## Supplemental Information

Q2 2016

Omega Healthcare Investors, Inc. is a Real Estate Investment Trust ("REIT") providing financing and capital to the longterm healthcare industry with a particular focus on skilled nursing facilities located in the United States.

At June 30, 2016, the Company's portfolio of investments included 973 operating healthcare facilities, consisting of skilled nursing facilities, assisted living facilities and other specialty hospitals, located in 41 states (excludes Manhattan land purchase) and the UK ( 35 facilities), and operated by 84 third-party healthcare operating companies.

As a source of capital to the healthcare industry, Omega continually evaluates the opportunities, trends and challenges affecting the industry. Our goal is to identify long-term investments in quality healthcare properties with outstanding operators that provide the most favorable risk/reward ratio to our investors.

This supplement includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements regarding Omega's or its tenants', operators', borrowers' or managers' expected future financial condition, results of operations, cash flows, funds from operations, dividends and dividend plans, financing opportunities and plans, capital markets transactions, business strategy, budgets, projected costs, operating metrics, capital expenditures, competitive positions, acquisitions, investment opportunities, dispositions, merger integration, growth opportunities, expected lease income, continued qualification as a REIT, plans and objectives of management for future operations and statements that include words such as "anticipate," "if," "believe," "plan," "estimate," "expect," "intend," "may," "could," "should," "will" and other similar expressions are forward-looking statements. These forward-looking statements are inherently uncertain, and actual results may differ from Omega's expectations. Omega does not undertake a duty to update these forward-looking statements, which speak only as of the date on which they are made.

Omega's actual results may differ materially from those reflected in such forward-looking statements as a result of a variety of factors, including, among other things: (i) uncertainties relating to the business operations of the operators of Omega's properties, including those relating to reimbursement by third-party payors, regulatory matters and occupancy levels; (ii) regulatory and other changes in the healthcare sector; (iii) changes in the financial position of Omega's operators; (iv) the ability of any of Omega's operators in bankruptcy to reject unexpired lease obligations, modify the terms of Omega's mortgages and impede the ability of to collect unpaid rent or interest during the pendency of a bankruptcy proceeding and retain security deposits for the debtor's obligations; (v) the availability and cost of capital; (vi) changes in Omega's credit ratings and the ratings of its debt securities; (vii) competition in the financing of healthcare facilities; (viii) Omega's ability to maintain its status as a REIT; (ix) Omega's ability to manage, re-lease or sell any owned and operated facilities; (x) Omega's ability to sell closed or foreclosed assets on a timely basis and on terms that allow Omega to realize the carrying value of these assets; (xi) the effect of economic and market conditions generally, and particularly in the healthcare industry; (xii) risks relating to the integration of Aviv's operations and employees into Omega and the possibility that the anticipated synergies and other benefits of the combination with Aviv will not be realized or will not be realized within the expected timeframe; and (xiii) other factors identified in Omega's filings with the Securities and Exchange Commission. Statements regarding future events and developments and Omega's future performance, as well as management's expectations, beliefs, plans, estimates or projections relating to the future, are forward looking statements. Omega undertakes no obligation to update any forward-looking statements contained in this supplement.

Note: All per share numbers rounded to 2 decimals.
(1) The Company's Adjusted FFO guidance for 2016 includes approximately $\$ 773$ million of combined new investments and planned capital renovation projects completed through June 30, 2016. It also includes approximately $\$ 400$ million of potential new investments which may close in 2016; however, it excludes the impact of gains and losses from the sale of assets, certain revenue and expense items, interest refinancing expense, capital transactions, acquisition and merger related costs, provisions for uncollectable receivables and stock-based compensation expense. A reconciliation of the Adjusted FFO guidance to the Company's projected GAAP earnings is provided on schedules attached to this press release. The Company may, from time to time, update its publicly announced Adjusted FFO guidance, but it is not obligated to do so.

The Company's Adjusted FFO guidance is based on a number of assumptions, which are subject to change and many of which are outside the Company's control. If actual results vary from these assumptions, the Company's expectations may change. Without limiting the generality of the foregoing, the timing and completion of acquisitions, divestitures, capital and financing transactions, and variations in restricted stock amortization expense may cause actual results to vary materially from our current expectations. There can be no assurance that the Company will achieve its projected results and potential new investments.
(2) Based on approximately 200 million fully diluted weighted average common shares outstanding.

Funds From Operations ("FFO"), Adjusted FFO and Adjusted Funds Available for Distribution ("FAD") are non-GAAP financial measures. For purposes of the Securities and Exchange Commission's Regulation G, a non-GAAP financial measure is a numerical measure of a company's historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable financial measure calculated and presented in accordance with GAAP in the statement of operations, balance sheet or statement of cash flows (or equivalent statements) of the company, or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable financial measure so calculated and presented. As used in this supplement, GAAP refers to generally accepted accounting principles in the United States of America. Pursuant to the requirements of Regulation $G$, the Company has provided reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures.

The Company calculates and reports FFO in accordance with the definition and interpretive guidelines issued by the National Association of Real Estate Investment Trusts ("NAREIT"), and consequently, FFO is defined as net income adjusted for the effects of asset dispositions and certain non-cash items, primarily depreciation and amortization and impairments on real estate assets. The Company believes that FFO, Adjusted FFO and FAD are important supplemental measures of its operating performance. Because the historical cost accounting convention used for real estate assets requires depreciation (except on land), such accounting presentation implies that the value of real estate assets diminishes predictably over time, while real estate values instead have historically risen or fallen with market conditions. The term FFO was designed by the real estate industry to address this issue. FFO described herein is not necessarily comparable to FFO of other real estate investment trusts, or REITs, that do not use the same definition or implementation guidelines or interpret the standards differently from the Company.

Adjusted FFO is calculated as FFO excluding the impact of non-cash stock-based compensation and certain revenue and expense items identified above. FAD is calculated as Adjusted FFO less non-cash interest expense and non-cash revenue, such as straight-line rent. The Company believes these measures provide an enhanced measure of the operating performance of the Company's core portfolio as a REIT. FAD is calculated as Adjusted FFO less non-cash interest expense and non-cash revenue, such as straight-line rent. The Company's computation of adjusted FFO and FAD are not comparable to the NAREIT definition of FFO or to similar measures reported by other REITs, but the Company believes that they are appropriate measures for this Company.

EBITDA is defined as earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation, amortization, gain or loss on asset sales-net, provisions for impairment and certain nonrecurring revenues and expenses.

The Company uses these non-GAAP measures among the criteria to measure the operating performance of its business. The Company further believes that by excluding the effect of depreciation, amortization, impairments on real estate assets and gains or losses from sales of real estate, all of which are based on historical costs and which may be of limited relevance in evaluating current performance, FFO can facilitate comparisons of operating performance between periods and between other REITs. The Company offers these measures to assist the users of its financial statements in analyzing its operating performance and not as measures of liquidity or cash flow. These non-GAAP measures are not measures of financial performance under GAAP and should not be considered as measures of liquidity, alternatives to net income or indicators of any other performance measure determined in accordance with GAAP. Investors and potential investors in the Company's securities should not rely on these non-GAAP measures as substitutes for any GAAP measure, including net income.

EBITDA Reconciliation and Debt Coverage Ratio Calculation
Unaudited
(in thousands)
Our ratios of Funded Debt to annualized EBITDA, Funded Debt to adjusted annualized EBITDA and Funded Debt to adjusted pro forma annualized EBITDA as of June 30, 2016 were $4.7 x, 4.7 x$ and $4.7 x$, respectively. EBITDA is defined as earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA eliminates items such as acquisition and merger related costs and stock-based compensation expense and adds back certain non-cash expenses, if any, to EBITDA. Adjusted pro forma EBITDA adds to adjusted EBITDA the incremental EBITDA from new investments made during the 1st quarter assuming an January 1 purchase date. EBITDA, adjusted EBITDA, adjusted pro forma EBITDA and related ratios are non-GAAP financial measures. Annualized EBITDA, adjusted annualized EBITDA and adjusted pro forma annualized EBITDA assume the current quarter results multiplied by four, and are not projections of future performance. Below is the reconciliation of EBITDA and adjusted EBITDA to net income.

# EBITDA Reconciliation and Fixed Charge and Interest Coverage Ratio Calculation <br> Unaudited 

(in thousands)

Our EBITDA to total interest expense ratio, adjusted EBITDA to total interest expense ratio and adjusted EBITDA to fixed charges as of June 30, 2016 were $5.3 x, 5.3 x$ and $5.1 x$, respectively. Fixed charge coverage is the ratio determined by dividing EBITDA by our fixed charges. EBITDA is defined as earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA eliminates items such as acquisition and merger related costs and stock-based compensation expense and adds back certain non-cash expenses, if any, to EBITDA.

Fixed charges consist of interest expense, amortization of other non-cash interest charges, amortization of deferred financing costs and refinancing costs. EBITDA, adjusted EBITDA and interest expense ratio are non-GAAP measures. Below is the reconciliation of EBITDA to net income.

## PORTFOLIO METRICS

EBITDARM Coverage: Represents EBITDARM of our operators, defined as earnings before interest, taxes, depreciation, amortization, Rent expense and management fees for the applicable period, divided by the total Rent paid to the Company by its operators during such period.

EBITDAR Coverage: Represents EBITDAR of our operators, defined as earnings before interest, taxes, depreciation, amortization, and Rent expense for the applicable period, divided by the total Rent paid to the Company by its operators during such period. Assumes a management fee of $4 \%$.

Portfolio Occupancy: Represents the average daily number of beds at the Company's properties that are occupied during the applicable period divided by the total number of total operating beds at the Company's properties that are available for use during the applicable period.

Property Type: ALF = assisted living facility; SNF = skilled nursing facility
Portfolio metrics and other statistics are not derived from Omega's financial statements but are operating statistics that the Company derives from reports that it receives from its operators pursuant to Omega's triple-net leases and mortgages. As a result, the Company's portfolio metrics typically lag its own financial statements by approximately one quarter. Portfolio metrics exclude assets held for sale, closed properties, properties under construction and, with certain exceptions for shorter periods, properties within 24 months of completion of construction.

Rent: Refers to the total monthly rent and mortgage interest due under all of the Company's lease and mortgage agreements as of the date specified, calculated based on the first full month following the specified date. Omega calculates "annualized rent" for properties during a period by utilizing the amount of rent under contract as of the last day of the period and assumes that amount of rent was received in respect of such property throughout the entire period.

## NON-GAAP FINANCIAL MEASURES

FFO: Funds from Operations (FFO), is defined as net income available to common stockholders, adjusted for the effects of asset dispositions and certain non-cash items, primarily depreciation and amortization and impairments on real estate assets.

AFFO: Adjusted FFO (AFFO) is calculated as FFO available to common stockholders excluding the impact of non-cash stock-based compensation and certain revenue and expense items identified above.

FAD: Funds Available for Distribution (FAD) is calculated as AFFO less non-cash interest expense and non-cash revenue, such as straight-line rent.

A further discussion of the Non-GAAP Financial Measures defined above is provided on page 18 of this supplement.
