

Ekso Bionics Receives General Services Administration Listing

Facilitates potential future purchases by the U.S. Department of Veterans Affairs

RICHMOND, Calif., Aug. 15, 2018 (GLOBE NEWSWIRE) -- Ekso Bionics Holdings, Inc. (NASDAQ:EKSO), an industry leader in exoskeleton technology for medical and industrial use, today announced that U.S. government's General Services Administration (GSA) has added the company to its list of contracted Federal Business Opportunities (FBO).

"We are pleased that Ekso Bionics has been added to the GSA's listing of Federal Business Opportunities," said Jack Peurach, President and Chief Executive Officer of Ekso Bionics. "We believe that this listing will facilitate potential future opportunities to make EksoGT part of the standard of care for rehabilitation of stroke and spinal cord injury in patients treated at the VA. We believe that EksoGT would offer a compelling value proposition to the VA and enhance the Department's ability to provide high-quality, cost-effective rehabilitation services for patients with stroke and spinal cord injury."

Established in 1949 with a mission to deliver value and savings in real estate, acquisition, technology, and other mission-support services across Government, the GSA is tasked with administering supplies and providing workplaces for federal employees. Toward this end, the GSA provides centralized procurement for the federal government, offering billions of dollars worth of products, services, and facilities that federal agencies need to serve the public.

About Ekso Bionics®

Ekso Bionics® is a leading developer of exoskeleton solutions that amplify human potential by supporting or enhancing strength, endurance and mobility across medical and industrial applications. Founded in 2005, the company continues to build upon its unparalleled expertise to design some of the most cutting-edge, innovative wearable robots available on the market. Ekso Bionics is the only exoskeleton company to offer technologies that range from helping those with paralysis to stand up and walk, to enhancing human capabilities on job sites across the globe. The company is headquartered in the Bay Area and is listed on the Nasdaq Capital Market under the symbol EKSO. For more information, visit: www.eksobionics.com.

Forward-Looking Statements

Any statements contained in this press release that do not describe historical facts may constitute forward-looking statements. Forward-looking statements may include, without limitation, statements regarding (i) the plans and objectives of management for future operations, including plans or objectives relating to the design, development and commercialization of human exoskeletons, (ii) estimates or projection of financial results, financial condition, operating results, capital expenditures, capital structure, continued momentum in commercialization efforts, expansion of product footprint or other financial or operational items, (iii) the Company's future financial performance, and (iv) the assumptions

underlying or relating to any statement described in points (i), (ii) or (iii) above. Such forward-looking statements are not meant to predict or guarantee actual results, performance, events or circumstances and may not be realized because they are based upon the Company's current projections, plans, objectives, beliefs, expectations, estimates and assumptions and are subject to a number of risks and uncertainties and other influences, many of which the Company has no control over. Actual results and the timing of certain events and circumstances may differ materially from those described by the forward-looking statements as a result of these risks and uncertainties. Factors that may influence or contribute to the inaccuracy of the forward-looking statements or cause actual results to differ materially from expected or desired results may include, without limitation, changes resulting from the Company's finalization of its financial statements for and as of the three and six months ended June 30, 2018, information or new changes in facts or circumstances that may occur prior to the filing of the Company's Quarterly Report on Form 10-Q that are required to be included therein, the Company's inability to obtain adequate financing to fund the Company's operations and necessary to develop or enhance our technology, the significant length of time and resources associated with the development of the Company's products, the Company's failure to achieve broad market acceptance of the Company's products, the failure of the Company's sales and marketing organization or partners to market the Company's products effectively, adverse results in future clinical studies of the Company's medical device products, the failure to obtain or maintain patent protection for the Company's technology, failure to obtain or maintain regulatory approval to market the Company's medical devices, lack of product diversification, existing or increased competition, and the Company's failure to implement the Company's business plans or strategies. These and other factors are identified and described in more detail in the Company's filings with the SEC.
