The Debentures will mature on December 23, 2016 and will accrue interest at the rate of 4% per annum payable in cash on a monthly basis. At the holder's option, the Debentures may be converted into shares of common stock of Tecogen Inc. at a conversion price of \$5.40 per share, subject to adjustment in certain circumstances. Ardour Capital Investments, LLC acted as the placement agent.

"We are eager to be partnering with this exciting company and technology," said John Michaelson, Managing Director at Michaelson Capital Partners, LLC. "We are pleased to assist Tecogen in meeting its growth objectives."

Tecogen heating, cooling and power systems offer facilities energy efficiency, carbon reduction, and the ability to meet today's most stringent air quality requirements by virtually eliminating criteria pollutants (contributors to smog) using a proprietary two-stage emission system. A combination of microgrid capabilities, interconnection certifications, black-start ability, and high part-load efficiencies makes Tecogen systems a particularly attractive way to produce cleaner, more efficient energy.
