- ***Invested \$5.4 million in one new portfolio company and eight follow-on transactions during the year***
- ***Net Asset Value per share increased sequentially to \$5.05 at December 31***
 - ***Improved \$0.09 per share on portfolio and operating performance***
 - ***Unfavorably impacted by \$0.05 per share due to reduction in federal tax rates***

BUFFALO, NY--(BUSINESS WIRE)-- [Rand Capital Corporation](#) (NASDAQ: RAND) (“Rand”), a venture capital company which invests in growth businesses with unique product, service or technology concepts, announced its results for the quarter and year ended December 31, 2017.

Allen F. (“Pete”) Grum, President and Chief Executive Officer of Rand Capital, commented, “We finished 2017 with a strong year of investments, totaling \$5.4 million. We made great progress in structuring those investments to increase our investment income. Our net investment income, along with net increases in realized gains and unrealized appreciation on certain investments favorably impacted net asset value per share during the third and fourth quarters of 2017.”

He continued, “As a result of the Tax Cuts and Jobs Act, federal tax rates decreased to 21% from 35%. During the fourth quarter, we were required to revalue our deferred tax assets based on the new, lower rates, resulting in a write-down amounting to \$0.05 per share. As we monetize and exit portfolio companies in the future, we will significantly benefit from the lower tax rates beginning in 2018.”

Mr. Grum added, “We continue to work with the U.S. Small Business Administration (SBA) to finalize an arrangement for additional SBA capital.”

Fourth Quarter and Full Year 2017 Financial Highlights

- Reported \$5.05 net asset value (NAV) per share at December 31, 2017, compared with \$5.01 at September 30, 2017. The sequential improvement was driven by higher investment income, realized gains and unrealized appreciation on investments. These were partially offset by \$0.05 per share to revalue the Company’s deferred tax assets at new, lower federal tax rates.
- For the full year, completed nine investment transactions totaling \$5.4 million.
 - The fourth quarter included \$1.5 million invested as a follow-on in Tilson Technology Management, Inc.
- During the fourth quarter, Rand sold its position in Athenex, Inc., generating

approximately \$781,000 of gross proceeds and realizing a \$638,000 pretax gain.

- Investment income increased 26% and 41% over the prior-year fourth quarter and full year, respectively.
- At December 31, 2017, portfolio fair value was \$32.3 million and consolidated cash was \$6.3 million.

Total investment income in the fourth quarter of 2017 grew to approximately \$380,000, up from approximately \$301,000 in the fourth quarter of 2016. The \$79,000 increase was driven by the Company's success with focusing investments in income producing instruments. Total expenses in the 2017 and 2016 fourth quarters were approximately \$448,000 and \$486,000, respectively.

Total investment income was approximately \$1.5 million and \$1.0 million for the years ended December 31, 2017 and 2016, respectively. Similar to the fourth quarter, the growth was driven by the Company's recent investment focus on income-generating instruments. Total expenses for the year were approximately \$2.0 million in 2017, down from \$3.4 million in 2016. The 2017 expenses included approximately \$133,000 associated with the Company's application process for its second SBIC. The 2016 expenses included higher incentive compensation expenses related to the Company's Gemcor exit.

Selected Portfolio Highlights

- [**Tilson Technology Management, Inc.**](#) is an award-winning, veteran owned IT professional services and network deployment firm. The company primarily operates in two fast growing markets: 1) network deployment for cellular carriers, utilities, and governments; and 2) consulting for construction IT, broadband and energy, and government institutional markets. Recognized for its sustained high growth, Tilson has been on the prestigious *Inc. 5000* list of fastest-growing private U.S. companies for seven consecutive years, from 2011 through 2017. As a result of this distinction, Tilson joins a select group of firms on the *Inc. 5000* 'Honor Roll,' a milestone which just two percent of the *Inc. 5000* companies ever achieve, according to the publisher. Tilson has grown more than 410% to become one of the top 25 telecommunications firms on the list as of 2016. During the fourth quarter of 2017, Rand invested \$1.5 million in both debt and equity capital, to support Tilson's ongoing growth. This represents Rand's third investment in Tilson since its initial investment in January 2015. At December 31, 2017 Rand's investment in Tilson was valued at \$2.5 million.
- [**Carolina Skiff, LLC**](#) is a leading manufacturer of high quality, versatile outboard boats, including the #1 fiberglass outboard brand within their size range. Offering more than 60 models, Carolina Skiff boats provide the most features and the best functionality available. The company has an established footprint with 94 dealers across 23 states. Since 2014, revenue and EBITDA have grown at compound annual growth rates exceeding 9% and 27%, respectively. Rand initially invested in Carolina Skiff in 2004. The company's recent strong financial performance has driven Rand to increase its carrying value by \$650,000 during the fourth quarter, resulting in a carrying value of \$1.75 million in Rand's portfolio as of December 31, 2017.
- [**GiveGab, Inc.**](#) provides a user-friendly social platform that cultivates long-term giving

relationships by connecting donors and volunteers with nonprofits. The GiveGab team helps nonprofits thrive, providing an affordable, secure and customized way to engage with supporters, raise funds online, and manage data. In January 2018, GiveGab announced that they acquired Austin, Texas-based [Kimbria](#). This synergistic acquisition results in significant growth for GiveGab, especially driven by Kimbria's Everyday Giving solution. The combination of these two organizations allows them to benefit from each other's knowledge and experience, resources, and customer base. At December 31, 2017 Rand's investment in GiveGab was valued at approximately \$424,000.

As of December 31, 2017, Rand's portfolio consisted of 30 active companies. At that date, the portfolio was comprised of approximately 58% in equity investments and 42% in debt investments, compared with 64% in equity investments and 36% in debt investments at December 31, 2016. The change in investment mix reflects Rand's strategy to generate sufficient investment income to cover operating expenses.
