- (a) Non-GAAP reconciling items related to revenues consisted primarily of nonreportable segment revenues less intersegment eliminations. Non-GAAP reconciling items related to earnings before taxes consisted primarily of certain research and development expenses, selling, general and administrative expenses, other expenses or income, interest expense and certain investment income that are not allocated to the segments for management reporting purposes; nonreportable segment results; and the elimination of intersegment profit.
- (b) At fiscal year end, the quarterly tax provision (benefit) for each column equals the annual tax provision (benefit) for each column computed in accordance with GAAP. In interim quarters, the sum of these provisions (benefits) may not equal the total GAAP tax provision, and this difference is included in the tax provision (benefit) in the "Other Items" column. See the "Reconciliations of GAAP Tax Rates to Non-GAAP Tax Rates" included in the news release for the current period for further details.
- (c) Details of amounts included in the "Other Items" column for the current period are included in the news release for the current period. Details of amounts included in the "Other Items" column for prior periods are included in the news releases for those periods.

N/M - Not Meaningful Sums may not equal totals due to rounding.
