WOODCLIFF LAKE, N.J., June 16, 2025 /PRNewswire/ -- <u>Powerfleet, Inc.</u> (Nasdaq: AIOT) reported its financial results for the fiscal year and the fourth quarter ended March 31, 2025.

MANAGEMENT COMMENTARY

"Fiscal 2025 was a true milestone year for Powerfleet – a period in which we executed a bold reinvention strategy integrating two major acquisitions in just 12 months, achieved our organic growth and profitability metrics, and established Powerfleet as a global AloT SaaS leader – with the Unity platform at the center of our customer value creation strategy," said Steve Towe, Powerfleet CEO.

"As we enter fiscal 2026, we do so as a stronger, more focused company, by proactively eliminating low-quality and non-strategic revenue from the acquired businesses. Our go-forward, high-quality revenue streams delivered strong organic growth year-over-year in FY25, with AI video growing more than 20% and in-warehouse safety solutions growing 17%. While we remain mindful of macroeconomic headwinds, we are confident in expanding our growth in FY26, particularly in the second half, driven by a strong, expanding pipeline and supported by the resilience of our international operations which grew organically by 13% in FY25."

Towe added, "With our Unity data highway as the central engine, we're ready to scale faster,

deliver greater value to customers, and continue unlocking the full potential of the company within the dynamic market we serve."

NON-GAAP FINANCIAL MEASURES

To supplement its financial statements presented in accordance with Generally Accepted Accounting Principles (GAAP), Powerfleet provides certain non-GAAP measures of financial performance. These non-GAAP measures include adjusted EBITDA, adjusted gross margin, adjusted gross profit, adjusted service margin, adjusted product margin, adjusted operating expenses, adjusted net income per share and net debt. Reference to these non-GAAP measures should be considered in addition to results prepared under current accounting standards, but are not a substitute for, or superior to, GAAP results. These non-GAAP measures are provided to enhance investors' overall understanding of Powerfleet's current financial performance. Specifically, Powerfleet believes the non-GAAP measures provide useful information to both management and investors by excluding certain expenses, gains and losses and fluctuations in currency rates that may not be indicative of its core operating results and business outlook. These non-GAAP measures are not measures of financial performance or liquidity under GAAP and, accordingly, should not be considered as an alternative to net income, gross margin, gross profit, total debt, cash flow from operating activities or earnings per share as an indicator of operating performance or liquidity. Because Powerfleet's method for calculating the non-GAAP measures may differ from other companies' methods, the non-GAAP measures may not be comparable to similarly titled measures reported by other companies.
