## **Perma-Fix Completes Sale of Fort Lauderdale Facility for \$5.5 Million; Announces Definitive Agreement to Sell Orlando Facility for \$2.0 Million**

ATLANTA, Aug. 16, 2011 (GLOBE NEWSWIRE) --*Perma-Fix Environmental Services, Inc.* (Nasdaq:PESI) today announced it has completed the sale of Perma-Fix of Ft. Lauderdale, Inc. ("PFFL") for approximately \$5.5 million subject to certain working capital adjustments. Additionally, the company announced it has signed a definitive agreement to sell Perma-Fix of Orlando, Inc. ("PFO") for \$2.0 million subject to certain working capital adjustments. The closing of the sale of PFO is subject to certain conditions being met. Both PFFL and PFO had been previously classified as discontinued operations.

Dr. Louis F. Centofanti, Chairman and Chief Executive Officer, stated, "We believe that our strategy to sell the industrial facilities and focus on nuclear services will be successful. We are generating very strong cash flow from our nuclear operations, which has enabled us to reduce debt and strengthen the balance sheet. The sale of our Fort Lauderdale facility for \$5.5 million, subject to certain adjustments, further improves our liquidity and upon closing of the sale of our Orlando facility, we expect to receive an additional \$2.0 million, subject to certain working capital adjustments, which we expect to complete in the fourth quarter of 2011."

On October 6, 2010, Perma-Fix's Board of Directors authorized the divestiture of the company's three remaining operations within the Industrial Segment. The decision to sell these remaining three operations within the Industrial Segment is based on the company's belief that its Nuclear Segment represents a sustainable long-term growth driver for the business.

### *About Perma-Fix Environmental Services*

Perma-Fix Environmental Services, Inc., a national environmental services company, provides unique mixed waste and industrial waste management services. The Company's increased focus on nuclear services includes radioactive and mixed waste treatment services for hospitals, research labs and institutions, federal agencies, including the Department of Energy ("DOE"), the Department of Defense ("DOD"), and nuclear utilities. The Company's industrial services treat hazardous and non-hazardous waste for a variety of customers including, Fortune 500 companies, federal, state and local agencies and thousands of other clients. Nationwide, the Company operates seven waste treatment facilities.
