# Airgain Releases CBRS and C-Band Antennas for Next Generation Private Wireless Networks, Enhancing Coverage and Performance

Antenna Provides High Performance CBRS and C-Band Connectivity for Reliable and Secure Wireless Connectivity at Lower Total Cost of Ownership than Wi-Fi

SAN DIEGO--(BUSINESS WIRE)-- [Airgain, Inc. \(NASDAQ: AIRG\)](https://www.businesswire.com/news/home/20220518005310/en/), a leading provider of advanced wireless connectivity technologies and systems used to enable high performance networking across a broad range of devices and markets, today announced the launch of its Citizens Broadband Radio Service (CBRS) and Lower C-Band Panel Antenna. Through this new high-performance CBRS and C-Band antenna, Airgain is expanding its depth of capabilities to more easily enable enterprise users to deploy powerful, reliable, and secure private wireless networks that require higher throughput and wider coverage.

Airgain's outdoor CBRS and Lower C-Band Panel Antenna is equipped with two ports and is capable of connecting to almost any branch router or modem to provide high performance connectivity. (Photo: Business Wire)

For enterprise applications, the total cost of ownership for private wireless networks can be better than Wi-Fi, as it provides greater capacity, wider coverage, and a connectivity layer capable of operating in challenging radio conditions. Establishing a private wireless network also requires fewer access points and less supporting infrastructure.

“There is an explosion in demand

for a next generation private wireless network, from corporations needing to power greater productivity to school districts pushing connections on campus and to nearby homes,” said Airgain SVP of Global Product and Marketing Morad Sbahi. “Airgain will be at the forefront of enabling the connectivity of these networks by helping base stations to broadcast reliable and secure private networks at a lower cost.”

As the latest addition to Airgain’s suite of Antenna+™ products, the antenna provides high performance CBRS and C-Band connectivity for point-to-point or point-to-multipoint applications. Equipped with two ports, this antenna connects to most branch routers or modems. Delivering powerful MIMO technology, this antenna also offers two high-gain CBRS and Lower C-Band antennas that operate in the 3300 to 3800 MHz band. The small panel limits the wireless infrastructure footprint and provides high-gain for stable point-to-point links.

### **About Airgain, Inc.**

Airgain is a leading provider of advanced wireless connectivity technologies and systems used to enable high performance wireless networking across a broad range of devices and markets, including consumer, enterprise, and automotive. Airgain’s mission is to connect the world through optimized integrated wireless solutions. Combining design-led thinking with testing and development, Airgain’s technologies are deployed in carrier, fleet, enterprise, residential, private, government, and public safety wireless networks and systems, including set-top boxes, access points, routers, modems, gateways, media adapters, portables, digital televisions, sensors, fleet tracking, in-vehicle networking, and asset tracking devices. Through its pedigree in the design, integration, and testing of high-performance wireless modules and antenna technology, Airgain has become a leading provider of integrated communications products that solve critical connectivity needs. Airgain is headquartered in San Diego, California. Airgain, the Airgain logo, and Antenna+ are trademarks or registered trademarks of Airgain, Inc.

### **Forward-Looking Statements**

Airgain cautions you that statements in this press release that are not a description of historical facts are forward-looking statements. These statements are based on the company’s current beliefs and expectations. These forward-looking statements include statements regarding: the expected performance of, and market for, Airgain’s products or those of its customers; and the ability for the products to achieve the stated results and meet the needs of customers, as well as their acceptance by the market. The inclusion of forward-looking statements should not be regarded as a representation by Airgain that any of our plans will be achieved. Actual results may differ from those set forth in this press release due to the risk and uncertainties inherent in our business, including, without limitation: the market for our products is developing and may not develop as we expect; risks associated with the performance of our products, including bundled solutions with third-party products; if our channel partners fail to perform, or our partnerships are unsuccessful, we may not be able to bring our product solutions to market successfully or on a timely basis; our products are subject to intense competition, and competitive pressures from existing and new companies may harm our business, sales, growth rates and market share; the COVID-19 pandemic may continue to disrupt and otherwise adversely affect our operations and those of our suppliers,

partners, distributors and ultimate end customers; risks associated with quality and timing in manufacturing our products and our reliance on third-party manufacturers; we may not be able to maintain strategic collaborations under which our bundled solutions are offered; if we cannot protect our intellectual property rights, our competitive position could be harmed or we could incur significant expenses to enforce our rights; and other risks described in our prior press releases and in our filings with the Securities and Exchange Commission, including under the heading "Risk Factors" in our Annual Report on Form 10-K and any subsequent filings with the SEC. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof, and we undertake no obligation to revise or update this press release to reflect events or circumstances after the date hereof. All forward-looking statements are qualified in their entirety by this cautionary statement, which is made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.
