CALABASAS, Calif., Nov. 13, 2018 (GLOBE NEWSWIRE) -- **NETSOL Technologies, Inc.** (**NASDAQ:** <u>NTWK</u>), a global business services and enterprise application solutions provider, reported results for the fiscal first quarter ended September 30, 2018.

#### Fiscal First Quarter 2019 Financial Results

Total net revenues for the first quarter of fiscal 2019 were \$16.4 million, compared with \$12.8 million in the prior year period. The increase in total net revenues was primarily due to an increase in total license fees of \$5.6 million and an increase of total maintenance fees of \$163,000, which were offset by a decrease in total services revenues of \$2.2 million.

- Total license fees were \$6.0 million, compared with \$370,000 in the prior year period.
- Total maintenance fees were \$3.7 million, compared with \$3.6 million in the prior year period.
- Total services revenues were \$6.7 million, compared with \$8.9 million in the prior year

period.

Gross profit for the first quarter of fiscal 2019 was \$8.2 million (or 50.2% of net revenues), compared to \$4.8 million (or 37.5% of net revenues) in the first quarter of fiscal 2018. The increase in gross profit as a percentage of net revenues was primarily due to an increase in total revenues of \$3.6 million, which was offset by a minor increase in cost of revenues of \$152,000.

Operating expenses for the first quarter of fiscal 2019 increased 12% to \$6.6 million (or 40.5% of net revenues) from \$5.9 million (or 46.3% of net revenues) for the first quarter of fiscal 2018. The increase in operating expenses was primarily due to increases in salaries and wages, research and development and general and administrative expenses, which were offset by decreases in selling and marketing expenses, depreciation, and professional services.

GAAP net income attributable to NETSOL for the first quarter of fiscal 2019 totaled \$963,000 or \$0.08 per diluted share, an improvement from net loss of \$369,000 or \$(0.03) per diluted share in the first quarter of fiscal 2018.

Non-GAAP adjusted EBITDA for the first quarter of fiscal 2019 totaled \$2.2 million or \$0.19 per diluted share, an improvement from \$970,000 or \$0.09 per diluted share in the first quarter of fiscal 2018 (see note regarding "Use of Non-GAAP Financial Measures," below for further discussion of this non-GAAP measure).

At September 30, 2018, cash and cash equivalents were \$20.4 million, an increase from \$8.6 million at September 30, 2017.

#### **Management Commentary**

"In the first quarter we produced solid operational and financial results, building upon the momentum established in the latter half of fiscal 2018," said NETSOL Co-Founder, Chairman and Chief Executive Officer Najeeb Ghauri. "Most notably, we grew our topline 28% in Q1, which was driven by a major increase in license fees as part of the initial revenue recognition from some major contract wins during the quarter. Moreover, thanks to the inherent leverage in our operating model, we generated impressive gross profit and margin improvement leading to our fourth consecutive quarter of profitability. With the majority of our cost reductions and necessary restructuring now behind us, we're primed to continue building on this initial quarterly growth as a leaner, more focused organization. Looking ahead, we remain confident in our ability to drive double-digit topline growth through fiscal 2019. At the same time, we remain focused on maintaining our consistent profitability as we scale our business, which should ultimately result in superior returns to our shareholders over the long term."

#### Sales Outlook

"While we are executing on the large, multi-year deployments from contracts we've recently secured, we are also seeing the pace of new opportunities continue at a level that will allow us to meet or exceed our existing growth forecasts for the fiscal year," added President and Head of Sales Naeem Ghauri. "Additionally, we have embarked on a number of product-specific innovations that will allow our customers to take their business to even greater heights. More specifically, we are looking at evolving traditional finance products into new areas like ride and car sharing models and are also evaluating and testing emerging

technologies like blockchain that have tremendous potential to become an integral part of our future ecosystem."
