Lightbridge Reports Financial Results for the Second Quarter of 2019 and Provides Business Update on Enfission and Other Developments

RESTON, Va., Aug. 07, 2019 (GLOBE NEWSWIRE) -- [Lightbridge Corporation](#) (NASDAQ: LTBR), a nuclear fuel developer, today provided a business update and reported financial results for the second quarter ended June 30, 2019.

Seth Grae, President & Chief Executive Officer of Lightbridge Corporation, commented, “We continue to work towards major near-term milestones, including production of commercial-length fuel rods with surrogate materials, as well as a contract with a major US nuclear utility for a Lead Test Rod program. While this commercial contract with a utility is taking longer than expected, we continue to advance the process and solidify our collaboration goals. Our Enfission GENESIS project recently received via Framatome, our partner in Enfission, its first specific funding award from DOE, through a Gateway for Accelerated Innovation in Nuclear (GAIN) voucher. This voucher enables Framatome to apply focused attention on key licensing steps to commercialize Lightbridge Fuel.”

“We are also gaining attention at the strategic level. In May, we announced that we entered into a Memorandum of Understanding with NuScale Power, which is developing the country’s first small modular reactor, to develop research and testing programs in order to explore the application of our nuclear fuel technology, which is well suited for NuScale’s natural circulation design. Our advanced fuel design is expected to increase core performance, extend core life, reduce refueling outages and offer reduced levelized cost of electricity. We look forward to finalizing a definitive agreement with NuScale Power and contributing to optimizing their advanced nuclear reactor design.”

“We continue to expand our intellectual property portfolio as we advance towards commercialization. In June, we received a Notice of Allowance for a new patent related to our innovative metallic fuel rod and fuel assembly under the Eurasian Patent Convention, which includes Russia and other territories across Eurasia. More recently, Europe and Eurasia awarded us patents for a fuel assembly design incorporating multi-lobe metallic fuel rods for use in CANDU heavy water reactors, which follow similar patents the United States and China awarded to us. In addition to inherent economic and safety benefits, our fuel enables longer refueling cycles, which is key to extending the life of existing plants. We believe that a strong patent portfolio will help establish and sustain leadership in key global markets.”

RECENT RESEARCH AND DEVELOPMENT ADVANCEMENTS

- Completed preliminary U-Zr casting studies to support fabrication process

specifications

- Completed non-destructive examination (NDE) strategy for fuel rod inspection and quality control
- Completed parametric neutronics studies to optimize Lightbridge Fuel™ rod geometry
- Completed ANSYS model for fuel rod geometry optimization studies

Financial Highlights

- Cash and cash equivalents were \$21.0 million at June 30, 2019 compared to \$24.6 million at December 31, 2018.
- Total assets were \$23.4 million at June 30, 2019 and total liabilities were \$0.5 million at June 30, 2019.
- Total equity offerings raised \$2.9 million in net proceeds for Q2 2019 compared to net proceeds of \$29.8 million for Q2 2018.
- Total investment made in the Enfission joint venture, used primarily for research and development work conducted by Enfission in Q2 2019, was \$3.5 million compared to \$5.2 million for Q2 2018. This Enfission joint venture was formed in January 2018.
- Stockholders' equity was \$22.9 million at June 30, 2019 compared to \$25.9 million at December 31, 2018.
- General and administration expenses for Q2 2019 were \$1.2 million compared to \$1.4 million for the Q2 2018. There was a decrease in professional fees of approximately \$0.2 million due to a decrease in accounting and other professional fees.
- Other operating expenses were \$1.7 million for Q2 2019, consisting of our equity in the loss from the Enfission joint venture of \$2.0 million, which consisted primarily of research and development expenses, offset by our income from the research and development support we provided to Enfission of \$0.3 million. Other operating expenses were \$1.6 million for Q2 2018, consisting of our equity in loss from the Enfission joint venture of \$1.8 million, which consisted primarily of research and development expenses, offset by our income from the research and development support we provided to Enfission of \$0.2 million.
- Lightbridge's research and development expenses (not including Enfission's research and development expenses mentioned above) for Q2 2019 were \$0.5 million compared to \$0.5 million for Q2 2018.
- Net loss was \$3.3 million for Q2 2019 compared to \$3.5 million for Q2 2018.

2019 Second Quarter Conference Call

Lightbridge will host a conference call on Thursday, August 8th at 3:00 p.m. Eastern Time to discuss the company's financial results for the second quarter ending June 30, 2019, as well as the Company's corporate progress and other meaningful developments.

Interested parties can access the conference call by calling 877-407-0778 for U.S. callers, or +1-201-689-8565 for international callers. The call will be available on the Company's website via webcast at <http://ir.ltbridge.com/events.cfm>. The conference call will be led by Seth Grae, President and Chief Executive Officer, and other Lightbridge executives will also be available to answer questions. Questions may also be submitted in writing before or during the conference call to ir@Ltbridge.com.

A webcast will also be archived on the Company's website and a telephone replay of the call

will be available approximately one hour following the call, through 3:00 p.m. on September 9, 2019, and can be accessed by calling: 877-481-4010 (U.S. callers) or +1-919-882-2331 (international callers) and entering conference ID: 50549.

About Lightbridge Corporation

Lightbridge (NASDAQ: LTBR) is a nuclear fuel technology development company based in Reston, Virginia, USA. The Company develops proprietary next generation nuclear fuel technologies for current and future reactors, which significantly enhances the economics and safety of nuclear power, operating about 1000° C cooler than standard fuel. In January 2018, Lightbridge and Framatome, Inc. formed a 50-50 joint venture, Enfission, LLC, to develop, license, manufacture, and sell nuclear fuel assemblies based on Lightbridge-designed metallic fuel technology and other advanced nuclear fuel intellectual property. Enfission has the exclusive rights to this technology and is responsible for the development of manufacturing processes and fuel assembly designs for pressurized water reactors (PWRs), boiling water reactors (BWRs), water-cooled small modular reactors, and water-cooled research reactors developed around this intellectual property. PWRs and BWRs constitute the most widely used reactor types in the world. Four large electric utilities that generate about half the nuclear power in the US already advise Lightbridge on fuel development and deployment. In addition to distributions from Enfission based on the parties' ownership interest in the joint venture, Lightbridge anticipates receiving future licensing revenues in connection with sales by Enfission of nuclear fuel incorporating its intellectual property. Lightbridge also provides comprehensive advisory services for established and emerging nuclear programs based on a philosophy of transparency, non-proliferation, safety and operational excellence. Forward Looking Statements

With the exception of historical matters, the matters discussed in this news release are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding the timing and outcome of research and development activities and other steps to commercialization of Lightbridge Fuel™, the Company's entry into a commercial utility agreement, and the Company's anticipated financial resources and position. . These statements are based on current expectations on the date of this news release and involve a number of risks and uncertainties that may cause actual results to differ significantly from such estimates. The risks include, but are not limited to, the degree of market adoption of the Company's product and service offerings; market competition; dependence on strategic partners; demand for fuel for nuclear reactors; the Company's ability to manage its business effectively in a rapidly evolving market; as well as other factors described in Lightbridge's filings with the Securities and Exchange Commission. Lightbridge does not assume any obligation to update or revise any such forward-looking statements, whether as the result of new developments or otherwise. Readers are cautioned not to put undue reliance on forward-looking statements.
