Ondas Holdings to Participate in Ladenburg Thalmann Innovation EXPO25 on May 21, 2025

Presentation Livestream Will be Broadcast at 9:30 AM [ETHERE](#)

BOSTON, MA - May 14, 2025 ([NEWMEDIAWIRE](#)) - [Ondas Holdings Inc.](#) (NASDAQ: ONDS) ("Ondas" or the "Company"), a leading provider of private industrial wireless networks and commercial drone and automated data solutions, today announced its participation in the Ladenburg Thalmann Innovation EXPO25, to be held on Wednesday, May 21, 2025, at Convene, 101 Park Avenue, New York, NY. Ondas Holdings CEO, Eric Brock will be presenting at 9:30AM ET. The presentation livestream will be broadcasted [here](#).

"At Ondas we are increasingly integrating AI-enabled capabilities into our drone solutions to optimize drone operations in the most challenging environments, as well as throughout our production workflows and supply chain," stated Eric Brock, Chairman and CEO of Ondas. "We look forward to participating in the Ladenburg Innovation EXPO25, which provides an opportunity to showcase our progress and connect directly with the investment community."

The Ladenburg Thalmann Innovation EXPO25 is a premier event bringing together a diverse group of innovative companies and institutional investors for a full day of presentations, one-on-one meetings, and networking opportunities. The conference will feature approximately 50 technology companies that leverage AI in innovative and breakthrough ways. Participating companies will present their business strategies and innovations through three dedicated presentation tracks and demonstrate their products live in the "Ladenburg Expo format."

Organized by Ladenburg Thalmann with marketing support from B2i Digital, Inc., the EXPO25 provides a unique platform for companies to engage directly with institutional and high-net-worth investors, public company executives, and industry professionals.

"Ladenburg Thalmann is committed to building valuable connections between innovative companies and discerning investors," said Mark Green, Managing Director, Investment Banking at Ladenburg Thalmann.

"As the Marketing Partner, B2i Digital is focused on helping companies participating in the Ladenburg EXPO25 maximize their exposure to the investment community before, during and after the event," said David Shapiro, CEO of B2i Digital, Inc. "Ladenburg Thalmann has carefully curated the presenting companies to include only the highest caliber disruptors in the technology and AI space. Our investors will value the insights they share."

The Ladenburg Innovation EXPO25 will include presentations, product demonstrations, and one-on-one meetings. Attendees will have multiple opportunities to connect throughout the day, with breakfast, a buffet lunch, and all-day refreshments provided.

About Ondas Holdings Inc.

Ondas Holdings Inc. ("Ondas") is a leading provider of private wireless data solutions via Ondas Networks Inc. ("Ondas Networks") and commercial drone solutions through Ondas Autonomous Systems Inc. via its wholly-owned subsidiaries American Robotics, Inc. ("American Robotics" or "AR") and Airobotics LTD ("Airobotics"), which we operate as a separate business unit called Ondas Autonomous Systems.

Ondas Networks is a developer of proprietary, software-based wireless broadband technology for large established and emerging commercial and government markets. Ondas Networks' standards-based (802.16t), multi-patented, software-defined radio FullMAX platform enables Mission-Critical IoT (MC-IoT) applications by overcoming the bandwidth limitations of today's legacy private licensed wireless networks. Ondas Networks' customer end markets include railroads, utilities, oil and gas, transportation, aviation (including drone operators) and government entities whose demands span a wide range of mission critical applications.

Ondas Autonomous Systems Inc. (OAS) specializes in designing, developing, and marketing autonomous drone solutions via its two advanced drone platforms: the Optimus System, the world's first FAA-certified small UAS (sUAS) for aerial security and data capture, and the Iron Drone Raider, a counter-drone system designed to combat hostile drones. Both platforms are highly automated, AI-powered, and capable of continuous, remote operation for critical defense, infrastructure, industrial, and government applications. American Robotics and Airobotics have achieved industry-leading regulatory milestones, including the first-ever FAA Type Certification for the Optimus System and the first drone system approved by the FAA for automated beyond-visual-line-of-sight (BVLOS) operations without an on-site human operator.

Ondas Networks, American Robotics and Airobotics together provide users in defense, homeland security, public safety and other critical industrial and government security and infrastructure markets with improved connectivity, situational awareness and data collection and information processing capabilities.
