Sidus Space LizzieSat™ Satellite Encapsulated and Scheduled for Launch

CAPE CANAVERAL, Fla.--(BUSINESS WIRE)-- Sidus Space (NASDAQ: SIDU) (the “Company” or “Sidus”), a multi-faceted Space and Data-as-a-Service satellite company announced its LizzieSat satellite is now securely encapsulated within SpaceX’s payload fairing in preparation for launch. LizzieSat is targeted to launch as part of SpaceX’s Transporter-10 Rideshare mission no earlier than March 2024 from Space Launch Complex 4 East at Vandenberg Space Force Base in California.

Sidus Space CEO Carol Craig expressed her gratitude for the dedication and hard work of the entire team, stating, “As we prepare to embark on our mission of Bringing Space Down to Earth™ with our multi-mission LizzieSat Space Platform with a Purpose™, their passion, commitment and tireless efforts made it all possible.”

The primary mission of LizzieSat involves simultaneous data collection through multiple sensors to support various industries, including agriculture, maritime, and oil and gas. These sensors and receivers include multispectral, automatic identification system (AIS), and optical technologies. Additionally, the satellite features Sidus’ onboard FeatherEdge AI (Artificial Intelligence) solution for near real-time, actionable intelligence processing of imagery and sensor data, offering unique solutions to customers. In addition to other customer missions, LizzieSat will support NASA’s Autonomous Satellite Technology for Resilient Application and Mission Helios’ optical NFT collection.

About Sidus Space

Sidus Space (NASDAQ: SIDU) is a multi-faceted Space and Data-as-a-Service satellite company focused on mission-critical hardware manufacturing; multi-disciplinary engineering services; satellite design, production, launch planning, mission operations; and in-orbit support. The Company is in Cape Canaveral, Florida, where it operates from a 35,000-square-foot manufacturing, assembly, integration, and testing facility focused on vertically integrated Space-as-a-Service solutions including end-to-end satellite support.

Sidus Space has a mission of Bringing Space Down to Earth™ and a vision of enabling space flight heritage status for new technologies while delivering data and predictive analytics to domestic and global customers. More than just a “Satellite-as-a-Service” provider, Sidus Space’s products and services are offered through its four business units: Space and Defense Hardware Manufacturing, Satellite Manufacturing and Payload Integration, Space-Based Data Solutions, and AI/ML Products and Services to support customers from concept to Low Earth Orbit and beyond. Sidus Space is ISO 9001:2015, AS9100 Rev. D certified, and ITAR registered.

Forward-Looking Statements

Statements in this press release about future expectations, plans and prospects, as well as any other statements regarding matters that are not historical facts, may constitute 'forward-looking statements' within the meaning of The Private Securities Litigation Reform Act of 1995. These statements include, but are not limited to, statements relating to the expected trading commencement and closing dates. The words 'anticipate,' 'believe,' 'continue,' 'could,' 'estimate,' 'expect,' 'intend,' 'may,' 'plan,' 'potential,' 'predict,' 'project,' 'should,' 'target,' 'will,' 'would' and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: the uncertainties related to market conditions and other factors described more fully in the section entitled 'Risk Factors' in Sidus Space's Annual Report on Form 10-K for the year ended December 31, 2022, and other periodic reports filed with the Securities and Exchange Commission. Any forward-looking statements contained in this press release speak only as of the date hereof, and Sidus Space, Inc. specifically disclaims any obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise.
