About 3DIcon Corporation

3DIcon Corporation is a developer of groundbreaking 3D projection and display technologies that are designed to produce full color, high-resolution, 360-degree volumetric images, a development many consider to be the next step in 3D display technology. CSpace creates both dense and translucent images for use in mission critical functions including healthcare, security and defense. CSpace enables viewing inside organs, cargo containers, and baggage, as well as large scale terrain such as oceans and mountains, all of which are beyond the capabilities of other current display methodologies. The company also offers a software product, [Pixel Precision[®]](#), which targets the R&D market for developers using Texas Instruments' DLP[®] line of products. For visualization of CSpace images please visit www.3dicon.net.
