our expectations on higher-than-expected interest income and unanticipated rent payments from some operators on a cash-basis. Subsequent to the quarter end, we sold 29 Florida assets operated by LaVie. We also further strengthened our balance sheet in the third quarter by issuing a \$429 million term loan, fixed at 5.6%, and repaying \$350 million of bonds that matured in August. With over \$600 million of cash on

hand as of November 1st and over \$1.4 billion available under our line of credit at the end of the quarter, we are well-positioned to fund both the pipeline and future debt obligations.”

Mr. Pickett continued, “With some smaller restructurings ongoing, many tenants still on a cash-basis, and some security deposits being depleted, we expect FAD could be impacted by these factors in the fourth quarter and potentially into early 2024. However, we remain constructive on the longer-term opportunities within this industry. The operating backdrop continues to improve, with occupancy increasing and the tight labor market slowly moderating, and, longer-term, we believe the skilled nursing industry is well-positioned to benefit from multi-decade demographic tailwinds.”

Mr. Pickett concluded, “In the quarter, CMS issued its proposed rule on minimum staffing for the industry. While we applaud the administration for its continued focus on resident care, we believe there are fundamental flaws in the proposed rule, especially at a time when labor capacity is the most challenging issue facing most facilities. The industry is providing feedback to CMS on how it could achieve its clinical goals in a more efficient manner. We are hopeful that CMS will constructively work with the industry for the benefit of the resident.”

THIRD QUARTER 2023 RESULTS

Revenues – Revenues for the quarter ended September 30, 2023 totaled \$242.0 million, an increase of \$2.6 million over the same period in 2022. The increase primarily resulted from (i) timing of operator restructurings and transitions and (ii) revenue from new investments completed throughout 2022 and 2023. The increase was partially offset by a decrease in revenue from (i) asset sales completed throughout 2022 and 2023 and (ii) operators placed on a cash basis of revenue recognition since the 3rd quarter of 2022.

Expenses – Expenses for the quarter ended September 30, 2023 totaled \$194.5 million, an increase of \$16.8 million over the same period in 2022. The increase primarily resulted from (i) a \$17.9 million increase in impairment on real estate properties, (ii) a \$1.9 million increase in stock-based compensation expense and (iii) a \$0.3 million increase in interest expense, partially offset by (i) a \$1.9 million decrease in depreciation and amortization expense related to facilities sold and facilities reclassified as held for sale and (ii) a \$1.4 million favorable change in provision for credit losses.

Other Income and Expense – Other income for the quarter ended September 30, 2023 totaled \$49.5 million, an increase of \$9.1 million over the same period in 2022. The increase primarily resulted from (i) a \$5.6 million increase in other income (expense) – net and (ii) a \$3.1 million increase in gain on assets sold.

Net Income – Net income for the quarter ended September 30, 2023 totaled \$93.9 million, a decrease of \$11.2 million over the same period in 2022. The decrease primarily resulted from the aforementioned (i) \$16.8 million increase in expenses and (ii) \$5.5 million decrease in income from unconsolidated joint ventures, partially offset by (i) a \$9.1 million increase in other income and expense and (ii) a \$2.6 million increase in total revenue.

Nareit Funds From Operations ("Nareit FFO"), Adjusted FFO and Funds Available for

Distribution ("FAD") are non-GAAP financial measures. As used in this press release, GAAP refers to generally accepted accounting principles in the United States of America. The Company has provided reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures.

The Company calculates and reports Nareit FFO in accordance with the definition and interpretive guidelines issued by the National Association of Real Estate Investment Trusts ("Nareit"), and consequently, Nareit FFO is defined as net income (computed in accordance with GAAP), adjusted for the effects of asset dispositions and certain non-cash items, primarily depreciation and amortization and impairments on real estate assets, and after adjustments for unconsolidated partnerships and joint ventures and changes in the fair value of warrants. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis. Revenue recognized based on the application of security deposits and letters of credit or based on the ability to offset against other financial instruments is included within Nareit FFO. The Company believes that Nareit FFO, Adjusted FFO and FAD are important supplemental measures of its operating performance. Because the historical cost accounting convention used for real estate assets requires depreciation (except on land), such accounting presentation implies that the value of real estate assets diminishes predictably over time, while real estate values instead have historically risen or fallen with market conditions. The term funds from operations was designed by the real estate industry to address this issue. Funds from operations described herein is not necessarily comparable to funds from operations of other real estate investment trusts, or REITs, that do not use the same definition or implementation guidelines or interpret the standards differently from the Company.

Adjusted FFO is calculated as Nareit FFO excluding the impact of non-cash stock-based compensation and certain revenue and expense items (e.g., acquisition, merger and transition related costs, write-off of straight-line accounts receivable, recoveries and provisions for credit losses (excluding certain cash recoveries on impaired loans), cash interest received but not included in revenue, non-recognized cash interest, severance, legal reserve expenses, etc.). FAD is calculated as Adjusted FFO less non-cash interest expense and non-cash revenue, such as straight-line rent. The Company believes these measures provide an enhanced measure of the operating performance of the Company's core portfolio as a REIT. The Company's computation of Adjusted FFO and FAD may not be comparable to the Nareit definition of funds from operations or to similar measures reported by other REITs, but the Company believes that they are appropriate measures for this Company.

The Company uses these non-GAAP measures among the criteria to measure the operating performance of its business. The Company also uses FAD among the performance metrics for performance-based compensation of officers. The Company further believes that by excluding the effect of depreciation, amortization, impairments on real estate assets and gains or losses from sales of real estate, all of which are based on historical costs, and which may be of limited relevance in evaluating current performance, funds from operations can facilitate comparisons of operating performance between periods. The Company offers these measures to assist the users of its financial statements in analyzing its operating performance. These non-GAAP measures are not measures of financial performance under GAAP and should not be considered as measures of liquidity or cash flow, alternatives to net income or indicators of any other performance measure determined in accordance with GAAP. Investors and potential investors in the Company's securities should not rely on

these non-GAAP measures as substitutes for any GAAP measure, including net income.
