- (1) Net effective and cash rent statistics only include leases in which there is comparable lease data. Please see the Company's supplemental financial reporting package for additional detail.
- (2) The net effective and cash releasing spreads for new leases include a 504,016-square-foot lease at 1601 Mission Boulevard with a net effective and cash releasing spread of 68.2% and 42.8%, respectively. Excluding this lease, the net effective and cash releasing spreads for total leases are 22.2% and 7.1%, respectively.

As of September 30, 2025, the Company's Same Property Portfolio ending occupancy was 96.8%. Average Same Property Portfolio occupancy for the third quarter was 96.5%. The Company's total portfolio, excluding value-add repositioning and redevelopment assets, was 97.3% occupied and 97.3% leased. The Company's total portfolio, including value-add repositioning and redevelopment assets, was 91.8% occupied and 92.5% leased. The Company's improved land and industrial outdoor storage (IOS) sites, totaling approximately 8.4 million square feet or 191.9 acres, were 97.8% leased as of September 30, 2025.

Transaction Activity

During the third quarter of 2025, the Company executed 11 leases totaling 844,854 square feet of repositioning and redevelopment projects. Year to date, the repositioning and redevelopment leasing totals 1,528,532 square feet across 20 leases.

During the third quarter of 2025, the Company stabilized seven repositioning and redevelopment projects, totaling 586,435 square feet, representing a total investment of \$270.6 million. The projects achieved a weighted average unlevered stabilized yield of 4.4% on total investment.

Year to date, the Company stabilized 14 repositioning and redevelopment projects, totaling 1,477,292 square feet, which represent a total investment of \$492.0 million. The projects achieved a weighted average unlevered stabilized yield of 5.8% on total investment.

During the third quarter of 2025, the Company disposed of three properties for an aggregate sales price of \$53.6 million, including one transaction not previously disclosed. These transactions, totaling 151,760 square feet, generated a weighted average unlevered IRR to the Company of 14.3%.

- 15715 Arrow Highway, Irwindale, in the Los Angeles–San Gabriel Valley submarket, for \$21.6 million, or \$264 per square foot. The low-coverage, specialized research and development property, totaling 76,000

square feet, which had been initially slated for redevelopment in 2026, was instead sold to the in-place tenant. The transaction generated an unlevered IRR to the Company of 17.1%.

Year to date, the Company disposed of six properties, totaling 488,145 square feet, for an aggregate sales price of \$187.6 million, generating a weighted average unlevered IRR to the Company of 12.6%.

The Company has an additional \$160 million of dispositions under contract or accepted offer. These transactions are subject to customary due diligence and closing conditions; as such, there is no guarantee the Company will close on these transactions. The Company currently has no acquisitions under contract or accepted offer.

Balance Sheet

The Company ended the third quarter of 2025 with \$1.6 billion of total liquidity, including \$249.0 million in unrestricted cash on hand, \$65.5 million in restricted cash and \$1.245 billion available under its unsecured revolving credit facility.

During the third quarter of 2025, the Company repurchased 3,883,845 shares of its common stock under its stock repurchase programs at a weighted average price of \$38.62 per share for a total cost of \$150.0 million. In addition, the Company's Board of Directors authorized a new \$500.0 million stock repurchase program, which supersedes and replaces the prior \$300.0 million program. As of September 30, 2025, \$450.0 million remained available under the \$500 million program.

During the third quarter of 2025, the Company repaid its \$100.0 million unsecured senior note bearing interest at 4.29% with cash on hand.

(1) 2025 Guidance represents the in-place portfolio as of September 30, 2025, and does not include any assumptions for additional prospective acquisitions, dispositions or related balance sheet activities that have not closed.

(2) As of September 30, 2025, our 2025 Same Property Portfolio consisted of 288 properties totaling 37.9 million rentable square feet, representing approximately 80% of third quarter 2025 total portfolio NOI.

(3) 2025 General and Administrative expense guidance includes estimated non-cash equity compensation expense of \$38.3 million. Non-cash equity compensation includes restricted stock, time-based LTIP units and performance units that are tied to the Company's overall performance and may or may not

be realized based on actual results.

A number of factors could impact the Company's ability to deliver results in line with its guidance, including, but not limited to, the potential impacts related to interest rates, inflation, the economy, tariffs, the supply and demand of industrial real estate, the availability and terms of financing to the Company or to potential acquirers of real estate and the timing and yields for divestment and investment. There can be no assurance that the Company can achieve such results.

Forward Looking Statements

This press release may contain forward-looking statements within the meaning of the federal securities laws, which are based on current expectations, forecasts and assumptions that involve risks and uncertainties that could cause actual outcomes and results to differ materially. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," or "potential" or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. While forward-looking statements reflect the Company's good faith beliefs, assumptions and expectations, they are not guarantees of future performance. In addition, projections, assumptions and estimates of our future performance and the future performance of the industry in which we operate are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described above. These and other factors could cause results to differ materially from those expressed in our estimates and beliefs and in the estimates prepared by independent parties. For a further discussion of these and other factors that could cause the Company's future results to differ materially from any forward-looking statements, see the reports and other filings by the Company with the U.S. Securities and Exchange Commission, including the Company's Annual Report on Form 10-K for the year ended December 31, 2024, and other filings with the Securities and Exchange Commission. The Company disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

Definitions / Discussion of Non-GAAP Financial Measures

Funds from Operations (FFO): We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, gains (or losses) from sales of assets incidental to our business, impairment losses of depreciable operating property or assets incidental to our business, real estate related depreciation and amortization (excluding amortization of deferred financing costs and amortization of above/below-market lease intangibles) and after adjustments for unconsolidated joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. FFO should not be used as a measure of our liquidity and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of net income, the nearest GAAP equivalent, to FFO is set forth below in the Financial Statements and Reconciliations section. "Company Share of FFO" reflects FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders.

Core Funds from Operations (Core FFO): We calculate Core FFO by adjusting FFO for non-comparable items outlined in the "Reconciliation of Net Income to Funds From Operations and Core Funds From Operations" table, which is located in the Financial Statements and Reconciliations section below. We believe that Core FFO is a useful supplemental measure and that by adjusting for items that are not considered by the Company to be part of its on-going operating performance, provides a more meaningful and consistent comparison of the Company's operating and financial performance period-over-period. Because these adjustments have a real economic impact on our financial condition and results from operations, the utility of Core FFO as a measure of our performance is limited. Other REITs may not calculate Core FFO in a consistent manner. Accordingly, our Core FFO may not be comparable to other REITs' Core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. "Company Share of Core FFO" reflects Core FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders.

Reconciliation of Net Income Attributable to Common Stockholders per Diluted Share Guidance to Company Share of Core FFO per Diluted Share Guidance:

The following is a reconciliation of the Company's 2025 guidance range of net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, to Company share of Core FFO per diluted share.

	2025 Estimate	
	Low	High
Net income attributable to common stockholders	\$ 1.44	\$ 1.46
Company share of depreciation and amortization	1.28	1.28
Company share of gains on sale of real estate	(0.36)	(0.36)
Company share of FFO	\$ 2.36	\$ 2.38
Add: Core FFO adjustments ⁽¹⁾	0.03	0.03
Company share of Core FFO	\$ 2.39	\$ 2.41

(1) Core FFO adjustments consist of (i) acquisition expenses, (ii) debt extinguishment and modification expenses, (iii) amortization of the loss on termination of interest rate swaps, (iv) severance costs and (v) other nonrecurring expenses.

Net Operating Income (NOI): NOI is a non-GAAP measure, which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as rental income from real estate operations less property expenses (before interest expense, depreciation and amortization). We use NOI as a supplemental

performance measure because, in excluding real estate depreciation and amortization expense and gains (or losses) from property dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have a real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs.

NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of NOI for our Same Property Portfolio, as well as a reconciliation of net income to NOI for our Same Property Portfolio, is set forth below in the Financial Statements and Reconciliations section.

Cash NOI: Cash NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI: (i) amortization of above/(below) market lease intangibles and amortization of other deferred rent resulting from sale leaseback transactions with below market leaseback payments and (ii) straight-line rent adjustments. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of Cash NOI for our Same Property Portfolio, as well as a reconciliation of net income to Cash NOI for our Same Property Portfolio, is set forth below in the Financial Statements and Reconciliations section.

Same Property Portfolio: Our 2025 Same Property Portfolio is a subset of our total portfolio and includes properties that were wholly owned by us for the period from January 1, 2024 through September 30, 2025, and excludes (i) properties that were acquired or sold during the period from January 1, 2024 through September 30, 2025, and (ii) properties acquired prior to January 1, 2024 that were classified as repositioning/redevelopment (current and future) or lease-up during 2024 and 2025 and select buildings in "Other Repositioning," which we believe will significantly affect the properties' results during the comparative periods. As of September 30, 2025, our 2025 Same Property Portfolio consisted of buildings aggregating 37.9 million rentable square feet at 288 of our properties.

Properties and Space Under Repositioning: Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. A repositioning is generally considered complete once the investment is fully or nearly fully deployed and the property is available for occupancy.

Stabilization Date — Repositioning/Redevelopment Properties: We consider a repositioning/redevelopment property to be stabilized at the earlier of the following: (i) upon rent commencement and achieving 90% occupancy or (ii) one year from the date of completion of repositioning/redevelopment construction work.

Net Debt to Enterprise Value: As of September 30, 2025, we had consolidated indebtedness of \$3.3 billion, reflecting a net debt to enterprise value of approximately 23.2%. Our enterprise value is defined as the sum of the liquidation preference of our outstanding preferred stock and preferred units plus the market value of our common stock excluding shares of nonvested restricted stock, plus the aggregate value of common units not owned by us, plus the value of our net debt. Our Net Debt is defined as our consolidated indebtedness less cash and cash equivalents.

Net Debt to Adjusted EBITDAre: Calculated as Net Debt divided by annualized Adjusted EBITDAre. We calculate Adjusted EBITDAre as net income (loss) (computed in accordance with GAAP), before interest expense, tax expense, depreciation and amortization, gains (or losses) from sales of depreciable operating property, non-cash stock-based compensation expense, gain (loss) on debt extinguishment and debt modification expenses, acquisition expenses, impairments of right of use assets, the pro-forma effects of

acquisitions and dispositions and other nonrecurring expenses. We believe that Adjusted EBITDAre is helpful to investors as a supplemental measure of our operating performance as a real estate company because it is a direct measure of the actual operating results of our industrial properties. We also use this measure in ratios to compare our performance to that of our industry peers. In addition, we believe Adjusted EBITDAre is frequently used by securities analysts, investors and other interested parties in the evaluation of Equity REITs. However, because Adjusted EBITDAre is calculated before recurring cash charges including interest expense and income taxes, and is not adjusted for capital expenditures or other recurring cash requirements of our business, its utility as a measure of our liquidity is limited. Accordingly, Adjusted EBITDAre should not be considered an alternative to cash flow from operating activities (as computed in accordance with GAAP) as a measure of our liquidity. Adjusted EBITDAre should not be considered as an alternative to net income or loss as an indicator of our operating performance. Other Equity REITs may calculate Adjusted EBITDAre differently than we do; accordingly, our Adjusted EBITDAre may not be comparable to such other Equity REITs' Adjusted EBITDAre. Adjusted EBITDAre should be considered only as a supplement to net income (as computed in accordance with GAAP) as a measure of our performance. A reconciliation of net income, the nearest GAAP equivalent, to Adjusted EBITDAre is set forth below in the Financial Statements and Reconciliations section.
