Ingram Micro Canada Adds PernixData Software to Storage Portfolio

PernixData FVP(R) and Architect(TM) Software Now Available to Canadian Channel Partners

MISSISSAUGA, ON -- (Marketwired) -- 06/27/16 -- Ingram Micro Inc. (NYSE: IM) today announced a new business relationship with PernixData in Canada. Under the new agreement, Ingram Micro Canada will offer PernixData FVP® and Architect™ software to its channel partners.

PernixData's FVP and Architect software offers resellers a way to provide scale-out performance and management to any storage environment, while maximizing the responsiveness of virtualized applications and minimizing infrastructure costs.

- ***PernixData FVP*** software creates a low latency, fault tolerant I/O acceleration using high-speed server media (i.e. Flash and/or RAM). This ensures the fastest VM performance with seamless operations, scale-out growth, and complete fault tolerance.

- ***PernixData Architect*** is a revolutionary software platform for holistic data center design, deployment, operations and optimization. It combines a best-in-class user experience with robust real-time analytics and design recommendations to deliver unprecedented visibility and control of virtualized applications and the underlying storage infrastructure.

"PernixData's software is a welcome addition to Ingram Micro Canada's portfolio of solutions, providing demonstrated value to channel partners and their customers looking to solve storage performance and management issues in a completely non-disruptive and scalable manner," said David Mason, executive director, Advanced Solutions, Ingram Micro Canada. "We are excited to be working with PernixData to make FVP and Architect software accessible to our Canadian channel partners."

"We are pleased to team with Ingram Micro Canada and leverage their dedicated storage team and extensive reseller base to accelerate expansion of PernixData FVP and Architect software solutions in Canada," said Kristin Carnes, vice president of channel sales at PernixData. "We look forward to building a strong and cohesive network of Canadian channel partners that will help companies change the way they design, operate and optimize storage forever."
