Virios Therapeutics to Present at the H.C. Wainwright Virtual BioConnect Conference

ATLANTA--(BUSINESS WIRE)-- [Virios Therapeutics, Inc.](#) (Nasdaq: VIRI), a biotechnology company focused on advancing novel antiviral therapies to treat diseases associated with a viral triggered abnormal immune response, announced today that Greg Duncan, Chairman and Chief Executive Officer, and R. Michael Gendreau, M.D., Ph.D., Chief Medical Officer, will present a company overview at the H.C. Wainwright Virtual BioConnect Conference, which is taking place January 11 - 14, 2021.

The presentation will be available for on-demand access beginning Monday, January 11, 2021, at 6:00 AM ET, on Virios Therapeutics' website under the Investors section: [Events and Presentations](#).

About Virios Therapeutics

Virios Therapeutics is a development-stage biotechnology company focused on advancing novel antiviral therapies to treat diseases associated with a viral triggered abnormal immune response, such as fibromyalgia ("FM"). Overactive immune response related to activation of tissue resident Herpes Simplex Virus-1 ("HSV-1") has been postulated to be a potential root cause of chronic illnesses such as FM, irritable bowel disease ("IBS"), chronic fatigue syndrome and functional somatic syndrome, all of which are characterized by a waxing and waning manifestation of disease. While not completely understood, there is general agreement in the medical community that activation of HSV-1 is triggered by some form of environmental and/or health stressor. Our lead development candidate ("IMC-1"), is a novel, proprietary, fixed dose combination of famciclovir and celecoxib. IMC-1 represents a novel combination antiviral therapy designed to synergistically suppress HSV-1 activation and replication, with the end goal of reducing viral mediated disease burden.

Forward Looking Statements

Statements in this press release contain "forward-looking statements" that are subject to substantial risks and uncertainties. All statements, other than statements of historical fact, contained in this press release are forward-looking statements. Forward-looking statements contained in this press release may be identified by the use of words such as "anticipate," "believe," "contemplate," "could," "estimate," "expect," "intend," "seek," "may," "might," "plan," "potential," "predict," "project," "target," "aim," "should," "will" "would," or the negative of these words or other similar expressions, although not all forward-looking statements contain these words. Forward-looking statements are based on Virios Therapeutics' current expectations and are subject to inherent uncertainties, risks and assumptions that are difficult to predict. Further, certain forward-looking statements are based on assumptions as to future events that may not prove to be accurate. These and other risks and uncertainties are described more fully in the section titled "Risk Factors" in the final prospectus related to

the public offering filed with the Securities and Exchange Commission. Forward-looking statements contained in this announcement are made as of this date, and Virios Therapeutics, Inc. undertakes no duty to update such information except as required under applicable law.
