Leading Global Food Producer Rolling Out I.D. Systems' Wireless Industrial Vehicle Management Solutions

WOODCLIFF LAKE, N.J., Jan. 14, 2013 (GLOBE NEWSWIRE) -- I.D. Systems, Inc. (Nasdaq:IDSY), a leading provider of wireless solutions for securing, tracking, and managing high-value enterprise assets, today announced that one of the world's largest food companies has placed a series of purchase orders for I.D. Systems' PowerFleet™ Vehicle Management System (VMS). The customer, which produces more than 100 consumer brands in more than 100 countries, is deploying the system initially on industrial vehicle fleets in three U.S. distribution centers.

A wireless VMS helps improve safety and security by restricting industrial vehicle access to trained, authorized operators, providing electronic safety inspection checklists, and sensing vehicle impacts. A wireless VMS also helps reduce fleet maintenance costs by automatically uploading vehicle data, reporting vehicle problems electronically, scheduling maintenance according to actual vehicle usage rather than by calendar or manual data entry, and helping determine the optimal economic time to replace equipment. In addition, a wireless VMS helps improve supply chain productivity by establishing accountability for the use of equipment, ensuring equipment is in the proper place at the right time, streamlining material handling work flow, and providing unique metrics on equipment utilization.

"We are very pleased that another Fortune 200 company has chosen our technology to help manage industrial trucks in its distribution operations," said Jeffrey Jagid, I.D. Systems' chairman and CEO. "We see wireless vehicle management as a growing best practice among world class organizations, and our PowerFleet system provides a unique range of functions to optimize material handling safety and operational efficiency."

About I.D. Systems

Based in Woodcliff Lake, New Jersey, with subsidiaries in Germany and the United Kingdom, I.D. Systems is a leading provider of solutions for securing, controlling, tracking, and managing high-value enterprise assets, including vehicles, powered equipment, trailers, containers, baggage, and cargo. "Safe Harbor" statement:

This press release contains forward looking statements within the meaning of federal securities laws. Forward-looking statements include statements with respect to I.D. Systems' beliefs, plans, goals, objectives, expectations, anticipations, assumptions, estimates, intentions, and future performance, and involve known and unknown risks, uncertainties and other factors, which may be beyond I.D. Systems' control, and which may cause its actual

results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. All statements other than statements of historical fact are statements that could be forward-looking statements. For example, forward-looking statements include: statements regarding prospects for additional customers; market forecasts; projections of earnings, revenues, synergies, accretion or other financial information; and plans, strategies and objectives of management for future operations, including integration plans in connection with acquisitions. The risks and uncertainties referred to above include, but are not limited to, future economic and business conditions, the loss of key customers or reduction in the purchase of products by any such customers, the failure of the market for I.D. Systems' products to continue to develop, the possibility that I.D. Systems may not be able to integrate successfully the business, operations and employees of acquired businesses, the inability to protect I.D. Systems' intellectual property, the inability to manage growth, the effects of competition from a variety of local, regional, national and other providers of wireless solutions, and other risks detailed from time to time in I.D. Systems' filings with the Securities and Exchange Commission, including its annual report on Form 10-K for the year ended December 31, 2011. These risks could cause actual results to differ materially from those expressed in any forward looking statements made by, or on behalf of, I.D. Systems. I.D. Systems assumes no obligation to update the information contained in this press release, and expressly disclaims any obligation to do so, whether as a result of new information, future events or otherwise.
