SIRIUS XM RADIO INC.

(Exact name of company as specified in its charter)

QUARTERLY REPORT

For the Quarterly Period Ended March 31, 2015

Explanatory Note

Sirius XM Radio Inc. ("Sirius XM") is furnishing this Quarterly Report for the quarterly period ended March 31, 2015 (the "Quarterly Report") in order to comply with the reporting obligations in the indentures governing its 4.25% Senior Notes due 2020, 5.875% Senior Notes due 2020, 5.75% Senior Notes due 2021, 5.25% Senior Secured Notes due 2022, 4.625% Senior Notes due 2023, 6.00% Senior Notes due 2024 and 5.375% Senior Notes due 2025 (collectively, the "Notes").

Before making any investment decisions in Sirius XM or Sirius XM Holdings Inc. ("Holdings"), investors should read the following consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") of Sirius XM in conjunction with Holdings' Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2015 and Holdings' other reports available through the Securities and Exchange Commission website at www.sec.gov and our website at www.siriusxm.com, and with Sirius XM's other reports available through our website. Holdings' Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2015 is hereby incorporated by reference. Sirius XM is a wholly-owned subsidiary of Holdings, and Holdings has no operations independent of Sirius XM. Refer to Note 1 to the unaudited consolidated financial statements included within this Quarterly Report for an explanation of differences between Sirius XM and Holdings' unaudited consolidated financial statements.

The terms "Sirius XM," "we," "us," "our," and the "Company," as used herein and unless otherwise stated or indicated by context, refer to Sirius XM Radio Inc. and its subsidiaries.

SIRIUS XM RADIO INC. AND SUBSIDIARIES TABLE OF CONTENTS

Consolidated Statements of Comprehensive Income for the three months ended March 31, 2015 and 2014	2
Consolidated Balance Sheets as of March 31, 2015 and December 31, 2014	3
Consolidated Statement of Stockholder Equity as of March 31, 2015	4
Consolidated Statements of Cash Flows for the three months ended March 31, 2015 and 2014	5
Notes to Consolidated Financial Statements	7
Management's Discussion and Analysis of Financial Condition and Results of Operations	22

SIRIUS XM RADIO INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Dollars and shares in thousands, except per share amounts)

(1) Business & Basis of Presentation

Business

We broadcast music, sports, entertainment, comedy, talk, news, traffic and weather channels, as well as infotainment services, in the United States on a subscription fee basis through our two proprietary satellite radio systems. Subscribers can also receive music and other channels, plus features such as SiriusXM On Demand and MySXM, over our Internet radio service, including through applications for mobile devices. We are also a leader in providing connected vehicle services. Our connected vehicle services are designed to enhance the safety, security and driving experience for vehicle operators while providing marketing and operational benefits to automakers and their dealers.

We have agreements with every major automaker ("OEMs") to offer satellite radios in their vehicles from which we acquire a majority of our subscribers. We also acquire subscribers through marketing to owners and lessees of vehicles that include factory-installed satellite radios that are not currently subscribing to our services. Additionally, we distribute our satellite radios through retail locations nationwide and through our website. Satellite radio services are also offered to customers of certain daily rental car companies.

Our primary source of revenue is subscription fees, with most of our customers subscribing on an annual, semi-annual, quarterly or monthly plan. We offer discounts for prepaid, longer term subscription plans, as well as a multiple subscription discount. We also derive revenue from activation and other fees, the sale of advertising on select non-music channels, the direct sale of satellite radios and accessories, and other ancillary services, such as our weather, traffic and data services.

In certain cases, automakers and dealers include a subscription to our radio services in the sale or lease price of new or previously owned vehicles. The length of these trial subscriptions varies but is typically three to twelve months. We receive subscription payments for these trials from certain automakers. We also reimburse various automakers for certain costs associated with satellite radios installed in new vehicles.

Liberty Media Corporation ("Liberty Media") beneficially owns, directly and indirectly, over 50% of the outstanding shares of Holdings common stock. As a result, Holdings is a "controlled company" for the purposes of the NASDAQ corporate governance requirements. Liberty Media owns interests in a range of media, communications and entertainment businesses.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). Certain information and footnote disclosures normally included in the financial statements presented in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations.

The unaudited consolidated financial statements for Sirius XM for the quarterly period ended March 31, 2015 are essentially identical to the unaudited consolidated financial statements included in Holdings' Form 10-Q for the quarterly period ended March 31, 2015, filed with the SEC on April 28, 2015, with the following exceptions:

- As a result of our corporate reorganization effective November 15, 2013, all of the outstanding shares of Sirius XM's common stock were converted, on a share for share basis, into identical shares of common stock of Holdings and all equity-related transactions, including repurchases of Holdings' common stock and the issuance of equity related to stock-based compensation to Sirius XM employees have been reported as related party transactions within Sirius XM's unaudited consolidated financial statements. Refer to Note 8 for additional information related to related party transactions.
- Changes in fair value related to the 7% Exchangeable Senior Subordinated Notes due 2014 (the "Exchangeable Notes") were
 recorded in Sirius XM's unaudited statements of comprehensive income through the Notes' maturity in December 2014. For
 the three months ended March 31, 2014 there was an \$89,110 Gain on change in fair value of debt instruments related to the
 Exchangeable Notes. The difference between the fair value and carrying value of the Exchangeable Notes was eliminated in
 Holdings' unaudited consolidated statements of comprehensive income.
- Changes in fair value related to the share repurchase agreement with Liberty Media were recorded in Holdings' unaudited consolidated statements of comprehensive income, through the settlement of this agreement in April 2014. For the three months ended March 31, 2014, there was a \$27,023 Loss on change in value of derivatives recorded in Holdings' unaudited consolidated statements of comprehensive income.

(Dollars and shares in thousands, except per share amounts)

Certain numbers in our prior period consolidated financial statements have been reclassified to conform to our current period presentation. All significant intercompany transactions have been eliminated in consolidation. In the opinion of management, all normal recurring adjustments necessary for a fair presentation of our unaudited consolidated financial statements as of March 31, 2015 and for the three months ended March 31, 2015 and 2014 have been made. Interim results are not necessarily indicative of the results that may be expected for a full year. This Quarterly Report should be read together with our Annual Report for the year ended December 31, 2014, which is available on our website at http://investor.siriusxm.com/dividends-1099.cfm.

Public companies, including our parent Holdings, are required to disclose certain information about their reportable operating segments. Operating segments are defined as significant components of an enterprise for which separate financial information is available and is evaluated on a regular basis by the chief operating decision makers in deciding how to allocate resources to an individual segment and in assessing performance of the segment. We have determined that we have one reportable segment as our chief operating decision maker, our Chief Executive Officer, assesses performance and allocates resources based on the consolidated results of operations of our business.

We have evaluated events subsequent to the balance sheet date and prior to furnishing this Quarterly Report for the three months ended March 31, 2015 and have determined that no events have occurred that would require adjustment to our unaudited consolidated financial statements. For a discussion of subsequent events that do not require adjustment to our unaudited consolidated financial statements refer to Note 15.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and footnotes. Estimates, by their nature, are based on judgment and available information. Actual results could differ materially from those estimates. Significant estimates inherent in the preparation of the accompanying unaudited consolidated financial statements include asset impairment, depreciable lives of our satellites, share-based payment expense, and income taxes.

(2) Summary of Significant Accounting Policies

Fair Value Measurements

For assets and liabilities required to be reported at fair value, GAAP provides a hierarchy that prioritizes inputs to valuation techniques used to measure fair value into three broad levels. Level 1 inputs are based on unadjusted quoted prices in active markets for identical instruments. Level 2 inputs are inputs, other than quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. As of March 31, 2015 and December 31, 2014 the carrying amounts of cash and cash equivalents, receivables, and accounts payable approximated fair value due to the short-term nature of these instruments.

Our assets and liabilities measured at fair value were as follows:

		March 3	1, 2015		December 31, 2014			
	Level 1	Level 2	Level 3	Total Fair Value	Level 1	Level 2	Level 3	Fotal Fair Value
Assets:								
Sirius XM Canada Holdings Inc.								
("Sirius XM Canada") - investment (a)	\$205,750			\$ 205,750	\$246,500		— \$	246,500
Liabilities:								
Debt ^(b)		\$5,307,167		\$5,307,167		\$4,613,044	\$4	4,613,044

(a) This amount approximates fair value. The carrying value of our investment in Sirius XM Canada was \$0 and \$2,654 as of March 31, 2015 and December 31, 2014, respectively.

(b) The fair value for non-publicly traded instruments is based upon estimates from a market maker and brokerage firm. Refer to Note 10 for information related to the carrying value of our debt as of March 31, 2015 and December 31, 2014.

SIRIUS XM RADIO INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued (UNAUDITED) (Dollars and shares in thousands, except per share amounts)

Recent Accounting Pronouncements

In April 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-03, *Interest – Imputation of Interest (Subtopic 835-30)*. This ASU requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by this ASU. The amendments in this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those years. Early adoption is permitted for financial statements that have not been previously issued and retrospective application is required for each balance sheet presented. Upon our adoption of this ASU, debt issuance costs will be presented as a reduction to our debt liability within our consolidated balance sheets.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*. This ASU is a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. This ASU is effective for annual reporting periods beginning after December 15, 2016 and early adoption is not permitted. Accordingly, we plan to adopt this ASU on January 1, 2017. Companies may use either a full retrospective or a modified retrospective approach to adopt this ASU.

(3) Receivables, net

Receivables, net, includes customer accounts receivable, receivables from distributors and other receivables.

Customer accounts receivable, net, includes receivables from our subscribers and advertising customers and is stated at amounts due net of an allowance for doubtful accounts. Our allowance for doubtful accounts is based upon our assessment of various factors. We consider historical experience, the age of the receivable balances, current economic conditions and other factors that may affect the counterparty's ability to pay. Bad debt expense is included in Customer service and billing expense in our unaudited consolidated statements of comprehensive income.

Receivables from distributors primarily include billed and unbilled amounts due from OEMs for services included in the sale or lease price of vehicles, as well as billed amounts due from wholesale distributors of our satellite radios. Other receivables primarily include amounts due from manufacturers of our radios, modules and chipsets where we are entitled to a subsidy based on the number of units produced. We have not established an allowance for doubtful accounts for our receivables from distributors or other receivables as we have historically not experienced any significant collection issues with OEMs or other third parties.

Receivables, net, consists of the following:

	Ma	rch 31, 2015	Dece	mber 31, 2014
Gross customer accounts receivable	\$	96,645	\$	101,634
Allowance for doubtful accounts		(7,350)		(7,815)
Customer accounts receivable, net	\$	89,295	\$	93,819
Receivables from distributors		108,137		105,731
Other receivables		21,989		21,029
Total receivables, net	\$	219,421	\$	220,579

(4) Inventory, net

Inventory consists of finished goods, refurbished goods, chipsets and other raw material components used in manufacturing radios. Inventory is stated at the lower of cost or market. We record an estimated allowance for inventory that is considered slow moving or obsolete or whose carrying value is in excess of net realizable value. The provision related to products purchased for resale in our direct to consumer distribution channel and components held for resale by us is reported as a component of Cost of equipment in our unaudited consolidated statements of comprehensive income. The provision related to inventory consumed in our OEM and retail distribution channel is reported as a component of Subscriber acquisition costs in our unaudited consolidated statements of comprehensive income.

(Dollars and shares in thousands, except per share amounts)

Inventory, net, consists of the following:

	March 31, 2015	Decembe	er 31, 2014
Raw materials	\$ 12,686	\$	12,150
Finished goods	21,258		17,971
Allowance for obsolescence	(11,007)		(10,724)
Total inventory, net	\$ 22,937	\$	19,397

(5) Goodwill

Goodwill represents the excess of the purchase price over the estimated fair value of the net tangible and identifiable intangible assets acquired in business combinations. Our annual impairment assessment of our single reporting unit is performed as of the fourth quarter of each year, and an assessment is performed at other times if an event occurs or circumstances change that would more likely than not reduce the fair value of the asset below its carrying value. If the carrying value of goodwill exceeds its fair value, an impairment loss is recognized.

As of March 31, 2015, there were no indicators of impairment and no impairment loss was recorded for goodwill during the three months ended March 31, 2015 and 2014. As of March 31, 2015, the cumulative balance of goodwill impairments recorded since the July 2008 merger (the "Merger") between our wholly owned subsidiary, Vernon Merger Corporation, and XM Satellite Radio Holdings Inc. ("XM"), was \$4,766,190, which was recognized during the year ended December 31, 2008.

(6) Intangible Assets

Our intangible assets include the following:

			March 31, 2015	5	D	ecember 31, 20	14
	Weighted Average Useful Lives	Gross Carrying Value	Accumulated Amortization	Net Carrying Value	Gross Carrying Value	Accumulated Amortization	Net Carrying Value
Indefinite life intangible assets:

Developed technology	10 years	2,000	(1,333)) 667	2,000	(1,283)) 717
Leasehold interests	7.4 years	132	(119)) 13	132	(114)) 18
Total intangible assets		\$3,008,290	\$ (376,467)	\$2,631,823	\$3,008,290	\$ (363,244)	\$2,645,046

Indefinite Life Intangible Assets

We have identified our FCC licenses and the XM trademark as indefinite life intangible assets after considering the expected use of the assets, the regulatory and economic environment within which they are used and the effects of obsolescence on their use.

(Dollars and shares in thousands, except per share amounts)

We hold FCC licenses to operate our satellite digital audio radio service and provide ancillary services. The following table outlines the years in which each of our satellite licenses expires:

FCC satellite licenses	Expiration year
SIRIUS FM-1	2017
SIRIUS FM-2	2017
SIRIUS FM-3	2017
SIRIUS FM-5	2017
SIRIUS FM-6	2022
XM-1 ⁽¹⁾	
XM-3	2021
XM-4	2022
XM-5	2018

(1) The FCC license for this satellite has expired. The FCC has granted us special temporary authority to operate this satellite and prepare it for deorbiting maneuvers.

Prior to expiration, we are required to apply for a renewal of our FCC licenses. The renewal and extension of our licenses, including temporary licenses, is reasonably certain at minimal cost, which is expensed as incurred. Each of the FCC licenses authorizes us to use the broadcast spectrum, which is a renewable, reusable resource that does not deplete or exhaust over time.

Our annual impairment assessment of our indefinite intangible assets is performed as of the fourth quarter of each year. An assessment is performed at other times if an event occurs or circumstances change that would more likely than not reduce the fair value of the asset below its carrying value. If the carrying value of the intangible assets exceeds its fair value, an impairment loss is recognized. As of March 31, 2015, there were no indicators of impairment, and no impairment loss was recorded for intangible assets with indefinite lives during the three months ended March 31, 2015 and 2014.

Definite Life Intangible Assets

Amortization expense for all definite life intangible assets was \$13,223 and \$14,084 for the three months ended March 31, 2015 and 2014, respectively. Expected amortization expense for the remaining period in 2015, each of the fiscal years 2016 through 2019 and for periods thereafter is as follows:

Years ending December 31,	1	Amount
2015 (remaining)	\$	38,477
2016		48,545
2017		34,882
2018		19,463
2019		19,026
Thereafter		137,776
Total definite life intangible assets, net	\$	298,169

SIRIUS XM RADIO INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued (UNAUDITED) (Dollars and shares in thousands, except per share amounts)

(7) **Property and Equipment**

Property and equipment, net, consists of the following:

	Μ	arch 31, 2015	Decer	nber 31, 2014

Property and equipment, net	\$	1,477,657	\$	1,510,112

Construction in progress consists of the following:

	Ma	rch 31, 2015	December 31, 2014		
Satellite system	\$	12,912	\$	12,912	
Terrestrial repeater network		44,733		48,406	
Capitalized software		73,719		77,755	
Other		16,404		16,643	
Construction in progress	\$	147,768	\$	155,716	

Depreciation expense on property and equipment was \$51,804 and \$54,183 for the three months ended March 31, 2015 and 2014, respectively. We retired property and equipment of \$4,571 and \$3,500 during the three months ended March 31, 2015 and 2014, respectively.

Satellites

We currently own a fleet of nine operating satellites. The chart below provides certain information on these satellites:

		Estimated End of
Satellite Description	Year Delivered	Depreciable Life
FM-1*	2000	2013
FM-2*	2000	2013
FM-3	2000	2015
FM-5	2009	2024
FM-6	2013	2028
XM-1*	2001	2013
XM-3	2005	2020
XM-4	2006	2021
XM-5	2010	2025

* Satellite is fully depreciated and is still in operation.

(8) Related Party Transactions

In the normal course of business, we enter into transactions with related parties. Our related parties include:

SIRIUS XM RADIO INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued (UNAUDITED) (Dollars and shares in thousands, except per share amounts)

Liberty Media

Liberty Media has beneficially owned over 50% of Holdings' outstanding common stock since January 2013 and has two executives and one director on Holdings' board of directors. Gregory B. Maffei, the President and Chief Executive Officer of Liberty Media, is the Chairman of our board of directors.

We recognized Interest expense of \$277 during the three months ended March 31, 2014 associated with the portion of the Exchangeable Notes held by Liberty Media through November 2014.

Sirius XM Holdings

Sirius XM is a wholly-owned subsidiary of Holdings. Holdings has no operations independent of Sirius XM. All equity-related transactions, including repurchases of Holdings' common stock and the issuance of equity related to stock-based compensation for Sirius XM employees have been reported as related party transactions within Sirius XM's consolidated financial statements. The stock-based compensation for Sirius XM employees is recorded in Sirius XM's unaudited consolidated financial statements. The Related party long-term assets balance as of March 31, 2015 and December 31, 2014 of Sirius XM includes \$2,063,561 and \$1,536,210, respectively, for net amounts due from Holdings in connection with these equity-related transactions, as well as for the conversion of the Exchangeable Notes in December 2014.

On October 9, 2013, we entered into an agreement with Liberty Media to repurchase \$500,000 of our then publicly traded common stock from Liberty Media. In connection with the corporate reorganization and Holdings becoming the issuer of the publicly traded equity, Holdings assumed our obligations under such agreement and completed the final purchase installment under this agreement in April 2014.

During the three months ended March 31, 2015, Holdings' repurchased \$534,040 of its common stock, which was funded with our cash. This amount is included in our Related party long-term asset balance as a receivable due from Holdings.

Sirius XM Canada

We hold an equity method investment in Sirius XM Canada. We own approximately 47,300 of Sirius XM Canada's Class A shares on a converted basis, representing a 36.9% equity interest and a 24.9% voting interest. We primarily provide programming and content services to Sirius XM Canada.

We had the following related party balances associated with Sirius XM Canada:

	Ma	rch 31, 2015	Dece	ember 31, 2014
Related party current assets	\$	3,374	\$	4,344
Related party long-term assets	\$	—	\$	3,000
Related party current liabilities	\$	4,860	\$	4,340
Related party long-term liabilities	\$	12,925	\$	13,635

Our related party current asset balances primarily consist of programming and chipset costs for which we are reimbursed. Our related party long-term asset balances primarily include our investment balance in Sirius XM Canada. Our related party liabilities as of March 31, 2015 and December 31, 2014 included \$2,776 for the current portion of deferred revenue and \$12,721 and \$13,415, respectively, for the long-term portion of deferred revenue recorded as of the Merger date related to agreements with XM Canada, now Sirius XM Canada. These costs are being amortized on a straight line basis through 2020. As of March 31, 2015, we had \$6,946 in losses related to our investment in Sirius XM Canada that we had not recorded in our unaudited consolidated financial statements since our investment balance is zero. Future equity income will be offset by these losses.

(Dollars and shares in thousands, except per share amounts)

We recorded the following revenue and investment income associated with Sirius XM Canada in our unaudited consolidated statements of comprehensive income:

	For the Three Months Ended March 31,				
	2015	2014			
Revenue ^(a)	\$ 13,517	\$	11,781		
Investment income					
Share of net earnings ^(b)	\$ 	\$	4,326		
Dividends ^(c)	\$ 976	\$			

(a) Under our agreements with Sirius XM Canada, we receive a percentage-based royalty for certain types of subscription revenue earned by Sirius XM Canada for the distribution of Sirius and XM channels, royalties for activation fees and reimbursements for other charges. We record revenue from Sirius XM Canada as Other revenue in our unaudited consolidated statements of comprehensive income.

- (b) We recognize our proportionate share of earnings or losses of Sirius XM Canada as they occur as a component of Interest and investment income in our unaudited consolidated statements of comprehensive income on a one month lag. This amount includes amortization related to the equity method intangible assets of \$0 and \$363 for the three months ended March 31, 2015 and 2014, respectively.
- (c) Sirius XM Canada declared dividends to us of \$3,977 and \$4,445 during the three months ended March 31, 2015 and 2014, respectively. These dividends were first recorded as a reduction to our investment balance in Sirius XM Canada to the extent a balance exists and then as Interest and investment income for the remaining portion.

(9) Investments

Long Term Restricted Investments

Restricted investments relate to reimbursement obligations under letters of credit issued for the benefit of lessors of our office space. As of March 31, 2015 and December 31, 2014 our Long-term restricted investments were \$9,888 and \$5,922, respectively. During the three months ended March 31, 2015, we increased our letters of credit by \$3,966 associated with leased office space.

SIRIUS XM RADIO INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued (UNAUDITED) (Dollars and shares in thousands, except per share amounts)

(10) Debt

Our debt as of March 31, 2015 and December 31, 2014 consisted of the following:

						Carrying value at (a)	
Issuer / Borrower	Issued	Debt	Maturity Date	Interest Payable	Principal Amount	March 31, 2015	December 31, 2014
Sirius XM (b)	May 2013	4.25% Senior Notes (the "4.25% Notes")	May 15, 2020	semi-annually on May 15 and November 15	\$ 500,000	\$ 495,714	\$ 495,529
Sirius XM (b)	September 2013	5.875% Senior Notes (the "5.875% Notes")	October 1, 2020	semi-annually on April 1 and October 1	650,000	644,017	643,790
Sirius XM (b)	August 2013	5.75% Senior Notes (the "5.75% Notes")	August 1, 2021	semi-annually on February 1 and August 1	600,000	595,245	595,091
Sirius XM (b)	May 2013	4.625% Senior Notes (the "4.625% Notes")	May 15, 2023	semi-annually on May 15 and November 15	500,000	495,235	495,116
Sirius XM (b)	May 2014	6.00% Senior Notes (the "6.00% Notes")	July 15, 2024	semi-annually on January 15 and July 15	1,500,000	1,484,230	1,483,918
Sirius XM (b)(c)	March 2015	5.375% Senior Notes (the "5.375% Notes")	April 15, 2025	semi-annually on April 15 and October 15	1,000,000	988,808	_
Sirius XM (b)(d)	August 2012	5.25% Senior Secured Notes (the "5.25% Notes")	August 15, 2022	semi-annually on February 15 and August 15	400,000	395,276	395,147
Sirius XM (e)	December 2012	Senior Secured Revolving Credit Facility (the "Credit Facility")	December 5, 2017	variable fee paid quarterly	1,250,000	_	380,000
Sirius XM	Various	Capital leases	Various	n/a	n/a	10,907	12,754
Total Debt						5,109,432	4,501,345
	al current maturities	3				7,546	7,482
Total long-ter	m debt					\$ 5,101,886	\$ 4,493,863

(a) The carrying value of the notes are net of the remaining unamortized original issue discount.

(b) Substantially all of our domestic wholly-owned subsidiaries have guaranteed these notes.

(c) In March 2015, we issued \$1,000,000 aggregate principal amount of 5.375% Senior Notes due 2025, with an original issuance discount of \$11,250.

(d) The liens securing the 5.25% Notes are equal and ratable to the liens granted to secure the Credit Facility.

(e) In December 2012, we entered into a five-year Credit Facility with a syndicate of financial institutions for \$1,250,000. Our obligations under the Credit Facility are guaranteed by certain of its material domestic subsidiaries and are secured by a lien on substantially all of our assets and the assets of its material domestic subsidiaries. Borrowings under the Credit Facility are used for working capital and other general corporate purposes, including dividends, financing of acquisitions and share repurchases. Interest on borrowings is payable on a monthly basis and accrues at a rate based on LIBOR plus an applicable rate. We are also required to pay a variable fee on the average daily unused portion of the Credit Facility which is payable on a quarterly basis. The variable rate for the unused portion of the Credit Facility was 0.30% per annum as of March 31, 2015. As of March 31, 2015, \$1,250,000 was available for future borrowing under the Credit Facility. Our outstanding borrowings under the Credit Facility are classified as Long-term debt within our unaudited consolidated balance sheets due to the long-term maturity of this debt.

Covenants and Restrictions

Under the Credit Facility, we must comply with a debt maintenance covenant that it not exceed a total leverage ratio, calculated as total consolidated debt to consolidated operating cash flow, of 5.0 to 1.0. The Credit Facility generally requires compliance with certain covenants that restrict our ability to, among other things, (i) incur additional indebtedness, (ii) incur liens, (iii) pay dividends or make certain other restricted payments, investments or acquisitions, (iv) enter into certain transactions with affiliates, (v) merge or consolidate with another person, (vi) sell, assign, lease or otherwise dispose of all or substantially all of our assets, and (vii) make voluntary prepayments of certain debt, in each case subject to exceptions.

(Dollars and shares in thousands, except per share amounts)

The indentures governing our notes restrict our non-guarantor subsidiaries' ability to create, assume, incur or guarantee additional indebtedness without such non-guarantor subsidiary guaranteeing each such series of notes on a pari passu basis. The indentures governing the notes also contain covenants that, among other things, limit our ability and the ability of its subsidiaries to create certain liens; enter into sale/leaseback transactions; and merge or consolidate.

Under our debt agreements, the following generally constitute an event of default: (i) a default in the payment of interest; (ii) a default in the payment of principal; (iii) failure to comply with covenants; (iv) failure to pay other indebtedness after final maturity or acceleration of other indebtedness exceeding a specified amount; (v) certain events of bankruptcy; (vi) a judgment for payment of money exceeding a specified aggregate amount; and (vii) voidance of subsidiary guarantees, subject to grace periods where applicable. If an event of default occurs and is continuing, our debt could become immediately due and payable.

At March 31, 2015 and December 31, 2014, we were in compliance with our debt covenants.

(11) Stockholder Equity

Common Stock, par value \$0.001 per share

We are authorized to issue up to 9,000,000 shares of common stock. As of March 31, 2015 and December 31, 2014, there was 1 share of common stock of Sirius XM issued and outstanding, which was owned by Holdings.

Preferred Stock, par value \$0.001 per share

We are authorized to issue up to 50,000 shares of undesignated preferred stock with a liquidation preference of \$0.001 per share. There were no shares of preferred stock issued or outstanding as of March 31, 2015 and December 31, 2014.

(12) Benefit Plans

We recognized share-based payment expense of \$19,417 and \$18,240 for the three months ended March 31, 2015 and 2014, respectively.

As a result of our corporate reorganization in November 2013, all of the outstanding share-based compensation plans of Sirius XM were assumed by Holdings. The stock-based compensation for Sirius XM employees is recorded in Sirius XM's unaudited consolidated financial statements.

2009 Long-Term Stock Incentive Plan

In May 2009, our stockholders approved the Sirius XM Radio Inc. 2009 Long-Term Stock Incentive Plan (the "2009 Plan"). Employees, consultants and members of Holdings' board of directors are eligible to receive awards under the 2009 Plan. The 2009 Plan provides for the grant of stock options, restricted stock awards, restricted stock units and other stock-based awards that the compensation committee of Holdings' board of directors may deem appropriate. Vesting and other terms of stock-based awards are set forth in the agreements with the individuals receiving the awards. Stock-based awards granted under the 2009 Plan are generally subject to a vesting requirement. Stock options generally expire ten years from the date of grant. Each restricted stock unit entitles the holder to receive one share of common stock upon vesting. As of March 31, 2015, 21,668 shares of Holdings' common stock were available for future grants under the 2009 Plan.

Other Plans

We maintain three other share-based benefit plans — the XM 2007 Stock Incentive Plan, the Amended and Restated Sirius Satellite Radio 2003 Long-Term Stock Incentive Plan and the XM 1998 Shares Award. No further awards may be made under these plans, and all outstanding awards are fully vested.

(Dollars and shares in thousands, except per share amounts)

The following table summarizes the weighted-average assumptions used to compute the fair value of options granted to employees and members of Holdings' board of directors:

	For the Three Months Ended March 31,
	2014
Risk-free interest rate	1.3%
Expected life of options — years	3.98
Expected stock price volatility	36%
Expected dividend yield	0%

There were no options granted to employees or members of our board of directors during the three months ended March 31, 2015. There were no options granted to third parties during the three months ended March 31, 2015 and 2014. We do not intend to pay regular dividends on our common stock. Accordingly, the dividend yield percentage used in the Black-Scholes-Merton option value was zero for all periods.

The following table summarizes stock option activity under our share-based plans for the three months ended March 31, 2015:

	Options	Weighted- Average Exercise ice Per Share	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding as of December 31, 2014	267,854	\$ 2.72		
Granted	—	\$ 		
Exercised	(14,654)	\$ 1.65		
Forfeited, cancelled or expired	(3,856)	\$ 5.64		
Outstanding as of March 31, 2015	249,344	\$ 2.73	6.96	\$ 287,147
Exercisable as of March 31, 2015	105,475	\$ 2.26	5.10	\$ 180,876

The weighted average grant date fair value per share of options granted during the three months ended March 31, 2014 was \$1.08. The total intrinsic value of stock options exercised during the three months ended March 31, 2015 and 2014 was \$30,952 and \$11,528, respectively.

We recognized share-based payment expense associated with stock options of \$16,691 and \$16,615 for the three months ended March 31, 2015 and 2014, respectively.

The following table summarizes the nonvested restricted stock unit activity under our share-based plans for the three months ended March 31, 2015:

	Shares	Grant Date Fair Value Per Share
Nonvested as of December 31, 2014	11,575 \$	\$ 3.47
Granted	_ \$	\$
Vested	— 9	\$
Forfeited	(99) \$	\$ 3.46
Nonvested as of March 31, 2015	11,476	\$ 3.47

The weighted average grant date fair value per share of restricted stock units granted during the three months ended March 31, 2014 was \$3.70. There was no vesting of restricted stock units during three months ended March 31, 2015 and 2014.

We recognized share-based payment expense associated with restricted stock units of \$2,726 and \$1,625 during the three months ended March 31, 2015 and 2014, respectively.

Total unrecognized compensation costs related to unvested share-based payment awards for stock options and restricted stock units granted to employees and members of our board of directors at March 31, 2015 and December 31, 2014, net of estimated

(Dollars and shares in thousands, except per share amounts)

forfeitures, were \$142,748 and \$162,985, respectively. The total unrecognized compensation costs at March 31, 2015 are expected to be recognized over a weighted-average period of 2.5 years.

401(k) Savings Plan

Sirius XM sponsors the Sirius XM Radio Inc. 401(k) Savings Plan (the "Sirius XM Plan") for eligible employees. The Sirius XM Plan allows eligible employees to voluntarily contribute from 1% to 50% of their pre-tax eligible earnings, subject to certain defined limits. We match 50% of an employee's voluntary contributions per pay period on the first 6% of an employee's pre-tax salary up to a maximum of 3% of eligible compensation. Employer matching contributions under the Sirius XM Plan vest at a rate of 33.33% for each year of employment and are fully vested after three years of employment for all current and future contributions. Beginning in January 2014, our cash employee elects Holdings' common stock as their investment option for this contribution. We contributed \$3,027 and \$1,879 during three months ended March 31, 2015 and 2014, respectively, to the Sirius XM Plan in fulfillment of our matching obligation.

(13) Commitments and Contingencies

The following table summarizes our expected contractual cash commitments as of March 31, 2015:

	2015	2016	2017	2018	2019	Thereafter	Total
Debt obligations	\$ 5,635	\$ 4,265	\$ 928	\$ 79	\$	\$5,150,000	\$5,160,907
Cash interest payments	190,804	285,703	286,315	281,813	281,813	1,007,375	2,333,823
Satellite and transmission	12,809	4,594	3,643	4,170	4,187	12,719	42,122
Programming and content	162,165	114,617	79,276	61,580	48,333	60,000	525,971
Marketing and distribution	16,887	13,149	9,175	8,388	6,218	1,538	55,355
Satellite incentive payments	8,710	12,367	13,296	14,302	10,652	43,527	102,854
Operating lease obligations	33,644	44,877	38,706	37,176	32,584	208,726	395,713
Other	57,778	16,714	4,959	902	150	50	80,553
Total ⁽¹⁾	\$ 488,432	\$ 496,286	\$ 436,298	\$ 408,410	\$ 383,937	\$6,483,935	\$8,697,298

(1) The table does not include our reserve for uncertain tax positions, which at March 31, 2015 totaled \$1,432, as the specific timing of any cash payments cannot be projected with reasonable certainty.

Debt obligations. Debt obligations include principal payments on outstanding debt and capital lease obligations.

Cash interest payments. Cash interest payments include interest due on outstanding debt and capital lease payments through maturity.

Satellite and transmission. We have entered into agreements with third parties to operate and maintain the off-site satellite telemetry, tracking and control facilities and certain components of our terrestrial repeater networks.

Programming and content. We have entered into various programming agreements. Under the terms of these agreements, our obligations include fixed payments, advertising commitments and revenue sharing arrangements. Our future revenue sharing costs are dependent upon many factors and are difficult to estimate; therefore, they are not included in our minimum contractual cash commitments.

Marketing and distribution. We have entered into various marketing, sponsorship and distribution agreements to promote our brand and are obligated to make payments to sponsors, retailers, automakers and radio manufacturers under these agreements. Certain programming and content agreements also require us to purchase advertising on properties owned or controlled by the licensors. We also reimburse automakers for certain engineering and development costs associated with the incorporation of satellite radios into new vehicles they manufacture. In addition, in the event certain new products are not shipped by a distributor to its customers within 90 days of the distributor's receipt of goods, we have agreed to purchase and take title to the product.

Satellite incentive payments. Boeing Satellite Systems International, Inc., the manufacturer of certain of our in-orbit satellites, may be entitled to future in-orbit performance payments with respect to XM-3 and XM-4 meeting their fifteen-year design life.

SIRIUS XM RADIO INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued (UNAUDITED) (Dellars and shares in the second rare share encounts)

(Dollars and shares in thousands, except per share amounts)

Boeing may also be entitled to additional incentive payments up to \$10,000 if our XM-4 satellite continues to operate above baseline specifications during the five years beyond the satellite's fifteen-year design life.

Space Systems/Loral, the manufacturer of certain of our in-orbit satellites, may be entitled to future in-orbit performance payments with respect to XM-5, FM-5 and FM-6 meeting their fifteen-year design life.

Operating lease obligations. We have entered into both cancelable and non-cancelable operating leases for office space, equipment and terrestrial repeaters. These leases provide for minimum lease payments, additional operating expense charges, leasehold improvements and rent escalations that have initial terms ranging from one to fifteen years, and certain leases have options to renew. The effect of the rent holidays and rent concessions are recognized on a straight-line basis over the lease term, including reasonably assured renewal periods.

Other. We have entered into various agreements with third parties for general operating purposes. In addition to the minimum contractual cash commitments described above, we have entered into agreements with other variable cost arrangements. These future costs are dependent upon many factors, including subscriber growth, and are difficult to anticipate; however, these costs may be substantial. We may enter into additional programming, distribution, marketing and other agreements that contain similar variable cost provisions. The cost of Holdings' stock acquired from a third-party financial institution but not paid for as of March 31, 2015 is included in this category.

We do not have any other significant off-balance sheet financing arrangements that are reasonably likely to have a material effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

Legal Proceedings

In the ordinary course of business, we are a defendant or party to various claims and lawsuits, including those discussed below. These claims are at various stages of arbitration or adjudication.

We record a liability when we believe that it is both probable that a liability will be incurred, and the amount of loss can be reasonably estimated. We evaluate developments in legal matters that could affect the amount of liability that has been previously accrued and make adjustments as appropriate. Significant judgment is required to determine both probability and the estimated amount of a loss or potential loss. We may be unable to reasonably estimate the reasonably possible loss or range of loss for a particular legal contingency for various reasons, including, among others, because: (i) the damages sought are indeterminate; (ii) the proceedings are in the relative early stages; (iii) there is uncertainty as to the outcome of pending proceedings (including motions and appeals); (iv) there is uncertainty as to the likelihood of settlement and the outcome of any negotiations with respect thereto; (v) there remain significant factual issues to be determined or resolved; (vi) the relevant law is unsettled; or (vii) the proceedings involve novel or untested legal theories. In such instances, there may be considerable uncertainty regarding the ultimate resolution of such matters, including a possible eventual loss, if any.

Pre-1972 Sound Recording Matters. We are a defendant in three class action suits and one additional suit, which were commenced in August and September 2013 and challenge our use and public performance via satellite radio and the Internet of sound recordings fixed prior to February 15, 1972 under California, New York and/or Florida law. The plaintiffs in each of these suits purport to seek in excess of \$100,000 in compensatory damages along with unspecified punitive damages and injunctive relief. Accordingly, at this point we cannot estimate the reasonably possible loss, or range of loss, which could be incurred if the plaintiffs were to prevail in the allegations, but we believe we have substantial defenses to the claims asserted. We are defending these actions vigorously.

In September 2014, the United States District Court for the Central District of California ruled that the grant of "exclusive ownership" to the owner of a sound recording under California's copyright statute included the exclusive right to control public performances of the sound recording. The court further found that the unauthorized public performance of sound recordings violated California laws on unfair competition, misappropriation and conversion. In October 2014, the Superior Court of the State of California's copyright statute. That Court did not find that the unauthorized public performance of sound recordings violated California laws on unfair competition, misappropriation and conversion. In November 2014, the Superior Court of sound recordings violated California laws on unfair competition, misappropriation and conversion. In November 2014, the United States District Court for the Southern District of New York ruled that sound recordings fixed before February 15, 1972 were entitled under various theories of New York common law to the benefits of a public performances right. We are appealing the decisions issued by the United States

(Dollars and shares in thousands, except per share amounts)

District Court for the Southern District of New York and the Superior Court of the State of California for the County of Los Angeles, and intend to appeal the decision of the United States District Court for the Central District of California.

These cases are titled <u>Flo & Eddie Inc. v. Sirius XM Radio Inc. et al.</u>, No. 2:13-cv-5693-PSG-RZ (C.D. Cal.), <u>Flo & Eddie, Inc. v. Sirius XM Radio Inc. et al.</u>, No. 1:13-cv-23182-DPG (S.D. Fla.), <u>Flo & Eddie, Inc. v. Sirius XM Radio Inc. et al.</u>, No. 1:13-cv-5784-CM (S.D.N.Y.), and <u>Capitol Records LLC et al. v. Sirius XM Radio Inc.</u>, No. BC-520981 (Super. Ct. L.A. County). Additional information concerning each of these actions is publicly available in court filings under their docket numbers.

In addition, in August 2013, SoundExchange, Inc. filed a complaint in the United States District Court for the District of Columbia alleging that we underpaid royalties for statutory licenses during the 2007-2012 rate period in violation of the regulations established by the Copyright Royalty Board for that period. SoundExchange principally alleges that we improperly reduced our calculation of gross revenues, on which the royalty payments are based, by deducting non-recognized revenue attributable to pre-1972 recordings and Premier package revenue that is not "separately charged" as required by the regulations. SoundExchange is seeking compensatory damages of not less than \$50,000 and up to \$100,000 or more, payment of late fees and interest, and attorneys' fees and costs.

In August 2014, the United States District Court for the District of Columbia granted our motion to dismiss the complaint without prejudice on the grounds that the case properly should be pursued before the Copyright Royalty Board rather than the district court. In December 2014, SoundExchange filed a petition with the Copyright Royalty Board requesting an order interpreting the applicable regulations. At this point we cannot estimate the reasonably possible loss, or range of loss, which could be incurred if the plaintiffs were to prevail in the allegations, but we believe we have substantial defenses to the claims asserted. We intend to defend these actions vigorously.

This matter is titled <u>SoundExchange, Inc. v. Sirius XM Radio, Inc..</u> No.13-cv-1290-RJL (D.D.C.), and *Determination of Rates and Terms for Preexisting Subscription Services and Satellite Digital Audio Radio Services*, United States Copyright Royalty Board, No. 2006-1 CRB DSTRA. Additional information concerning each of these actions is publicly available in filings under their docket numbers.

Telephone Consumer Protection Act Suits. We are a defendant in several purported class action suits, which were commenced in February 2012, January 2013, January 2015 and April 2015, in the United States District Court for the Eastern District of Virginia, Newport News Division, the United States District Court for the Southern District of California, and the United States District Court for the Northern District of Illinois that allege that we, or certain call center vendors acting on our behalf, made numerous calls which violate provisions of the Telephone Consumer Protection Act of 1991 (the "TCPA"). The plaintiffs in these actions allege, among other things, that we called mobile phones using an automatic telephone dialing system without the consumer's prior consent or, alternatively, after the consumer revoked their prior consent and, in one of the actions, that we violated the TCPA's call time restrictions. The plaintiffs in these suits are seeking various forms of relief, including statutory damages of five-hundred dollars for each violation of the TCPA or, in the alternative, treble damages of up to fifteen-hundred dollars for each knowing and willful violation of the TCPA, as well as payment of interest, attorneys' fees and costs, and certain injunctive relief prohibiting violations of the TCPA in the future. Plaintiffs in certain of these suits have filed a motion with the Judicial Panel on Multidistrict Litigation to transfer these purported class actions, and other allegedly related cases, to the United States District Court for the Northern District of Illinois for consolidated or coordinated pretrial proceedings. We believe we have substantial defenses to the claims asserted in these actions, and we intend to defend them vigorously.

We have notified certain of our call center vendors of these actions and requested that they defend and indemnify us against these claims pursuant to the provisions of their existing or former agreements with us. We believe we have valid contractual claims against certain call center vendors in connection with these claims and intend to preserve and pursue our rights to recover from these entities.

These purported class action cases are titled <u>Erik Knutson v. Sirius XM Radio Inc.</u>, No. 12-cv-0418-AJB-NLS (S.D. Cal.), <u>Francis W. Hooker v. Sirius XM Radio, Inc.</u>, No. 4:13-cv-3 (E.D. Va.), <u>Brian Trenz v. Sirius XM Holdings, Inc. and Toyota Motor</u> <u>Sales, U.S.A., Inc.</u>, No. 15-cv-0044L-BLM (S.D. Cal) and <u>Yefim Elikman v. Sirius XM Radio, Inc. and Career Horizons, Inc.</u>, No. 1:15-cv-02093 (N.D. Ill.). Additional information concerning each of these actions is publicly available in court filings under their docket numbers.

(Dollars and shares in thousands, except per share amounts)

With respect to the matters described above under the captions "*Pre-1972 Sound Recording Matters*" and "*Telephone Consumer Protection Act Suits*", we have determined, based on our current knowledge, that the amount of loss or range of loss, that is reasonably possible is not reasonably estimable. However, these matters are inherently unpredictable and subject to significant uncertainties, many of which are beyond our control. As such, there can be no assurance that the final outcome of these matters will not materially and adversely affect our business, financial condition, results of operations, or cash flows.

Other Matters. In the ordinary course of business, we are a defendant in various other lawsuits and arbitration proceedings, including derivative actions; actions filed by subscribers, both on behalf of themselves and on a class action basis; former employees; parties to contracts or leases; and owners of patents, trademarks, copyrights or other intellectual property. None of these matters, in our opinion, is likely to have a material adverse effect on our business, financial condition or results of operations.

(14) Income Taxes

Income tax expense for the three months ended March 31, 2015 and 2014 was \$138,929 and \$76,748, respectively. We estimate our annual effective tax rate for the year ending December 31, 2015 will be 38.3%. Our effective tax rate for the three months ended March 31, 2015 was 56.8% primarily due to the effect of a tax law change in the District of Columbia which will reduce our future taxes. As a result of this tax law change, we will use less of certain net operating losses in the future resulting in a \$44,392 increase in our valuation allowance.

Our effective tax rate for the three months ended March 31, 2014 was 26.8% primarily due to the impact of the gain on change in fair value of debt instruments related to the Exchangeable Notes. The differences in pretax income between Sirius XM and Holdings for the three months ended March 31, 2014 was related to permanent items recognized for book purposes and, therefore, the Income tax expense for 2014 was the same as Holdings.

As of March 31, 2015 and December 31, 2014, we had a valuation allowance related to deferred tax assets of \$49,387 and \$4,995, respectively, that were not likely to be realized due to certain state net operating loss limitations and acquired net operating losses that we were not more likely than not going to utilize.

(15) Subsequent Events

Holdings' Stock Repurchase Program

For the period from April 1, 2015 to April 24, 2015, we repurchased \$136,616 of Holdings' common stock, including fees and commissions, on the open market.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

All amounts referenced in this discussion and analysis are in thousands, except per subscriber and per installation amounts, unless otherwise stated.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited consolidated financial statements and related notes included elsewhere in this Quarterly Report and with Holdings' Annual Report on Form 10-K for the year ended December 31, 2014.

Special Note Regarding Forward-Looking Statements

The following cautionary statements identify important factors that could cause our actual results to differ materially from those projected in forward-looking statements made in this Quarterly Report and in other reports and documents published by us from time to time. Any statements about our beliefs, plans, objectives, expectations, assumptions, future events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as "will likely result," "are expected to," "will continue," "is anticipated," "estimated," "intend," "plan," "projection" and "outlook." Any forward-looking statements are qualified in their entirety by reference to the factors discussed throughout this Quarterly Report and in other reports and documents published by us from time to time, particularly the risk factors described under "Risk Factors" in Part I, Item 1A of Holdings Form 10-K for the year ended December 31, 2014 and "Management's Discussion and Analysis of Financial Condition and Results or Operations" herein and in Part II, Item 7 of Holdings' Annual Report on Form 10-K for the year ended December 31, 2014.

Among the significant factors that could cause our actual results to differ materially from those expressed in the forward-looking statements are:

- we face substantial competition and that competition is likely to increase over time;
- our ability to attract and retain subscribers in the future is uncertain;
- our business depends in large part upon the auto industry;
- general economic conditions can affect our business;
- consumer protection laws and their enforcement could damage our business;
- if we fail to protect the security of personal information about our customers, we could be subject to costly government enforcement actions and private litigation and our reputation could suffer;
- other existing or future government laws and regulations could harm our business;
- failure of our satellites would significantly damage our business;
- interruption or failure of our information technology and communications systems could negatively impact our results and our brand;
- royalties for music rights have increased, there can be no assurance they will not continue to increase, and the market for music rights is changing and is subject to significant uncertainties;
- the unfavorable outcome of pending or future litigation could have a material adverse effect;
- we may not realize the benefits of acquisitions or other strategic initiatives;
- rapid technological and industry changes could adversely impact our services;
- failure of third parties to perform could adversely affect our business;
- failure to comply with FCC requirements could damage our business;
- we may from time to time modify our business plan, and these changes could adversely affect us and our financial condition;
- we have a significant amount of indebtedness, and our revolving credit facility contains certain covenants that restrict our current and future operations;
- our broadcast studios, terrestrial repeater networks, satellite uplink facilities or other ground facilities could be damaged by natural catastrophes or terrorist activities;
- Holdings' principal stockholder has significant influence over our management and over actions requiring general stockholder approval and its interests may differ from the interests of other holders of our common stock;
- Holdings' is a "controlled company" within the meaning of the NASDAQ listing rules and, as a result, qualifies for, and relies on, exemptions from certain corporate governance requirements; and
- our business may be impaired by third-party intellectual property rights.

Because the risk factors referred to above could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements made by us or on our behalf, you should not place undue reliance on any of these forward-looking statements. In addition, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which the statement is made, to reflect the occurrence of unanticipated events or otherwise, except as required by law. New factors emerge from time to time, and it is not possible for us to predict which will arise or to assess with any precision the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Executive Summary

We broadcast music, sports, entertainment, comedy, talk, news, traffic and weather channels, as well as infotainment services, in the United States on a subscription fee basis through our two proprietary satellite radio systems. Subscribers can also receive music and other channels, plus features such as SiriusXM On Demand and MySXM, over our Internet radio service, including through applications for mobile devices. We are also a leader in providing connected vehicle services. Our connected vehicle services are designed to enhance the safety, security and driving experience for vehicle operators while providing marketing and operational benefits to automakers and their dealers. Subscribers and subscription related revenues and expenses associated with our connected vehicle services are not included in our subscriber count or subscriber-based operating metrics.

We have agreements with every major automaker ("OEMs") to offer satellite radios in their vehicles from which we acquire a majority of our subscribers. We also acquire subscribers through marketing to owners of factory-installed satellite radios that are not currently subscribing to our services. Additionally, we distribute our satellite radios through retail locations nationwide and through our website. Satellite radio services are also offered to customers of certain daily rental car companies.

As of March 31, 2015, we had 27.7 million subscribers of which 22.9 million were self-pay subscribers and 4.8 million were paid promotional subscribers. Our subscriber totals include subscribers under our regular pricing plans; discounted pricing plans; subscribers that have prepaid, including payments either made or due from automakers for subscriptions included in the sale or lease price of a vehicle; subscribers to our Internet services who do not also have satellite radio subscriptions; and certain subscribers to our weather, traffic, and data services who do not also have satellite radio subscriptions.

Our primary source of revenue is subscription fees, with most of our customers subscribing on an annual, semi-annual, quarterly or monthly plan. We offer discounts for prepaid, longer term subscription plans, as well as a multiple subscription discount. We also derive revenue from activation and other fees, the sale of advertising on select non-music channels, the direct sale of satellite radios and accessories, and other ancillary services, such as our weather, traffic and data services.

In certain cases, automakers and dealers include a subscription to our radio services in the sale or lease price of new vehicles or previously owned vehicles. The length of these trial subscriptions varies but is typically three to twelve months. We receive subscription payments for these trials from certain automakers. We also reimburse various automakers for certain costs associated with satellite radios installed in new vehicles.

Liberty Media beneficially owns, directly and indirectly, over 50% of the outstanding shares of Holdings' common stock. As a result, Holdings is a "controlled company" for the purposes of the NASDAQ corporate governance requirements. Liberty Media owns interests in a range of media, communications and entertainment businesses.

We also have a 36.9% equity interest in Sirius XM Canada which offers satellite radio services in Canada. Subscribers to the Sirius XM Canada service are not included in our subscriber count.

Results of Operations

Set forth below are our results of operations for the three months ended March 31, 2015 compared with the three months ended March 31, 2014.

	Unaudited For the Three Months Ended March 31,				2015 10	2014 Change
		2015	15 1/10	2014	Amount	2014 Change %

Our results of operations discussed below include the impact of purchase price accounting adjustments associated with the July 2008 merger between our wholly owned subsidiary, Vernon Merger Corporation, and XM Satellite Radio Holdings Inc. (the "Merger"). The purchase price accounting adjustments related to the Merger, include the: (i) elimination of deferred revenue associated with the investment in XM Canada, (ii) recognition of deferred subscriber revenues not recognized in purchase price accounting, and (iii) elimination of the benefit of deferred credits on executory contracts, which are primarily attributable to third party arrangements with an OEM and programming providers. The deferred credits on executory contracts attributable to third party arrangements with an OEM included in revenue share and royalties, subscriber acquisition costs, and sales and marketing concluded with the expiration of the acquired contract during 2014. The impact of these purchase price accounting adjustments is detailed in our Adjusted Revenues and Operating Expenses tables on pages 34 through 35 of our glossary.

Total Revenue

Subscriber Revenue includes subscription, activation and other fees.

For the three months ended March 31, 2015 and 2014, subscriber revenue was \$911,470 and \$851,436, respectively, an increase of 7%, or \$60,034. The increase was primarily attributable to an increase in the daily weighted average number of subscribers and the elimination of certain discounts previously offered to subscribers.

We expect subscriber revenues to increase based on the growth of our subscriber base, including connected vehicle subscribers, the effects of an increase in certain of our subscription rates and the sale of additional services to subscribers.

Advertising Revenue includes the sale of advertising on certain non-music channels.

For the three months ended March 31, 2015 and 2014, advertising revenue was \$26,873 and \$22,214, respectively, an increase of 21%, or \$4,659. The increase was primarily due to a greater number of advertising spots sold and broadcast as well as increased rates per spot.

We expect our advertising revenue to continue to grow as more advertisers are attracted to our national platform and growing subscriber base and as we launch additional non-music channels.

Equipment Revenue includes revenue and royalties from the sale of satellite radios, components and accessories.

For the three months ended March 31, 2015 and 2014, equipment revenue was \$24,841 and \$23,978, respectively, an increase of 4%, or \$863. The increase was driven by higher sales to distributors, offset by lower OEM revenues due to lower per unit royalty rates.

We expect equipment revenue to fluctuate based on OEM production for which we receive royalty payments for our technology and, to a lesser extent, on the volume of equipment sales in our aftermarket and direct to consumer business.

Other Revenue includes amounts earned from subscribers for the U.S. Music Royalty Fee, revenue from our Canadian affiliate and ancillary revenues.

For the three months ended March 31, 2015 and 2014, other revenue was \$117,806 and \$100,083, respectively, an increase of 18%, or \$17,723. The increase was driven by revenues from the U.S. Music Royalty Fee due to an increase in the rate along with an increase in subscribers, and higher revenue generated from our connected vehicle business.

We expect other revenue to increase as our growing subscriber base drives higher U.S. Music Royalty Fees.

Operating Expenses

Revenue Share and Royalties include distribution and content provider revenue share, royalties for broadcasting performance content and web streaming, and advertising revenue share.

For the three months ended March 31, 2015 and 2014, revenue share and royalties were \$212,978 and \$195,411, respectively, an increase of 9%, or \$17,567, and remained flat as a percentage of total revenue. The increase was due, in part, to greater revenues subject to royalty and revenue sharing arrangements and a 5.3% increase in the statutory royalty rate for the performance of sound recordings.

We expect our revenue share and royalty costs to increase as our revenues grow and our royalty rates increase. As determined by the Copyright Royalty Board's decision, we have paid or will pay royalties for the use of certain sound recordings on our satellite radio service of 9.5%, 10.0% and 10.5% in 2014, 2015 and 2016, respectively.

Programming and Content includes costs to acquire, create, promote and produce content. We have entered into various agreements with third parties for music and non-music programming that require us to pay license fees and other amounts.

For the three months ended March 31, 2015 and 2014, programming and content expenses were \$71,146 and \$74,870, respectively, a decrease of 5%, or \$3,724, and decreased as a percentage of total revenue. The decrease was primarily due to the termination of certain agreements.

We expect our programming and content expenses to fluctuate as we offer additional programming, and renew or replace expiring agreements.

Customer Service and Billing includes costs associated with the operation and management of internal and third party customer service centers, and our subscriber management systems as well as billing and collection costs, transaction fees and bad debt expense.

For the three months ended March 31, 2015 and 2014, customer service and billing expenses were \$92,097 and \$91,069, respectively, an increase of 1%, or \$1,028, but decreased as a percentage of total revenue. The increase was primarily due to higher costs associated with our connected vehicle business and a higher subscriber base driving increased transaction fees, partially offset by efficiencies attained in our call centers.

We expect our customer service and billing expenses to increase as our subscriber base grows.

Table of Contents

Satellite and Transmission consists of costs associated with the operation and maintenance of our terrestrial repeater networks; satellites; satellite telemetry, tracking and control systems; satellite uplink facilities; broadcast studios; and delivery of our Internet streaming service.

For the three months ended March 31, 2015 and 2014, satellite and transmission expenses were \$21,304 and \$21,380, respectively, a decrease of less than 1%, or \$76, but remained flat as a percentage of total revenue. The slight decrease was primarily due to lower satellite insurance costs, partially offset by costs associated with our Internet streaming operations.

We expect satellite and transmission expenses to increase slightly as higher Internet streaming and terrestrial repeater network costs are partially offset by decreases in satellite insurance costs.

Cost of Equipment includes costs from the sale of satellite radios, components and accessories and provisions for inventory allowance attributable to products purchased for resale in our direct to consumer distribution channels.

For the three months ended March 31, 2015 and 2014, cost of equipment was \$8,845 and \$7,804, respectively, an increase of 13%, or \$1,041, and increased as a percentage of equipment revenue. The increase was primarily due to higher sales to distributors.

We expect cost of equipment to fluctuate with changes in sales and inventory valuations.

Subscriber Acquisition Costs include hardware subsidies paid to radio manufacturers, distributors and automakers; subsidies paid for chipsets and certain other components used in manufacturing radios; device royalties for certain radios and chipsets; commissions paid to automakers and retailers; product warranty obligations; freight; and provisions for inventory allowances attributable to inventory consumed in our OEM and retail distribution channels. The majority of subscriber acquisition costs are incurred and expensed in advance of, or concurrent with, acquiring a subscriber. Subscriber acquisition costs do not include advertising costs, marketing, loyalty payments to distributors and dealers of satellite radios or revenue share payments to automakers and retailers of satellite radios.

For the three months ended March 31, 2015 and 2014, subscriber acquisition costs were \$122,260 and \$123,022, respectively, a decrease of 1%, or \$762, and decreased as a percentage of total revenue. Improved OEM subsidy rates per vehicle and improved chipset subsidy rates were partially offset by increased costs related to a larger number of satellite radio installations in new vehicles.

We expect subscriber acquisition costs to fluctuate with OEM installations and aftermarket volume; however, the cost of subsidized radio components is expected to decline. We intend to continue to offer subsidies, commissions and other incentives to acquire subscribers.

Sales and Marketing includes costs for marketing, advertising, media and production, including promotional events and sponsorships; cooperative marketing; and personnel. Marketing costs include expenses related to direct mail, outbound telemarketing and email communications.

For the three months ended March 31, 2015 and 2014, sales and marketing expenses were \$78,744 and \$76,327, respectively, an increase of 3%, or \$2,417, but decreased as a percentage of total revenue. The increase was primarily due to additional subscriber communications and retention programs associated with a greater number of subscribers and promotional trials, partially offset by lower personnel costs.

We anticipate that sales and marketing expenses will increase as we expand programs to retain our existing subscribers, win back former subscribers, and attract new subscribers.

Engineering, Design and Development consists primarily of compensation and related costs to develop chipsets and new products and services, research and development for broadcast information systems and costs associated with the incorporation of our radios into new vehicles manufactured by automakers.

For the three months ended March 31, 2015 and 2014, engineering, design and development expenses were \$14,960 and \$15,911, respectively, a decrease of 6%, or \$951, but remained flat as a percentage of total revenue. The decrease was driven primarily by lower product development costs.

We expect engineering, design and development expenses to increase in future periods as we continue to develop our products and services.

Table of Contents

General and Administrative primarily consists of compensation and related costs for personnel and facilities, and include costs related to our finance, legal, human resources and information technologies departments.

For the three months ended March 31, 2015 and 2014, general and administrative expenses were \$79,823 and \$76,243, respectively, an increase of 5%, or \$3,580, but decreased as a percentage of total revenue. The increase was primarily driven by higher litigation costs and personnel costs, partially offset by lower legal and investment banking expenses related to the Liberty Media proposal incurred during the first quarter of 2014.

We expect our general and administrative expenses to increase in future periods as a result of, among other things, enhanced information technology, on-going legal costs and personnel costs to support the growth of our business.

Depreciation and Amortization represents the recognition in earnings of the acquisition cost of assets used in operations, including our satellite constellations, property, equipment and intangible assets, over their estimated service lives.

For the three months ended March 31, 2015 and 2014, depreciation and amortization expense was \$65,027 and \$68,267, respectively, a decrease of 5%, or \$3,240, and decreased as a percentage of total revenue. The decrease was driven by a reduction of amortization associated with the stepped-up basis in assets acquired in the Merger (including intangible assets, satellites, property and equipment) through the end of their estimated service lives and certain satellites reaching the end of their estimated service lives.

Other Income (Expense)

Interest Expense, Net of Amounts Capitalized, includes interest on outstanding debt.

For the three months ended March 31, 2015 and 2014, interest expense was \$69,908 and \$54,092, respectively, an increase of 29%, or \$15,816. The increase was primarily due to higher average debt during the three months ended March 31, 2015 compared to the three months ended March 31, 2014. The increase was partially offset by lower average interest rates resulting from the repayment and conversion of higher interest rate debt during 2014.

We expect interest expense to increase in future periods to the extent our total debt outstanding increases.

Interest and Investment Income includes realized gains and losses, interest income, and our share of the income or loss of Sirius XM Canada.

For the three months ended March 31, 2015 and 2014, interest and investment income was \$981 and \$4,349, respectively. The income for the three months ended March 31, 2015 was driven by the dividends received from Sirius XM Canada in excess of our investment. The income for the three months ended March 31, 2014 was driven by our share of Sirius XM Canada's net income and gain from the conversion of certain debentures into shares of Sirius XM Canada, partially offset by the amortization expense related to our equity method intangible assets.

Gain on Change in Fair Value of Debt Instruments represents the change in fair value associated with the 7% Exchangeable Senior Subordinated Notes due 2014 that were outstanding until December 1, 2014.

For the three months ended March 31, 2014 there was a gain on change in fair value of debt instruments of \$89,110 which resulted from a change in the fair value price of the 7% Exchangeable Senior Subordinated Notes due 2014 ("Exchangeable Notes"). The Exchangeable Notes matured on December 1, 2014.

Income Taxes

Income Tax Expense includes the change in our deferred tax assets, foreign withholding taxes and current federal and state tax expenses.

For the three months ended March 31, 2015 and 2014, income tax expense was \$138,929 and \$76,748, respectively. Our effective tax rate for the three months ended March 31, 2015 was 56.8% primarily due to the effect of a tax law change in the District of Columbia which will reduce our future taxes. As a result of this tax law change, we will use less of certain net operating losses in the future resulting in a \$44,392 increase in our valuation allowance. We estimate our annual effective tax rate for the year ending December 31, 2015 will be 38.3%.

Our effective tax rate for the three months ended March 31, 2014 was 26.8% primarily due to the impact of gain on change in fair value of debt instruments related to the Exchangeable Notes.

Key Operating Metrics

In this section, we present certain financial and operating performance measures that are not calculated and presented in accordance with generally accepted accounting principles in the United States ("Non-GAAP"). These metrics include: average monthly revenue per subscriber, or ARPU; customer service and billing expenses, per average subscriber; subscriber acquisition cost, or SAC, per installation; free cash flow; and adjusted EBITDA. These measures exclude the impact of share-based payment expense and certain purchase price accounting adjustments related to the Merger, which include the: (i) elimination of deferred revenue associated with the investment in XM Canada, (ii) recognition of deferred subscriber revenues not recognized in purchase price accounting, and (iii) elimination of the benefit of deferred credits on executory contracts, which are primarily attributable to third party arrangements with an OEM and programming providers. We use these Non-GAAP financial measures to manage our business, to set operational goals and as a basis for determining performance-based compensation for our employees.

Free cash flow is a metric that our management and board of directors use to evaluate the cash generated by our operations, net of certain of Holdings' equity-related transactions, capital expenditures and other investment activity. In a capital intensive business, with significant investments in satellites, we look at our operating cash flow, net of these investing and financing cash outflows, to determine cash available for future subscriber acquisition and capital expenditures, to repurchase or retire debt, to acquire other companies and to evaluate our ability to return capital to Holdings' stockholders. We believe free cash flow is an indicator of the longterm financial stability of our business. Free cash flow, which is reconciled to "Net cash provided by operating activities," is a Non-GAAP financial measure. This measure can be calculated by deducting amounts used in certain of Holdings' equity-related transactions, and by deducting amounts under the captions "Additions to property and equipment" and deducting or adding Restricted and other investment activity from "Net cash provided by operating activities" from the unaudited consolidated statements of cash flows. Free cash flow should be used in conjunction with other GAAP financial performance measures and may not be comparable to free cash flow measures presented by other companies. Free cash flow should be viewed as a supplemental measure rather than an alternative measure of cash flows from operating activities, as determined in accordance with GAAP. Free cash flow is limited and does not represent remaining cash flows available for discretionary expenditures due to the fact that the measure does not deduct the payments required for debt maturities. We believe free cash flow provides useful supplemental information to investors regarding our current and projected cash flow, along with other GAAP measures (such as cash flows from operating and investing activities), to determine our financial condition, and to compare our operating performance to other communications, entertainment and media companies.

We believe these Non-GAAP financial measures provide useful information to investors regarding our financial condition and results of operations. We believe investors find these Non-GAAP financial performance measures useful in evaluating our core trends because it provides a direct view of our underlying contractual costs. We believe investors use our current and projected adjusted EBITDA to estimate our current or prospective enterprise value and to make investment decisions. By providing these Non-GAAP financial measures, together with the reconciliations to the most directly comparable GAAP measure, we believe we are enhancing investors' understanding of our business and our results of operations.

Table of Contents

These Non-GAAP financial measures should be viewed in addition to, and not as an alternative for or superior to, our reported results prepared in accordance with GAAP. In addition, these Non-GAAP financial measures may not be comparable to similarly-titled measures by other companies. Please refer to the glossary (pages 33 through 36) for a further discussion of such Non-GAAP financial measures and reconciliations to the most directly comparable GAAP measure. The following table contains our key operating metrics based on our adjusted results of operations for the three months ended March 31, 2015 and 2014. Subscribers and subscription related revenues and expenses associated with our connected vehicle services are not included in our subscriber count or subscriber-based operating metrics:

	Unaudited					
	For the Three Months Ended March 31,					
	2015	2014				
Self-pay subscribers	22,917	21,25	5			
Paid promotional subscribers	4,826	4,57	1			
Ending subscribers ^(a)	27,742	25,820	6			
Self-pay subscribers	394	17.	3			
Paid promotional subscribers	37	9.	3			
Net additions ^(a)	431	26	7			
Daily weighted average number of subscribers	27,406	25,602	2			
Average self-pay monthly churn	1.8%	% 1.9	9%			
New vehicle consumer conversion rate	40%	%42	2%			
ARPU	\$ 12.26	\$ 12.1	8			
SAC, per installation	\$ 33	\$ 3.	5			
Customer service and billing expenses, per average						
subscriber	\$ 1.01	\$ 1.0	9			
Free cash flow	\$ 276,232	\$ 222,78	9			
Adjusted EBITDA	\$ 399,227	\$ 334,782	2			

(a) Note: Amounts may not sum as a result of rounding.

Subscribers. At March 31, 2015, we had 27.7 million subscribers, an increase of 1.9 million subscribers, or 7%, from the 25.8 million subscribers as of March 31, 2014.

For the three months ended March 31, 2015 and 2014, net additions were 431 thousand and 267 thousand, respectively, an increase of 164 thousand, or 61%. The increase in subscribers was primarily due to increases in trial conversions and lower voluntary churn, partially offset by higher deactivations related to vehicle turnover.

Average Self-pay Monthly Churn is derived by dividing the monthly average of self-pay deactivations for the period by the average number of self-pay subscribers for the period. (See accompanying glossary on pages 33 through 36 for more details.)

For the three months ended March 31, 2015 and 2014, our average self-pay monthly churn rate was 1.8% and 1.9%, respectively. The decrease was due to improvements in voluntary churn partially offset by increased migrations of existing self-pay subscribers to unpaid trials.

New Vehicle Consumer Conversion Rate is the percentage of owners and lessees of new vehicles that receive our service and convert to become self-paying subscribers after an initial promotional period. The metric excludes rental and fleet vehicles. (See accompanying glossary on pages 33 through 36 for more details).

For the three months ended March 31, 2015 and 2014, the new vehicle consumer conversion rate was 40% and 42%, respectively. The decrease in the new vehicle consumer conversion rate was primarily due to an increased penetration rate and lower conversion of first-time satellite enabled car buyers and lessees.

ARPU is derived from total earned subscriber revenue (excluding revenue derived from our connected vehicle services business), net advertising revenue and other subscription-related revenue, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. (For a reconciliation to GAAP see the accompanying glossary on pages 33 through 36 for more details.)

For the three months ended March 31, 2015 and 2014, ARPU was \$12.26 and \$12.18, respectively. The increase was driven primarily by the contribution of the U.S. Music Royalty Fee and the elimination of certain discounts offered to subscribers. The

positive result was partially offset by growth in subscription discounts offered through customer acquisition and retention programs, and a shift to longer-term promotional data service plans with lower rates.

SAC, Per Installation, is derived from subscriber acquisition costs and margins from the sale of radios, components and accessories, excluding purchase price accounting adjustments, divided by the number of satellite radio installations in new vehicles and shipments of aftermarket radios for the period. (For a reconciliation to GAAP see the accompanying glossary on pages 33 through 36 for more details.)

For the three months ended March 31, 2015 and 2014, SAC, per installation, was \$33 and \$35, respectively. The decrease was primarily due to improvements in contractual OEM rates.

Customer Service and Billing Expenses, Per Average Subscriber, is derived from total customer service and billing expenses, excluding connected vehicle customer service and billing expenses and share-based payment expense, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. (For a reconciliation to GAAP see the accompanying glossary on pages 33 through 36 for more details.)

For the three months ended March 31, 2015 and 2014, customer service and billing expenses, per average subscriber, were \$1.01 and \$1.09, respectively. The decrease was primarily driven by efficiencies attained in our call centers as well as lower subscriber contacts.

Free Cash Flow includes the net cash provided by operations, additions to property and equipment, and restricted and other investment activity, excluding cash used for certain of Holdings' equity-related transactions. (For a reconciliation to GAAP see the accompanying glossary on pages 33 through 36 for more details.)

For the three months ended March 31, 2015 and 2014, free cash flow was \$276,232 and \$222,789, respectively, an increase of \$53,443 or 24%. The increase was primarily driven by higher net cash provided by operating activities from improved operating performance, and higher collections from subscribers, partially offset by higher interest payments.

Adjusted EBITDA. EBITDA is defined as net income before interest and investment income (loss); interest expense, net of amounts capitalized; income tax expense and depreciation and amortization. Adjusted EBITDA excludes the impact of other income and expense, losses on extinguishment of debt, gain on change in fair value of debt instruments as well as certain other non-cash charges, such as certain purchase price accounting adjustments and share-based payment expense. (For a reconciliation to GAAP see the accompanying glossary on pages 33 through 36 for more details.)

For the three months ended March 31, 2015 and 2014, adjusted EBITDA was \$399,227 and \$334,782, respectively, an increase of 19%, or \$64,445. The increase was due to growth in adjusted revenues primarily as a result of the increase in our subscriber base and certain of our subscription rates, improved OEM subsidy rates per vehicle, and the termination of certain programming agreements; partially offset by higher costs associated with the growth in our revenues and subscriber base.

Liquidity and Capital Resources

Cash Flows for three months ended March 31, 2015 compared with the three months ended March 31, 2014.

As of March 31, 2015 and December 31, 2014, we had \$482,043 and \$147,724, respectively, of cash and cash equivalents. The following table presents a summary of our cash flow activity for the periods set forth below:

	For the Three Months Ended March 31,						
		2015 2014				2015 vs 2014	
Net cash provided by operating activities	\$	297,318	\$	247,420	\$	49,898	
Net cash used in investing activities		(33,797)		(27,457)		(6,340)	
Net cash provided by (used in) financing activities		70,798		(233,597)		304,395	
Net increase (decrease) in cash and cash equivalents		334,319		(13,634)		347,953	
Cash and cash equivalents at beginning of period		147,724		134,805		12,919	
Cash and cash equivalents at end of period	\$	482,043	\$	121,171	\$	360,872	

Cash Flows Provided by Operating Activities

Cash flows provided by operating activities increased by \$49,898 to \$297,318 for the three months ended March 31, 2015 from \$247,420 for the three months ended March 31, 2014.

Table of Contents

Our largest source of cash provided by operating activities is generated by subscription and subscription-related revenues. We also generate cash from the sale of advertising on certain non-music channels and the sale of satellite radios, components and accessories. Our primary uses of cash from operating activities include revenue share and royalty payments to distributors and content providers, and payments to radio manufacturers, distributors and automakers. In addition, uses of cash from operating activities include payments to vendors to service, maintain and acquire subscribers, general corporate expenditures, and compensation and related costs.

Cash Flows Used in Investing Activities

Cash flows used in investing activities are primarily due to additional spending to improve our terrestrial repeater network and for capitalized software. We expect to continue to incur significant costs to improve our terrestrial repeater network and broadcast and administrative infrastructure. In 2015, our cash flows used in investing activities also included an increase to our letters of credit issued for the benefit of lessors of our office space.

Cash Flows Provided by (Used in) Financing Activities

Cash flows provided by (used in) financing activities consists of the issuance and repayment of long-term debt and intercompany financing activities related to the purchase of common stock under Holdings' share repurchase program. Proceeds from long-term debt, related party debt and equity issuances have been used to fund our operations, construct and launch new satellites and invest in other infrastructure improvements.

Cash flows provided by financing activities in 2015 were due to the issuance of \$1,000,000 aggregate principal amount of 5.375% Senior Notes due 2025 and borrowings under the Credit Facility. Cash flows used in financing activities in 2015 were primarily due to the purchase and retirement of shares of Holdings' common stock under Holdings' repurchase program for \$535,216 and repayments under the Credit Facility. Cash flows used in financing activities in 2014 were primarily due to repayments under the Credit Facility. Cash flows used in financing activities in 2014 were primarily due to repayments under the Credit Facility and the purchase and retirement of shares of Holdings' common stock under Holdings' repurchase program for \$81,069.

Future Liquidity and Capital Resource Requirements

Based upon our current business plans, we expect to fund operating expenses, capital expenditures, working capital requirements, interest payments, taxes and scheduled maturities of our debt with existing cash, cash flow from operations and borrowings under our Credit Facility. We believe that we have sufficient cash and cash equivalents as well as debt capacity to cover our estimated short-term and long-term funding needs, stock repurchases and strategic opportunities.

Our ability to meet our debt and other obligations depends on our future operating performance and on economic, financial, competitive and other factors. We continually review our operations for opportunities to adjust the timing of expenditures to ensure that sufficient resources are maintained.

We regularly evaluate our business plans and strategy. These evaluations often result in changes to our business plans and strategy, some of which may be material and significantly change our cash requirements. These changes in our business plans or strategy may include: the acquisition of unique or compelling programming; the introduction of new features or services; significant new or enhanced distribution arrangements; investments in infrastructure, such as satellites, equipment or radio spectrum; and acquisitions, including acquisitions that are not directly related to our satellite radio business.

Holdings' Stock Repurchase Program

Since December 2012, Holdings' board of directors has approved for repurchase an aggregate of \$6,000,000 of its common stock. As of March 31, 2015, Holdings' cumulative repurchases since December 2012 totaled \$4,819,232 and \$1,180,768 remained available under Holdings' stock repurchase program. We expect to fund future repurchases of Holdings' common stock through a combination of cash on hand, cash generated by operations and future borrowings.

Debt Covenants

The indentures governing our senior notes, and the agreement governing Sirius XM's Credit Facility include restrictive covenants. As of March 31, 2015, we were in compliance with such covenants. For a discussion of our "Debt Covenants," refer to Note 10 to our unaudited consolidated financial statements in this Quarterly Report.

Off-Balance Sheet Arrangements

We do not have any significant off-balance sheet arrangements other than those disclosed in Note 13 to our unaudited consolidated financial statements in this Quarterly Report that are reasonably likely to have a material effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

Contractual Cash Commitments

For a discussion of our "Contractual Cash Commitments," refer to Note 13 to our unaudited consolidated financial statements in this Quarterly Report.

Related Party Transactions

For a discussion of "Related Party Transactions," refer to Note 8 to our unaudited consolidated financial statements in this Quarterly Report.

Critical Accounting Policies and Estimates

For a discussion of our "Critical Accounting Policies and Estimates," refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report for the year ended December 31, 2014. There have been no material changes to our critical accounting policies and estimates since December 31, 2014.

Glossary

Adjusted EBITDA - EBITDA is defined as net income before interest and investment income (loss); interest expense, net of amounts capitalized; income tax expense and depreciation and amortization. We adjust EBITDA to exclude the impact of other income and expense, loss on extinguishment of debt, gain on change in fair value of debt instruments as well as certain other charges discussed below. This measure is one of the primary Non-GAAP financial measures on which we (i) evaluate the performance of our businesses, (ii) base our internal budgets and (iii) compensate management. Adjusted EBITDA is a Non-GAAP financial performance measure that excludes (if applicable): (i) certain adjustments as a result of the purchase price accounting for the Merger, (ii) depreciation and amortization and (iii) share-based payment expense. The purchase price accounting adjustments include: (i) the elimination of deferred revenue associated with the investment in XM Canada, (ii) recognition of deferred subscriber revenues not recognized in purchase price accounting, and (iii) elimination of the benefit of deferred credits on executory contracts, which are primarily attributable to third party arrangements with an OEM and programming providers. We believe adjusted EBITDA is a useful measure of the underlying trend of our operating performance, which provides useful information about our business apart from the costs associated with our physical plant, capital structure and purchase price accounting. We believe investors find this Non-GAAP financial measure useful when analyzing our results and comparing our operating performance to the performance of other communications, entertainment and media companies. We believe investors use current and projected adjusted EBITDA to estimate our current and prospective enterprise value and to make investment decisions. Because we fund and build-out our satellite radio system through the periodic raising and expenditure of large amounts of capital, our results of operations reflect significant charges for depreciation expense. The exclusion of depreciation and amortization expense is useful given significant variation in depreciation and amortization expense that can result from the potential variations in estimated useful lives, all of which can vary widely across different industries or among companies within the same industry. We also believe the exclusion of share-based payment expense is useful given share-based payment expense is not directly related to the operational conditions of our business.

Adjusted EBITDA has certain limitations in that it does not take into account the impact to our statements of comprehensive income of certain expenses, including share-based payment expense and certain purchase price accounting for the Merger. We endeavor to compensate for the limitations of the Non-GAAP measure presented by also providing the comparable GAAP measure with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the Non-GAAP measure. Investors that wish to compare and evaluate our operating results after giving effect for these costs, should refer to net income as disclosed in our unaudited consolidated statements of comprehensive income. Since adjusted EBITDA is a Non-GAAP financial performance measure, our calculation of adjusted EBITDA may be susceptible to varying calculations; may not be comparable to other similarly titled measures of other companies; and should not be considered in isolation, as a substitute for, or superior to measures of financial performance prepared in accordance with GAAP. The reconciliation of net income to the adjusted EBITDA is calculated as follows:

	F	Unaudited For the Three Months Ended March 31.				
		2015 2014				
Net income (GAAP):	\$	105,692 \$	210,121			
Add back items excluded from Adjusted EBITDA:						
Purchase price accounting adjustments:						
Revenues (see pages 34-35)		1,813	1,813			
Operating expenses (see pages 34-35)		(836)	(945)			
Share-based payment expense (GAAP)		19,417	18,240			
Depreciation and amortization (GAAP)		65,027	68,267			
Interest expense, net of amounts capitalized (GAAP)		69,908	54,092			
Interest and investment income (GAAP)		(981)	(4,349)			
Gain on change in fair value of debt instruments (GAAP)		_	(89,110)			
Other loss (income) (GAAP)		258	(95)			
Income tax expense (GAAP)		138,929	76,748			
Adjusted EBITDA	\$	399,227 \$	334,782			

Table of Contents

<u>Adjusted Revenues and Operating Expenses</u> - We define this Non-GAAP financial measure as our actual revenues and operating expenses adjusted to exclude the impact of certain purchase price accounting adjustments from the Merger and share-based payment expense. We use this Non-GAAP financial measure to manage our business, to set operational goals and as a basis for determining performance-based compensation for our employees. The following tables reconcile our actual revenues and operating expenses to our adjusted revenues and operating expenses for the three months ended March 31, 2015 and 2014:

	Unaudited For the Three Months Ended March 31, 2015							
		As Reported]	Purchase Price Accounting Adjustments	J	Allocation of Share-based Payment Expense		Adjusted
Revenue:								
Subscriber revenue	\$	911,470	\$		\$	_	\$	911,470
Advertising revenue		26,873		—				26,873
Equipment revenue		24,841		—		—		24,841
Other revenue		117,806		1,813		_		119,619
Total revenue	\$	1,080,990	\$	1,813	\$	_	\$	1,082,803
Operating expenses								
Cost of services:								
Revenue share and royalties	\$	212,978	\$	—	\$	—	\$	212,978
Programming and content		71,146		836		(2,227)		69,755
Customer service and billing		92,097		—		(695)		91,402
Satellite and transmission		21,304				(937)		20,367
Cost of equipment		8,845		—		—		8,845
Subscriber acquisition costs		122,260		—		—		122,260
Sales and marketing		78,744		—		(3,744)		75,000
Engineering, design and development		14,960		—		(2,134)		12,826
General and administrative		79,823		—		(9,680)		70,143
Depreciation and amortization ^(a)		65,027		—				65,027
Share-based payment expense						19,417		19,417
Total operating expenses	\$	767,184	\$	836	\$		\$	768,020

(a) Purchase price accounting adjustments included above exclude the incremental depreciation and amortization associated with the \$785,000 stepped up basis in property, equipment and intangible assets as a result of the Merger. The increased depreciation and amortization for the three months ended March 31, 2015 was \$9,000.

		Unaudited For the Three Months Ended March 31, 2014						l .
	A	s Reported		urchase Price Accounting Adjustments	Allocati Share-b Payment H	ased		Adjusted
Revenue:								
Subscriber revenue	\$	851,436	\$		\$		\$	851,436

Customer service and billing		91,069				(577)		90,492
Satellite and transmission		21,380				(946)		20,434
Cost of equipment		7,804						7,804
Subscriber acquisition costs		123,022						123,022
Sales and marketing		76,327				(3,566)		72,761
Engineering, design and development		15,911				(1,926)		13,985
General and administrative		76,243				(9,010)		67,233
Depreciation and amortization ^(a)		68,267						68,267
Share-based payment expense				_		18,240		18,240
Total operating expenses	\$	750,304	\$	945	\$		\$	751,249

(a) Purchase price accounting adjustments included above exclude the incremental depreciation and amortization associated with the \$785,000 stepped up basis in property, equipment and intangible assets as a result of the Merger. The increased depreciation and amortization for the three months ended March 31, 2014 was \$10,000.

<u>ARPU</u> - is derived from total earned subscriber revenue, advertising revenue and other subscription-related revenue, excluding revenue associated with our connected vehicle business, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. Other subscription-related revenue includes the U.S. Music Royalty Fee. ARPU is calculated as follows:

	 Unaudited For the Three Months Ended March 31,					
	2015		2014			
Subscriber revenue, excluding connected vehicle (GAAP)	\$ 888,381	\$	832,804			
Add: advertising revenue (GAAP)	26,873		22,214			
Add: other subscription-related revenue (GAAP)	92,654		80,768			
	\$ 1,007,908	\$	935,786			
Daily weighted average number of subscribers	 27,406		25,602			
ARPU	\$ 12.26	\$	12.18			

<u>Average self-pay monthly churn</u> - is defined as the monthly average of self-pay deactivations for the period divided by the average number of self-pay subscribers for the period.

<u>Customer service and billing expenses, per average subscriber</u> - is derived from total customer service and billing expenses, excluding connected vehicle customer service and billing expenses and share-based payment expense, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. We believe the exclusion of share-based payment expense in our calculation of customer service and billing expenses, per average subscriber, is useful as share-based payment expense is not directly related to the operational conditions that give rise to variations in the components of our customer service and billing expenses, per average subscriber, is calculated as follows:</u>

	 Unaudited				
	For the Three Months Ended March 31,				
	2015	2014			
Customer service and billing expenses, excluding connected vehicle (GAAP)	\$ 84,061	\$	84,103		
Less: share-based payment expense (GAAP)	 (695)		(577)		
	\$ 83,366	\$	83,526		
Daily weighted average number of subscribers	 27,406		25,602		
Customer service and billing expenses, per average subscriber	\$ 1.01	\$	1.09		

<u>Free cash flow</u> - is derived from cash flow provided by operating activities less cash used for certain of Holdings' equity-related transactions, capital expenditures and restricted and other investment activity. Free cash flow is calculated as follows:

		Unaudited For the Three Months Ended March 31,				
		2015		2014		
Cash Flow information						
Net cash provided by operating activities	\$	297,318	\$	247,420		
Net cash used in investing activities	\$	(33,797)	\$	(27,457)		
Net cash provided by (used in) financing activities	\$	70,798	\$	(233,597)		
Free Cash Flow						
Net cash provided by operating activities	\$	297,318	\$	247,420		
Equity-related transactions for Holdings ^(a)		12,711		3,970		
Additions to property and equipment		(29,831)		(28,601)		
Purchases of restricted and other investments		(3,966)		_		
Free cash flow	\$	276,232	\$	222,789		

(a) Subsequent to our corporate reorganization in November 2013, certain equity-related transactions are reported as related party transactions within Sirius XM's consolidated statements of cash flows. For the three months ended March 31, 2013 and 2014, this included payments of \$12,711 and \$4,229, respectively, for taxes paid in lieu of shares issued for stock-based compensation and for the three months ended March 31, 2014, this also included \$259 in proceeds from the exercise of stock options. These equity-related transactions are classified as Cash flows provided by financing activities within Holdings' unaudited consolidated statements of cash flows, and therefore, are adjusted to reflect free cash flow at Sirius XM.

<u>New vehicle consumer conversion rate</u> - is defined as the percentage of owners and lessees of new vehicles that receive our satellite radio service and convert to become self-paying subscribers after the initial promotion period. At the time satellite radio enabled vehicles are sold or leased, the owners or lessees generally receive trial subscriptions ranging from three to twelve months. We measure conversion rate three months after the period in which the trial service ends. The metric excludes rental and fleet vehicles.

<u>Subscriber acquisition cost, per installation</u> - or SAC, per installation, is derived from subscriber acquisition costs and margins from the sale of radios and accessories, excluding purchase price accounting adjustments, divided by the number of satellite radio installations in new vehicles and shipments of aftermarket radios for the period. Purchase price accounting adjustments associated with the Merger include the elimination of the benefit of amortization of deferred credits on executory contracts recognized at the Merger date attributable to an OEM. SAC, per installation, is calculated as follows:

	Unaudited For the Three Months Ended March 31,					
		2014				
Subscriber acquisition costs (GAAP)	\$	122,260	\$	123,022		
Less: margin from direct sales of radios and accessories (GAAP)		(15,996)		(16,174)		
	\$	106,264	\$	106,848		
Installations		3,221		3,079		
SAC, per installation	\$	33	\$	35
