Third Quarter 2025 Results

Commenting on the quarter, Eric Lloyd, Chief Executive Officer of Barings BDC, stated, "Our portfolio continued to deliver in the third quarter, highlighted by net investment income of \$0.32 per share, fully covering both our regular and special dividends. Our disciplined investment approach continues to drive strong credit outcomes. During the quarter we deployed almost \$150 million across new and existing portfolio companies, maintaining our focus on rigorous credit selection and delivering attractive risk-adjusted returns. Supported by the strength and scale of the Barings platform and our talented team, we remain confident in the durability of our portfolio and our ability to deliver long-term value for shareholders."

During the three months ended September 30, 2025, the Company reported total investment income of \$72.4 million, net investment income of \$33.6 million, or \$0.32 per share, and a net increase in net assets resulting from operations of \$23.6 million, or \$0.22 per share.

Net asset value ("NAV") per share as of September 30, 2025 was \$11.10, as compared to \$11.18 as of June 30, 2025. The decrease in NAV per share from June 30, 2025 to September 30, 2025 was primarily attributed to net unrealized depreciation on the Company's investment portfolio, credit support agreement, foreign currency transactions and forward currency contracts of approximately \$0.08 per share, and a net realized loss on investments, credit support agreement, foreign currency transactions and forward currency contracts of \$0.01 per share, partially offset by the Company's third quarter net investment income exceeding the third quarter regular dividend and special dividend paid by \$0.01 per share.

Recent Portfolio Activity

During the three months ended September 30, 2025, the Company made 14 new investments totaling \$78.6 million and made investments in existing portfolio companies totaling \$70.2 million. The Company had eight loans repaid totaling \$61.8 million and recognized a net realized gain on these transactions of \$0.2 million. The Company also received \$55.1 million of portfolio company principal payments and sales proceeds and recognized a net realized loss on these transactions of \$0.1 million. The Company received \$2.5 million of return of capital from joint ventures, equity, and royalty rights investments. In addition, the Company sold \$93.6 million of middle-market portfolio debt investments to its joint ventures, recognizing a net realized gain on these transactions of \$0.7 million. Also, investments in one portfolio company were restructured, which resulted in a net realized loss of \$4.8 million. Lastly, the Company received proceeds related to the sale of one equity investment totaling \$16.7 million and recognized a net realized gain on such sale totaling \$5.6 million.

During the three months ended September 30, 2025, the Company recorded net unrealized depreciation totaling \$8.8 million, consisting of net unrealized depreciation on the Company's current portfolio of \$17.3 million, net unrealized depreciation related to foreign currency transactions of \$1.5 million and deferred taxes of \$0.3 million, partially offset by net unrealized appreciation related to forward currency contracts of \$7.3 million, unrealized appreciation of \$1.6 million on the Sierra credit support agreement with Barings LLC ("Barings"), and net unrealized appreciation reclassification adjustments of \$1.6 million related to the net realized losses on the sales / exits of certain investments. The net unrealized depreciation on the Company's current portfolio of \$17.3 million was driven primarily by the credit or fundamental performance of investments of \$13.9 million, broad market moves for investments of \$1.9 million and the impact of foreign currency exchange rates on investments of \$1.5 million.

Liquidity and Capitalization

As of September 30, 2025, the Company had cash and foreign currencies of \$83.2 million (including restricted cash of \$12.9 million), \$354.0 million of borrowings outstanding under its \$725.0 million senior secured credit agreement, \$1,275.0 million aggregate principal amount of unsecured notes outstanding and a net receivable from unsettled transactions of \$93.8 million.

The September 2028 Notes may be redeemed in whole or in part at any time at the Company’s option at a redemption price set forth in the indenture governing the September 2028 Notes. The September 2028 Notes were issued at a public offering price of 99.281% of the principal amount thereof. The net proceeds to the Company were approximately \$294.7 million, after deducting the underwriting discounts and estimated offering expenses payable by the Company.

Share Repurchase Program

On February 20, 2025, the Board authorized a new 12-month share repurchase program. Under the program, the Company may repurchase, during the 12-month period commencing on March 1, 2025, up to \$30.0 million in the aggregate of its outstanding common stock in the open market at prices below the then-current NAV per share. The timing, manner, price and amount of any share repurchases will be determined by the Company, in its discretion, based upon the evaluation of economic and market conditions, the Company’s stock price, applicable legal, contractual and regulatory requirements and other factors. The program is expected to be in effect until March 1, 2026, unless extended or until the aggregate repurchase amount that has been approved by the Board has been expended. The program does not require the Company to repurchase any specific number of shares, and the Company cannot assure stockholders that any shares will be repurchased under the program. The program may be suspended, extended, modified or discontinued at any time. During the three months ended September 30, 2025, the Company did not repurchase any shares of its common stock in the open market under the authorized program. As of November 6, 2025, the Company has repurchased a total of 250,000 shares of its common stock in the open market under the authorized program at an average price of \$9.35 per share, including brokerage commissions.

The Company’s fourth quarter dividend is payable as follows:

Fourth Quarter 2025 Dividend:

Amount per share: \$0.26

Record date: December 3, 2025

Payment date: December 10, 2025

Dividend Reinvestment Plan

Barings BDC has adopted a dividend reinvestment plan (“DRIP”) that provides for reinvestment of dividends and distributions on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when the Company declares a cash dividend or distribution, stockholders who have not opted out of the DRIP will have their cash dividends or distributions automatically reinvested in additional shares of the Company’s common stock, rather than receiving cash.

When the Company declares and pays dividends and distributions, it determines the allocation of the distribution between current income, accumulated income, capital gains and return of capital on the basis of accounting principles generally accepted in the United States ("GAAP"). At each year end, the Company is required for tax purposes to determine the allocation based on tax accounting principles. Due to differences between GAAP and tax accounting principles, the portion of each dividend distribution that is ordinary income, capital gain or return of capital may differ for GAAP and tax purposes. The tax status of the Company's distributions can be found on the Investor Relations page of its website.

Subsequent Events

Subsequent to September 30, 2025, the Company made approximately \$73.5 million of new commitments, of which \$41.1 million closed and funded. The \$41.1 million of investments consists of \$41.0 million of first lien senior secured debt investments and \$0.1 million of equity investments. The weighted average yield of the debt investments was 9.1%. In addition, the Company funded \$21.9 million of previously committed revolvers and delayed draw term loans.

On November 4, 2025, the Company's 4.25% Series B senior unsecured notes due November 2025 matured in accordance with the terms of the Note Purchase Agreement and the Company repaid in full the par amount plus accrued and unpaid interest.

Non-GAAP Financial Measures

To provide additional information about the Company's results, the Company's management has discussed in this press release the Company's net debt (calculated as (i) total debt less (ii) unrestricted cash and foreign currencies (excluding restricted cash) net of net payables/receivables from unsettled transactions) and its net debt-to-equity ratio (calculated as net debt divided by total net assets), which are not prepared in accordance with GAAP. These measures should only be used to evaluate the Company's results of operations in conjunction with their corresponding GAAP measures. Pursuant to the requirements of Item 10(e) of Regulation S-K, as promulgated under the Securities Exchange Act of 1934, as amended, the Company has provided a reconciliation of these non-GAAP measures in the last table included in this press release.
