QuickLogic Reports First Quarter Fiscal 2023 Results

Positioning the Company Towards 2023 Expected Revenue Growth of Greater than 30%

SAN JOSE, Calif., May 16, 2023 /PRNewswire/ -- QuickLogic Corporation (NASDAQ: QUIK) ("QuickLogic" or the "Company"), a developer of ultra-low power multi-core voice enabled SoCs (System on Chips), embedded FPGA (Field Programmable Gate Array) IP, and Endpoint AI (Artificial Intelligence) solutions, today announced its financial results for the fiscal first quarter ended April 2, 2023.

Highlights

- Continued new product revenue growth year over year
- Increased sales funnel to \$125 million
- Growth in eFPGA-related business and sequential improvements in gross margins driven by eFPGA revenue and cost management position the Company for expected 2023 non-GAAP operating profit

"We continued to make progress this quarter towards reaching our goal of positive non-GAAP operating income," commented Brian Faith, CEO of QuickLogic. "Conversion of opportunities in our sales funnel, now at \$125 million, should start to accelerate in the third and fourth quarters, providing upside to our sales growth estimate of 30%. This continued growth would put us on track to report positive non-GAAP operating income in both the third and fourth quarters and for the full year."
