

# Baudax Bio Announces Exercise of Warrants for Gross Proceeds of \$13.4 Million

MALVERN, Pa., Jan. 21, 2021 (GLOBE NEWSWIRE) -- Baudax Bio, Inc. (Nasdaq: BXRX), a pharmaceutical company focused on therapeutics for acute care settings, today announced the agreement by an accredited healthcare-focused institutional investor to cash exercise certain warrants to purchase up to an aggregate of 10,300,430 shares of common stock having an exercise price of \$1.18 issued by the company in December 2020. The shares of common stock issuable upon exercise of the warrants are registered pursuant to a registration statement on Form S-3 (File No. 333-243488). In consideration for the immediate exercise of the warrants for cash, the company will sell to the exercising holder an additional warrant pursuant to the registration statement. The new warrant will be cash exercisable for an aggregate of up to 10,300,430 shares of common stock at an exercise price of \$1.60 per share and have a term of exercise equal to five years. The purchase price of the additional warrant will be \$1,287,553.75, or \$0.125 per warrant share.

The gross proceeds to the company from the exercise of the warrants and the sale of the additional warrants are expected to be approximately \$13,442,061, prior to deducting placement agent fees and estimated offering expenses.

H.C. Wainwright & Co. is acting as the exclusive placement agent for the offering.

Baudax Bio currently intends to use the net proceeds from the offering for the commercialization of ANJESO<sup>®</sup>, pipeline development activities and general corporate purposes.

The shares issuable upon exercise of the warrants and the issuance of the new warrants described above are being offered by Baudax Bio pursuant to a "shelf" registration statement on Form S-3 (File No. 333-243488) filed with the Securities and Exchange Commission (SEC) on August 10, 2020 and declared effective on October 2, 2020. The offering of the securities described herein will be made only by means of a prospectus, including a prospectus supplement, forming a part of the effective registration statement. A final prospectus supplement and accompanying prospectus relating to the securities being offered will be filed with the SEC. Electronic copies of the final prospectus supplement and accompanying prospectus may be obtained, when available, on the SEC's website at <http://www.sec.gov> or by contacting H.C. This press release does not constitute an offer to sell or the solicitation of an offer to buy any of the securities described herein, nor shall there be any sale of these securities in any state or other jurisdiction in which such an offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or other jurisdiction.

## About ANJESO®

ANJESO (meloxicam) injection is a proprietary, long-acting, preferential COX-2 inhibitor that possesses analgesic, anti-inflammatory and antipyretic activities, which are believed to be related to the inhibition of cyclooxygenase type 2 pathway (COX-2) and subsequent reduction in prostaglandin biosynthesis. ANJESO was launched in the U.S. in June 2020 following its approval by the Food and Drug Administration in February 2020. ANJESO is indicated for the management of moderate to severe pain, alone or in combination with other non-NSAID analgesics. Because of the delayed onset of analgesia, ANJESO alone is not recommended for use when rapid onset of analgesia is required. ANJESO is supported by two pivotal Phase III clinical efficacy trials, a large double-blind, placebo-controlled Phase III safety trial and four Phase II clinical efficacy trials, as well as other safety studies. As a non-opioid, Baudax Bio believes ANJESO has the potential to overcome many of the issues associated with commonly prescribed opioid therapeutics, including respiratory depression, constipation, excessive nausea and vomiting, as well as having no addictive potential, while maintaining meaningful analgesic effects for relief of pain. ANJESO was designed using the NanoCrystal® platform, a technology that enables enhanced bioavailability of poorly water-soluble drug compounds. NanoCrystal® is a registered trademark of Alkermes Pharma Ireland Limited (APIL).

## About Baudax Bio

Baudax Bio is a pharmaceutical company focused on therapeutics for acute care settings. The launch of Baudax Bio's first commercial product ANJESO® began in June 2020 following its approval by the U.S. Food and Drug Administration in February 2020. ANJESO is a once daily IV NSAID with preferential Cox-2 activity, which has successfully completed three Phase III clinical trials, including two pivotal efficacy trials, a large double-blind Phase III safety trial and other studies for the management of moderate to severe pain. In addition to ANJESO, Baudax Bio has a pipeline of other pharmaceutical assets including two novel neuromuscular blocking agents (NMBAs) and a proprietary chemical reversal agent specific to these NMBAs which is currently in preclinical studies, and intranasal dexmedetomidine which is being developed for possible uses in pain or sedation.
