SAN DIEGO - November 6, 2013 - Qualcomm Incorporated (Nasdaq: QCOM), a leading developer and innovator of advanced wireless technologies, products and services, today announced results for the fiscal fourth quarter and year ended September 29, 2013.

"I am very pleased with our record financial performance this year as we delivered revenues of \$25 billion, up 30% versus last year. Our technologies underpin the global growth of wireless data, and our semiconductor solutions are used across the industry's flagship smartphones," said Dr. Paul E. Jacobs, chairman and CEO of Qualcomm. "Looking forward, we expect continued strong growth of 3G and 3G/4G multimode devices around the world, particularly in China with the anticipated launch of LTE. Qualcomm remains well positioned from a growth standpoint, and we expect double-digit compound annual growth rates for both revenues and earnings per share over the next five years."

Effective Income Tax Rates

Our fiscal 2013 annual effective income tax rates were 16 percent for GAAP and 17 percent for Non-GAAP. The fiscal 2013 GAAP effective tax rate included a tax benefit of \$64 million related to the retroactive extension of the United States federal research and development tax credit related to fiscal 2012. This benefit was excluded from our Non-GAAP results.

Business Outlook

The following statements are forward looking, and actual results may differ materially. The "Note Regarding Forward-Looking Statements" in this news release provides a description of certain risks that we face, and our annual and quarterly reports on file with the Securities and Exchange Commission (SEC) provide a more complete description of risks.

Our outlook does not include provisions for future asset impairments or for pending legal matters, other than future legal amounts that are probable and estimable. Further, due to their nature, certain income and expense items, such as realized investment and certain derivative gains or losses, cannot be accurately forecast. Accordingly, we only include such items in our business outlook to the extent they are reasonably certain; however, actual results may vary materially from the business outlook.

Our outlook for fiscal 2014 diluted earnings per share includes an estimate of the benefit related to approximately \$4 billion in stock repurchases that we plan to complete over the course of fiscal 2014 under our current stock repurchase program.

On August 21, 2013, we entered into a definitive agreement under which we agreed to sell the North and Latin American operations of our Omnitracs division for \$800 million, subject to closing conditions, including receipt of regulatory approvals. We expect the transaction to close in the first quarter of fiscal 2014. Upon close, we expect to record a gain on sale of approximately \$0.22 to \$0.25 earnings per share, which has been excluded from our fiscal first quarter and fiscal 2014 outlook.

The following table summarizes GAAP and Non-GAAP guidance based on the current business outlook. The Non-GAAP business outlook presented below is consistent with the presentation of Non-GAAP results included elsewhere herein.

- (1) Total reported device sales is the sum of all reported sales in U.S. dollars (as reported to us by our licensees) of all licensed CDMA-based, OFDMA-based and CDMA/OFDMA multimode subscriber devices (including handsets, modules, modem cards and other subscriber devices) by our licensees during a particular period (collectively, 3G/4G devices). The reported quarterly estimated ranges of average selling prices (ASPs) and unit shipments are determined based on the information as reported to us by our licensees during the relevant period and our own estimates of the selling prices and unit shipments for licensees that do not provide such information. Not all licensees report sales, selling prices and/or unit shipments the same way (e.g., some licensees report selling prices net of permitted deductions, such as transportation, insurance and packing costs, while other licensees report selling prices and then identify the amount of permitted deductions in their reports), and the way in which licensees report such information may change from time to time. Total reported device sales, estimated unit shipments and estimated ASPs for a particular period may include prior period activity that was not reported by the licensee until such particular period.
- (2) Q1 and FY 2014 guidance excludes the expected gain on sale of the North and Latin American operations of our Omnitracs division. We expect the transaction to close in the first quarter of fiscal 2014. Upon close, we expect to record a gain on sale of approx. \$0.22 to \$0.25 EPS.
- (3) FY 2014 guidance includes an estimate of the benefit related to approx. \$4 billion in stock repurchases that we plan to complete over the course of fiscal 2014 under our current stock repurchase program. FY 2014 guidance also reflects an annual effective tax rate that includes an estimate of the United States federal R&D tax credit expected to be generated through December 31, 2013, the date on which the credit will expire.
- (4) The midpoints of the estimated calendar year ranges are identified for comparison purposes only and do not indicate a higher degree of confidence in the midpoints.

- (1) Non-GAAP reconciling items related to revenues consisted primarily of nonreportable segment revenues less intersegment eliminations. Non-GAAP reconciling items related to earnings before taxes consist primarily of certain costs of equipment and services revenues, research and development expenses, sales and marketing expenses, other operating expenses and certain investment income or losses and interest expense that are not allocated to the segments for management reporting purposes; nonreportable segment results; and the elimination of intersegment profit.

Conference Call

Qualcomm's fiscal fourth quarter and fiscal 2013 earnings conference call will be broadcast live on November 6, 2013, beginning at 1:45 p.m. Pacific Time (PT) at http://investor.qualcomm.com/events.cfm. This conference call will include a discussion of "Non-GAAP financial measures" as defined in Regulation G. The most directly comparable GAAP financial measures and information reconciling these Non-GAAP financial measures to the Company's financial results prepared in accordance with GAAP, as well as other financial and statistical information to be discussed on the conference call, will be posted at www.qualcomm.com/investor immediately prior to commencement of the call. An audio replay will be available at http://investor.qualcomm.com/events.cfm and via telephone following the live call for 30 days thereafter. To listen to the replay via telephone, U.S. callers may dial (855) 859-2056 and international callers may dial (404) 537-3406. Callers should use reservation number 87075999.

Note Regarding Use of Non-GAAP Financial Measures

The Non-GAAP financial information presented herein should be considered in addition to, not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. In addition, "Non-GAAP" is not a term defined by GAAP, and as a result, the Company's measure of Non-GAAP results might be different than similarly titled measures used by other companies. Reconciliations between GAAP and Non-GAAP results are presented herein.

The Company uses Non-GAAP financial information (i) to evaluate, assess and benchmark the Company's operating results on a consistent and comparable basis; (ii) to measure the performance and efficiency of the Company's ongoing core operating businesses, including the QCT (Qualcomm CDMA Technologies), QTL (Qualcomm Technology Licensing) and QWI (Qualcomm Wireless & Internet) segments; and (iii) to compare the performance and efficiency of these segments against each other and against competitors. Non-GAAP measurements of the following financial data are used by the Company: revenues, cost of equipment and services revenues, R&D expenses, SG&A expenses, operating income, net investment income, income or earnings before income taxes, effective tax rate, net income, diluted earnings per share, operating cash flow and free cash flow. The Company is able to assess what it believes is a more meaningful and comparable set of financial performance measures for the Company and its business segments by using Non-GAAP information. As a result, management compensation decisions and the review of executive compensation by the Compensation Committee of the Board of Directors focus primarily on Non-GAAP financial measures applicable to the Company and its business segments. The Company presents Non-GAAP financial information to provide greater transparency to investors with respect to its use of such information in financial and operational decision-making.

Non-GAAP information used by management excludes QSI and certain share-based compensation, acquisition-related items and tax items.

- QSI is excluded because the Company expects to exit its strategic investments at various times, and
 the effects of fluctuations in the value of such investments and realized gains or losses are viewed by
 management as unrelated to the Company's operational performance.
- Share-based compensation expense primarily relates to restricted stock units and stock options.

 Certain share-based compensation is excluded because management views such expenses as unrelated to the operating activities of the Company's ongoing core businesses. Further, the fair values of share-based awards are affected by factors that are variable on each grant date, which may include the Company's stock price, stock market volatility, expected award life, risk-free interest rates and expected dividend payouts in future years.
- Acquisition-related items relate to amortization and impairment of certain intangible assets, recognition of the step-up of inventories to fair value and the related tax effects of these items starting with acquisitions completed in the third quarter of fiscal 2011, as well as any tax effects from restructuring the ownership of such acquired assets. Additionally, starting with acquisitions completed in the fourth quarter of fiscal 2012, the Company began excluding expenses related to the termination of contracts that limit the use of the acquired intellectual property. These acquisition-related items are excluded and are not allocated to the Company's segments because management views such expenses as unrelated to the operating activities of the Company's ongoing core businesses. In addition, these charges are impacted by the size and timing of acquisitions, potentially obscuring period to period comparisons of the Company's operating businesses.
- Certain tax items that are unrelated to the fiscal year in which they were recorded are excluded in
 order to provide a clearer understanding of the Company's ongoing Non-GAAP tax rate and after tax
